CHARACTER DOLL IS LATEST

Each Type Is Made After the Portrait or Photograph of a Real Child.

Perhaps the most interesting feature about the jointed child dolls is the fact that each type is made after the portrait or photograph of a real child, and is often a copy of a living model. One traces the incentive to realism in doll manufacture to a lovely elderly lady in Munich. She is an artist, and one with a deep love for childhood. It seemed to her that when one considered all the passion of love which a doll inspires in the breast of its owner, that little girl ought to have a pet that looked more human than dolls have been wont to look. With this idea she developed, in plaster, dolls that were exact imitations of the various peasant folk who came to Munich from Bavarian and other provinces of a Sunday. The holiday attire of each native village was represented. These delightful little figures of peasant life attracted the attention of the Empress of Germany three years ago-at the time when they first appeared-and she made Christmas presents of them to A "hair's breadth" is 17-10,000 of an children of the royal household. She was delighted with the human-looking manikins, and this fact did not take long to spread throughout the Empire and reach the ears of Americans. SOME NOVEL FRENCH CANES

Handles of Walking Sticks are Receptacles for Coins, Matches and Other Things.

The ingenuity of the Frenchman has not been confined to the making of weapons out of apparently harmless canes. In fact there is quite a variety of uses which the cane is made to serve.

One of the canes is fitted with coin box and a match box, these be ing contained in the head, which is provided with a carefully concealed lid. The coin box is arranged to perof depositing and easily removing the coin by a slight pressure of the thumb, thus obviating the necessity of fishing for coins in the pocket.

Another cane handle contains a complete outfit of the game known as Petits Chevaux. When the lid is open betting can begin and the horse crossing the wire first wins the stakes. One of the latest Parisian novelties consists in a ladies' parasol handle containing a roulette wheel which an anesthetic is absolutely necessary. can be used for gambling at any place or moment.

These handles have become very popular. They are of fine workmanship and generally of gold or silver. One handle contains almost everything that one would be likely to need. A long sheet of paper is wound around the rod, from which pieces may be torn off for taking notes. When the lid is opened penknife, pencil, nail file, combs and looking glass are disclosed. These objects are small, but large enough for practical

Smoking in the Dark. According to experts in the tobacco inegg the prevailing impre that a man cannot enjoy a smoke in the dark is erroneous. It all depends on the cigar. According to the best authority, sight plays no part in the enjoyment of a smoke, and it is pointed out that blind men are most invetprate smokers; in fact, blind men are expert in telling a good cigar from a poor one, as their sense of smell is so well developed. A New York cigar dealer says that one of his best customers is a bline man and he can tell a good cigar from a bad one by his sense of smell, even when standing a yard or more from his counter.

Most smokers do not like to smoke In the dark. They say it is necessary to watch the smoke ascend and to see the rings curl in order to thoroughly enjoy it, but cigar dealers say the enjoyment is really in the taste and not in the odor, and the sense of taste needs no light to make smoking enjoy-
