

WOMAN'S TRIALS.

The burdens a woman has to carry through life are many but they can be lightened if she will turn to Dr. Pierce's Favorite Prescription. A soothing and strengthening nerve—subduing nervous excitability, prostration, hysteria, hot-flashes and the many symptoms which may be caused by distressing ills peculiar to women. For those "dragging-down" pains or distress and for the derangements and irregularities the "Favorite Prescription" has had many thousands of testimonials from people living in every part of America. Another important thing to every woman is that this medicine is made from efficient medicinal roots, without the use of alcohol, narcotics, or any injurious agents. Full list of ingredients given on bottle-wrapper and sworn to by Dr. R. V. Pierce—who is President of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Every woman is invited to write to this Institute and receive confidential and sound medical advice, entirely without cost from one who makes the diseases of women his specialty.

MRS. MORRILL.

"I can cheerfully recommend your remedies, especially your 'Favorite Prescription,' for all female disorders," writes Mrs. M. M. MORRILL, of Bluff City, Tenn., Route 2. "During the past seven years I suffered from pains in the back and ovaries. Tried many remedies but found only transient relief until I was persuaded by a friend to try Dr. Pierce's Favorite Prescription. After giving this remedy a fair trial, I found that it would do just what it is recommended to do. I used it in all seven bottles. I cannot speak too highly of Dr. Pierce's remedies for all female derangements."

TOOK AEROPLANE FOR ENEMY

French Birds Investigated Strange Creature of the Air and Apppear Satisfied.

An extraordinary instance of the intelligence of birds forms the subject of a letter received by the French ministry of agriculture from an inspector of forests.

Some time ago the inspector received complaints from sportsmen that quail and partridges had become scarce in certain districts. On examining the matter he found the birds had deserted the regions in which aeroplanes had been installed. Seemingly they took the monoplane and biplanes for enormous flocks of pey.

Finding after some time, however, that their ranks were not thinned by the strange creatures hovering overhead, partridges and quail dispatched scouts to the aeroplanes to examine the air craft at close quarters. The result of the investigations of these feathered envoys was evidently reassuring, for the birds returned to their former haunts and the preserves around Le Mans and Rheims are now as well stocked as formerly.

Mothers-in-Law.

The editor of a woman's magazine got a letter the other day from a correspondent who asked, "What mourning, if any, should be worn for a mother-in-law?" This question is freighted with meaning. The longer you look at it the weightier it becomes. The editor answered that it all depends on the mother-in-law, and immediately we have an answer quite as weighty as the question. In the funny papers and in fiction no mother-in-law was ever taken seriously. In real life we not only take them seriously but we sometimes take them with a great deal of affection and respect. The mother-in-law joke should have had its day, and yet out of a clear sky—well, as I say, the woman wants to know what mourning—IF ANY!—should be worn.—New York Press.

October

A scene at Armageddon,
A warrior in tin,
And every now and then a shout
Emerging from the din.
Some folks fancy Woodrow
And others fancy Bill,
And others still for Theodore
Are very hopeful still.
A table and a pitcher,
A speaker on his perch,
And here and there someone
Asleep,
The same as in a church.
The miracle of party,
And the perfidy of doubt,
With the usual statistics
Till the watchman puts him
out.
A woman with a banner,
Another with a drum,
And another with a certain pole
Revolving on her thumb,
Some folks say it's nothing,
But others think it is,
And like as not it won't be long
Till man is getting his.
The bull moose and the donkey,
The elephant, the zoo,
The trusts against the people,
And the false against the
true;
But do not get excited,
Or take it very hard,
For they'll all lie down together
In the same barnyard.

A NEW ISSUE OF PAPER MONEY

Size to be Reduced and the Decoration Changed

Secretary of the Treasury MacVeagh has approved a plan for reducing the size and systematizing the designs for United States notes, coin certificates and National bank notes and has directed that the new currency shall be issued July 1, 1914. The new paper money's dimensions will be 2 3/4 by 6 inches, as compared to the present 3.04 by 7.28 inches.

It will be the aim of the Treasury Department to have the new money more artistic. One of the innovations will be that all notes of the same denomination will bear the same medallion head. There are nineteen designs used on the nine denominations now in use and many of these will be abandoned. It is probable that when the new money is used the several denominations will bear the portraits of the following:

Washington, \$1; Jefferson, \$2; Lincoln, \$5; Cleveland, \$10; Jackson, \$20; Grant, \$50; Franklin, \$100; Chase, \$500, and Hamilton, \$1,000. The denominations of the new notes will be designated in plain, legible figures, without the embellishments found in the notes now issued. It is believed by the Treasury Department that \$150,000 a year will be saved by the new method, which will require fewer plates than the present.

If you want choice oysters Mrs. H. A. Darrenkamp's is the place to get them.
