MRS. DICKOVER

### HAPPY THO' MARRIED?

There are unhappy married lives, but a large percentage of these unhappy homes are due to the illness of the wife, mother or daughter. The feelings of nervousness, the befogged mind, the ill-temper, the pale and wrinkled face, hollow and circled eyes, result most often from those disorders peculiar to women. For the woman to be happy and good-looking she must naturally have good health. Dragging-down feelings, hysteria, hot-flashes or constantly returning pains and aches—are too great a drain upon a woman's vitality and strength. Dr. Pierce's Favorite Prescription restores weak and sick women to sound health by regulating and correcting the local disorders which are generally responsible for the above distressing symptom

A method for sterilizing milk without heating or adding preservatives is claimed to have been effectively demonstrated recently in Hollard. An apparatus has been constructed, it is explained, whereby the milk flows in a thin stream along an electric light, the ultra-violet beams working on the bacteria. The result is attributed to the quality of the ozone formed under the influence of the light .- The Argonaut.
