HERE AT HOME
Mount Joy Citizens Gladly Testify and Confidently Recommend Doan's Kidney Pills

It is testimony like the following that has placed Doan's Kidney Pills so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Mt. Joy citizen:

Miss Mary A. Stoner, Donegal St., Mt. Joy, Pa., says: "Kidney trouble in my case was caused by a strain. The secretions from kidneys were unnatural and my back ached most of the time. When suffering in this way I saw Doan's Kidney Pills advertised and I got a box at Garber's Drug Store. They lived up to all the claims made for them. I was given prompt relief and was benefited in every way. (Statement given October 26, 1907.)

New York Uses Much Water.
In the whole world there are only about 1,500,000 people. An inch of rain on our watershed normally would give two gallons of water for every man, woman and child on the surface of the earth. Put it another way: If every man, woman and child on the face of the earth should walk up to the lakes, reservoirs, etc., which hold New York city's water supply, and each pour in two gallons of water, it would not be enough to last that city ten days.

Infant Mortality.
Infant mortality is the most sensitive index we possess of social welfare of sanitary administration, especially under urban conditions. A heavy infant mortality implies a heavier death rate up to five years of age; and right up to adult life the districts suffering from a heavy child mortality have higher death rates than the districts whose infant mortality is low.—Neuscholme in the National Food Magazine.

Sheer Waste.
"The coal supply of the earth is limited," said the scientist. "No one can say how long it will last." "Great Scott!" exclaimed a man in the back row; "and here we've gone and wasted more'n a bushel of it heatin' the hall for this lecture."—Washington Star.

Ideal Temperature of Room.
An ideal room temperature for the sedentary is that between 66 and 70 degrees. Below these temperatures the heat regulating apparatus of the body finds it necessary to close up the peripheral vessels more or less, internal congestion slowly begins and the conditions for a cold are secured.

Reluctant Criticism.
"Augustus, dear," said the girl, tenderly, pushing him from her as the moonlight flooded the bay window where they were standing. "I think that you had better try some other hair dye; your mustache tastes like turpentine."

Going Over the Books.
"This item in your campaign expense account mystifies me," said the auditor. "I don't understand what you mean by 'raw material.'" "That's an error on the part of the stenographer," replied Senator Sorghum. "It should read, 'hurrh material.'"

Husband Got Even.
In Austria a woman was recently sent to jail for opening her husband's mail. She began a suit for divorce on evidence obtained from the letter and her husband retaliated by sending her to jail for opening the letter.

Proof of a Weak Mind.
"In matters of great concern, and which must be done, there is no surer argument of a weak mind than irresolution; to be undetermined where the case is so plain and the necessity so urgent."—Tillotson.

The Best Gift.
The best gift is the one that shows thought—an appreciation of what will be pleasing and useful to the recipient—that is what counts for value, not the price in money.

The Drawback.
"I fold mine hands and stand and wait and know mine own shall come to me—unless a copper catches on and pinches me for vagrancy."—Houston Post.

Great Value of Coconut.
The coconut is not only valuable as a source of food and drink in tropical countries, but is also the best of all trees for shade.

Ungallant Man.
It is rather an ungallant man who advocates women's suffrage on the theory that it will not make any real difference.—Washington Star.

Provoking.
Nothing makes a woman so angry as to see her husband, who diets at home, eating everything that comes along at a banquet.

Novel Method of Dusting.
In Europe they dust the paintings in art galleries by means of air syringes.

Wonderful Human Voice.
In producing the tones or inflections of the human voice 44 muscles are brought into play.

Fundamental Error.
We suffer, in teaching, from the means being exalted and the end forgotten.

Point for Consideration.
"We must consider, not what the wife will think, but what the foolish will be sure to say."—Sir Arthur Ripley.

At a Disadvantage.
"I suppose you will miss your boy while he is at college." "Yep," replied Farmer Corntassel. "I dunno what I will do without him. He got the live stock so they wouldn't move unless he give 'em the college yell, an' I can't remember it."

POULTRY

RHODE ISLAND REDS IN LEAD

Hens Owned by Pennsylvania Poultry Raiser Ahead of Eastern Egg-Laying Contest.

The egg-laying contest at the Connecticut Agricultural college, with its 500 pullets from 19 states of the Union, England and Canada, representing 12 distinct breeds and 23 varieties, attracted considerable attention.

Rhode Island Red Hen.

tion at the Connecticut Poultry association meeting held at Hartford recently, as some of the speakers had birds entered in the contest.

Following is the report of the leading hens for the twelfth week of the contest:

John A. Fretchery of Harrisburg, Pa., single comb Rhode Island Red, 24 eggs; Howard Steele of Philadelphia, Pa., single comb Rhode Island Red, 23 eggs; Top Notch farm; Walter Mills of Long Island, barred Plymouth Rocks, 21 eggs; C. S. Scoville of East Haven, single comb Rhode Island Red, 23 eggs, 7 per cent, Notch farm; Walter Hills of Long Island, N. Y., barred Plymouth Rocks, 21 eggs; C. S. Scoville of East Haven, Conn., rose comb Rhode Island Red, 20 eggs; Woodside Poultry farm, Philadelphia, Pa., white Wyandottes, 18 eggs; Arnold Francis of Oak, Pa., single comb Rhode Island Red, 18 eggs; F. G. Yost of Sayre, Pa., single comb White Leghorns, 18 eggs.

ELECTRIC INCUBATOR IS BIG

Machine Built for New Orleans Poultry Raiser Has Capacity of 6,000 Eggs—How Worked.

One of the largest electric incubators in use anywhere in the world was built for a poultry raiser in New Orleans. It is 40 feet long by 5 feet wide, and contains 40 compartments, each having a capacity of 150 eggs, says the Popular Mechanics. Each compartment can be separately controlled, so that any one, or all of the compartments, can be operated, according to the number of eggs to be hatched. The controlling thermostats used do not completely break the heater circuit, but introduce the comparatively high resistance of a small electric lamp when open, thus avoiding sparking at the contacts.

Incubator of 6,000 Capacity.

Nothing like a few warm days to coax the hens to lay. Don't let your breeders get too fat or you will be sorry for it. Young ducks should always have plenty of water and shade and grit. Green cut bone and meat foods are the worms and bugs in the winter ration.

POULTRY NOTES

No condition powder on the market is so good as wholesome food and plenty of exercise.

Turkey gobblers should be mated with the hens as early as possible, certainly by the first of April.

The best layers are those fowls that have been bred particularly with a view to increased egg production.

Inbreeding soon lowers the vitality of a flock. That is why we should get new males or settings of eggs every year.

There is genuine satisfaction in owning thoroughbred stock and they cost no more to feed. Go in for the best.

Have you ever noticed the hens following the plow and did you observe how fast the grubs disappeared? This is good for the hens and the land also.

Encourage them. A bone cutter will surely pay for itself. Green cut bone supplies the hen with ability to produce eggs, nourishes her feathers and keeps her in general good health.

How's This?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out all obligations made by his firm.
