

WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotics, alcohol or injurious ingredients. It is an alterative extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

Mrs. Hershimer.

Mrs. LIZZIE M. HERSHIMER, of Lincoln, Neb., 529 "C" St., says: "I send a testimonial with much pleasure so that some suffering woman may know the true worth of your remedies. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which a friend advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the way to recovery. I was in poor health for five years but now I am cured. I hope all women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial."

Doctor Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

A Properly Fitted Shoe Can't Hurt the Most Sensitive Foot

In buying Shoes, place Fit above all else. Style and Service are necessary, but if you sacrifice Fit, you suffer the loss of both Style and Service. No Shoe retains its shape that does not fit. No Shoe wears well that does not fit. Why suffer?

This Shoe Store has a trained salesforce—experts that know how and will sell you correct-fitting Shoes. Easy every hour you wear them.

HOME HEALTH CLUB.

By Dr. David H. Reeder, Chicago, Ill.

AN OUNCE OF PREVENTION:—

It is a trite but true adage: "An ounce of prevention is worth a pound of cure." This particularly applies to the prevention of illness and especially to the prompt care and treatment of small afflictions that may result seriously, otherwise. There are many times when prompt action will turn aside a long spell of sickness, prevent a big bill from the doctor; save much valuable time; hinder a crippled condition for life, or even checkmate death.

When this is so palpable in common experience and backed by proverbs such as quoted and: "A stitch in time saves nine" etc., it is somewhat remarkable that so many persons utterly ignore it all and reap the dire result.

A scratch that becomes inflamed; a splinter under a finger nail; may both heal naturally and with little care. Upon the slightest sign of inflammation, the most perfect prevention should be at once resorted to. Otherwise there may come the danger of blood poisoning, lockjaw and worse.

When you find any cause of danger, remove the cause at once by thorough treatment taught in the Home Health Club books. If you are not in possession of these books write to the club and the proper advice will be given you, freely and without charge.

Don't neglect a little cold, stop it, don't go around with a sore finger, heal it; don't watch your hair falling out, prevent it; don't growl and endure decaying teeth, remove the cause, don't wait until the lump in your breast has become a cancer, or the brown scab on your face develops into a lupus: treat them to a finish, and if you do not know how ask the Home Health Club.

There are simple home remedies and home treatments for all afflictions, from a distressing itching to tuberculosis. Properly administered under proper circumstances, these remedies and treatments will make you whole again and all of it can be done in your own home and with material that you have at hand for the most part of it.

CLUB NOTES.

Dear Doctor:—

My little girl four years old is afflicted with nervous trouble. The doctors here say that the nerve leading to the cerebellum is affected. It was first noticed Sept. 4th '10. She first complained of pain in the back of the head, and in a short time she began to stagger and fall when she was walking. She has been troubled much with constipations, but is some better of that now. She falls when she closes her eyes while standing, cannot look upward without falling. She vomited very much, and with great force, up till two weeks ago. Is plump, weighs 35½ pounds.

I would not attempt to diagnose the case of your child from the description which you have given further than it shows a few of the symptoms of Locomotor Ataxia, although these are not usually found in so young a patient. I think you would be wise to have a very careful and thorough examination made of the spine, by a reliable and skillful osteopath, for probably there is some slight luxation of the spinal column, and have it also examined for adherent prople.

I would not care to make additional suggestions without seeing the case.

Two months ago I took sick. It started in the urinary organs. I have frequent desire to urinate, which bothers me a great deal. During urination and immediately following there is a very unpleasant smarting, burning, sensation. I have a sour taste in my mouth and a little fever every few days. For a while I seemed to improve but now am as bad as I ever was. As soon as I eat there is a heavy feeling throughout my body. I try not to eat very much but perhaps I do not eat the right things. I am 47 years old. I have intended writing you before but thought I would improve without having to take treatments. From previous experiences with your methods I believe that you can help me out of my present sickness.

From the description you give of your case I would say that it has progressed until it has now become complicated. Instead of having only one or two conditions, to treat you will have at least three to overcome. I believe it began in the digestive organs. You probably were not careful in regard to the food that you were eating as you should have been, consequently, the stomach has become deranged and then the bowels, throwing too much work on the stomach, liver and urinary organs. Had you heeded the first warnings your stomach gave you, regulated your diet, and procured indicated internal remedies, you could have probably cut the attack short.

I would suggest that you regulate your diet so as to avoid pork, veal, meat gravies, and white bread. You may take a little mutton or chicken, once daily, baked potatoes, whole wheat bread, ripe fruits,

fruits sauces, and not more than two vegetables with each meal. Some cereals with cream or milk and a little fresh fruit for breakfast would be sufficient. But be very careful not to over-eat of anything. You should drink a glass of cold water the first thing in the morning, two glasses between meals, and one glass on retiring at night. The tissue elements of foods would act greatly in overcoming your condition. I believe that if you will regulate your diet as I have suggested, and drink plenty of liquids between meals and eat very lightly for some weeks that you will be able to overcome your difficulty. I shall be glad to suggest further treatment should you desire it.

All readers of this publication are at liberty at any time to write for information pertaining to the subject of health. Address all communications to the Home Health Club, 5039 Cottage Grove Ave., Chicago, Ill., with name and address in full and at least four cents in postage.

NEWTOWN

Mr. Lawrence Ream and wife of Lancaster, Frank Fletcher and family of Maytown, were Sunday visitors of Mr. and Mrs. Nehemiah Hains.

Miss Mary Hornabus, Mr. Walters and wife, sojourned on Sunday as guests of Mrs. Priscilla Fogle.

Mr. Henry Frank and wife of Maytown, Mr. George Moore and family of Mount Joy, spent Sunday with Mr. and Mrs. Louis Resh.

Miss Amanda Byerly and William Brookline of Marietta spent Thursday visiting friends in this place.

Mrs. Elizabeth Sicksel, an old resident of this place, who had been in failing health for some time, has been removed to the Lancaster Hospital for further treatment.

Preaching next Sunday morning by the pastor.

Horticultural Feature of County Fair

The agricultural and horticultural department of the Lancaster County Fair under the management of J. G. Rush, of West Willow, will be one of the best that has ever been shown in Lancaster. Mr. Rush is well-fitted to take charge of this work, having made a careful and scientific study of raising nuts, grapes and other small fruits. In these lines especially the department will be unusually rich. Mr. Rush is passing all of his time on this work, and reports unusual

TWELVE DAY BARGAIN SALE

In order to dispose of the balance of summer goods we have arranged this sale, which will be a benefit for you. Shows you just what good values we can and do give you for little money. Along with the broken lines of summer goods we have added other articles that will give ginger and life to this sale.

THURSDAY, SEPT. 12th TO TUESDAY, SEPT. 24th

interest in the Fair through out the entire county.

Family Theatre

Since the Family Theatre, Lancaster's big West King Street playhouse opened three weeks ago under the management of H. E. Doan, formerly of the Hippodrome and other theatres, big audiences have been in evidence at every performance. The policy of the theatre, big shows at little prices, have been the magnet of attraction and the

people have not been slow in appreciating a good thing. The matinees are 5 and 10 cents and the evening shows 10, 20 and 30 cents. When in Lancaster don't fail to visit the Family and see a show at any time at prices you will never miss. The show for this week is better than any yet given and the one for next week promises to be even stronger.
