

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

The Child's Toys.

Cloaked under a pretense of making the children happy, our sins have been many. In the first place, we have been giving them too many toys and have made the recipients blasé and unappreciative.

Here we have in a nutshell the main principle underlying the selection of toys. The child's toys should stimulate his imagination and make him work.

Booth Tarkington was talking in Indianapolis about a novelist of the "high-brow" type—one of those half-starved novelists whose reviews are much more remarkable than their sales.

"As this novelist, shabby and cold," said Mr. Tarkington, "was walking in Fifth avenue one wintry afternoon there glided past the magnificent automobile of a publisher who had brought out one of the poor fellow's books at a heavy loss."

The publisher signaled to his chauffeur, the automobile stopped, and the novelist, in reply to a wave of the millionaire's hand, presented himself at the window of the car humbly.

"The publisher, wrapped in furs, said: 'There's a great manuscript nearly falling out of your hip pocket. If you weren't so well known—'

"If you weren't so well known," he repeated, 'I guess you'd have had your pocket picked.'"

To Escape Gold Bricks. A man or a woman with funds to invest should make it a primary principle to first consult an experienced banking house of established reputation.

The first step in the prudent investment of your money is the selection of your banking house. You should choose a banker not only willing but competent to serve you every need—one with the requisite patience and sympathy to study your investment problem from all angles, to make your problem his problem.

Few investors realize that within the past few years there has sprung up a new guild in the banking business, bankers whose business runs well over \$100,000,000 annually and whose success is largely due to the faithful and thoughtful attention given each serious inquiry or request for advice.

If you can save and command \$100 or more each year you can command the best financial brains in America.—Leslie's.

Ignored the Heart Convention. "Did you hear that Mrs. Brownbill has adopted some sort of new belief?" "I'm not at all surprised. I saw her playing bridge last night, and when her partner led spades on a doubled no trumper she only smiled."

Clean Milk. The best milk is quickly contaminated if left uncovered within or outside a refrigerator.

An X-ray Examination. Mr. Ross Engle, who had his foot severely injured recently, was taken to the Hospital at Lancaster, and the X-rays put upon the injury. It was found that no bones were broken but several ligaments are torn and the foot was badly bruised.

Children's Day Exercises. Children's Day exercises will be held in the Presbyterian church at Donegal Springs on Sunday afternoon at 2 o'clock.

HEROES IN DAILY LIFE

NOT ALL BRAVE DEEDS ARE DONE ON FIELD OF BATTLE.

Demand of Duty Responded to, Frequently With Sublime Heroism, in the Common, Every Day Walks of Humdrum Employment.

While war, in the very nature of things, affords in opportunities for valorous exploits, and its every deed is written large on the page of history, the humbler and quieter sphere of private life affords even more and keener opportunities for the display of true heroism.

War against physical nature and the evils of human nature, and their ultimate subjugation to the intellectual and spiritual dominion of man, constitute a struggle which will give ample scope to the energies of the race beyond our remotest ken.

Greenland is Green. Greenland is green in more ways than one. Its most beautiful green, and travelers declare no such color is found elsewhere in the world.

Shoe Dealer Duke. The story of how a grand duke, a near relation of the czar of Russia, came to be a boot and shoe dealer on the Nevsky Prospect comes from St. Petersburg.

Nova Scotia Eelgrass. United States Consul Albert J. Fleming of Yarmouth, N. S., reports that the exportations of eelgrass to the port of Boston in the latter part of 1911 were the largest in the history of that traffic.

Auxiliary Meeting. The regular meeting of the Hospital Auxiliary will be held home of Mrs. J. H. Buch, in Bethelton on Thursday afternoon, June 6, at 3 o'clock.

Children's Day Exercises. Children's Day exercises will be held in the Presbyterian church at Donegal Springs on Sunday afternoon at 2 o'clock.
