Heredity.

Some very pretty things are being said, for no special reason whatever, about genealogy and heredity. Naturmily this is associated with the names and life of what is called the "nobility." Yet no commentator has quoted the couplet of Pope, which reads rawly that "His ancient but ignoble blood has crept through scoundrels ever since the flood.'

A Paraphrase. What is the meaning of that quo william the meaning of that quo tation, 'There is a divinity that shapes our ends, rough hew them as we may'?" "Well," replied Senator Sorgnum, "the proposition is something like this: It's easy enough to pass a law, but you don't know what it's going to be till the Supreme court gets through with it."

Many Fish Were Blind. More than 17,000 yellowtail were caught by Japanese fishermen at the long wharf recently. This is the largcorded in the bay district. Among the face, were found to be totally blind .--Los Angeles Tribune.

Opportunities Always Present. "It is not a single opportunity which never-ending procession, some smaller and more insignificant as the years flow on, but ever and always oppor James, University of Illinois.

Overcured. Doctor-"You admit that I cured you of insomnia, then why don't you pay my bill?" Patient—"Sorry, doc, but I sleep so soundly now that my wife goes through my pockets nights and takes every cent."—Boston Tran-

The Real Question. "The Arabs have a proverb that 'a wise man's day is worth a fool's life. West Main St., It isn't a matter of how long you have been in business, but how much business are you now doing."-Profitable

Willie Wayback—"My pa says in v York they have buildings 40 stories high." Tommy Rural-"Ain't that fine! A kid could spend 'most all his life sliding down the banisters, couldn't he?"

Self-Confidence. "Self-confidence is not egotism. It is knowledge, and it comes from the consciousness of possessing the abilfty requisite for what one undertakes. Civilization today rests upon self-confidence."-Orison Swett Marden.

One Satisfaction. In after years a woman may be sorry she married the man in the case, but she's always glad that "that other woman" didn't get him.-Chica-

Character and Circumstances. "Character is built out of circum stances-From exactly the same materials one man builds palaces, while another builds hovels."-G. H. Lewes.

Advantage of Truth. "When one has no design but to speak the plain truth, he may say a great deal in a very narrow compass.'

The Everglades. The region known as the Everglades of Florida is about 60 miles long by 55 miles broad, and is one vast swamp, studded with islands of from a quarter of an acre to hundreds of acres in ex-2.04 tent. These islands are generally covered with dense thickets of shrubbery or vines, and occasionally with lofty pines and palmettos. The water is from one to six feet deep, the bottom, as a rule, covered with a growth of rank grass. During the rainy season, from July to October, the district comprised in the Everglades is practically impenetrable. The vegetable deposits of the Everglades is considered well adaptes to the growth of banana and other fraits, and when properly drained the region will undoubtedly be one

of the most fertile on earth. Read the Mt. Joy Bulletin.
