

## Do You Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it. Is it a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases. After using this remedy for many years in his private practice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it easily procurable, and it can be had at any store where medicines are handled.

MRS. LILA B. HAWKINS, of Zeus, Va., writes: "I had been failing in health for two years—most of the time was not able to attend to my household duties. Female weakness was my trouble. I was getting very bad but, thanks to Doctor Pierce's medicines, I am well and strong again. I took only three bottles of 'Favorite Prescription,' and used the 'Lotion Tablets.' I have nothing but praise for Doctor Pierce's wonderful medicines."

## Griest Saved Millions For the Tobacco People

### The Farmer, the Cigar Manufacturer and the Cigar Maker are Under Obligations for His Fight for the Tariff.

The latest phase of the attack on Congressman Griest, the Republican candidate for Congress, by the Bull Moose organ, is that he committed the unpardonable political crime of voting for the tariff bill framed by the Republican Congress at the session of 1909 and passed by practically the solid Republican vote in both branches of Congress. Lancaster county's great and particular interest in that tariff bill was to secure protection for the tobacco farmers and cigar makers and manufacturers of Lancaster Co. against the free entry of the tobacco raised in the Philippine Islands, to compete with the high-grade tobacco raised by our Lancaster county farmers by high-priced American labor. It was Griest's fight that prevented that most disastrous consummation.

The fight for free trade with the Philippines and the free entry of Philippine tobacco had the strong endorsement back of it of Colonel Roosevelt, who in his message of 1905 and again in 1906 urged the free entry into this country of the tobacco raised by the cheap labor of the Filipinos, to go into American cigars and thus displace the higher-priced Lancaster Co. tobacco. In his message of Dec. 5, 1905, urging tariff concessions to the Filipinos, President Roosevelt said:

"I earnestly recommend that the tariff now imposed by the Dingley bill upon the products of the Philippine Islands be entirely removed, except on sugar and tobacco, and that that tariff be reduced to 25 per cent. of the present rates under the Dingley Act; that after July 1, 1909, the tariff upon tobacco and sugar produced in the Philippine Islands be entirely removed, and that free trade between the islands and the United States in the products of each country then be provided for by law."

President Roosevelt repeated his recommendation in his message of Dec. 4, 1906, and declared:

"Let us see to it that they (the Filipinos) are given free access to our markets."

By the aid of Democratic votes, the free trade Philippine bill passed the House in the Fifty-ninth Congress by a vote of 250 to 71, but the bill was, fortunately for Lancaster county's great tobacco interest, held up in the Senate.

This was the situation that confronted Congressman Griest when he entered upon his Congressional duties in the Spring of 1909, and as the Republican leaders were incited by Col. Roosevelt's recom-

mendation, it was only by the most extraordinary exertions and persuasions that our Congressman secured the modification of the tobacco schedule and saved Lancaster Co. from the blighting effects of free trade with the Philippines.

It is for making this heroic and successful fight for his constituents that the Bull Moose element now ask the same constituents to stultify themselves and to reward extraordinary and successful efforts in their behalf by defeating their champion. Is that the kind of fibre the voters of Lancaster county are made of? They have never heretofore been accused of political ingratitude or of being blind to their own interests. We do not believe they will prove so in the coming election.

The unusual value of the services rendered by Congressman Griest in the fight against Philippine free trade was recognized at the time by the Cigarmakers' International Union. Jerry Cronin, Chairman of the Legislative Committee and Vice President of the Cigarmakers' International Union, in his official report of the long legislative battle over the tariff, published in the Cigarmakers' Official Journal on Aug. 15, 1909, said:

"Among those who rendered active service to your committee, who were members of the House, was Congressman Griest, of Pennsylvania. In fact, Congressman Griest worked day and night so earnestly in his efforts to defeat this provision of the bill, that eventually he worked himself into a sick bed, and has not entirely recovered as yet."

Now the enemies of Congressman Griest and the Republican party have the effrontery to urge his defeat because he made successful battle for our great local interests and voted for the bill of his party that made that victory a tangible fact and assured the permanency of our great tobacco staple.

Are the people of Lancaster Co., particularly the thousands of tobacco farmers and the allied cigar and leaf tobacco interests, unmindful of that service in their behalf, and ungrateful, as well? We are confident they are not, and will so prove at the coming election. Any other course would be notice to the country that we have neither the sense nor courage to stand up for our own interests, and would leave us absolutely defenseless before the advocates of free trade, who promise to be in unusual force in the coming Congress.

### SALE REGISTER

A Notice in This List is Read by Several Thousand People Weekly

Following is a list of sales for which posters have been printed or else are advertised in this paper. These notices are given FREE until day of sale.

Thursday, Oct. 31—At the late residence of Christian Seitz, near Mt. Joy, a large lot of personal property by Ezra Nye, executor of C. Seitz, deceased. Zeller, auct.

Tuesday, Nov. 12—On the premises near Martin Moore's Mill, 3 miles south of Mount Joy, a large lot of household goods by Mary N. Musser. Zeller, auct.

Friday, Nov. 15—At the office of C. H. Zeller, a lot of ground on Columbia Avenue, Mt. Joy, with improvements by Geo. Haines and C. H. Zeller, executors of the estate of Leah Haines, deceased. Zeller, auct.

Wednesday, Nov. 20—On the premises near Mt. Joy, a large lot of lumber, wagons, harness, hay straw, office fixtures, etc., by Harriet H. Breneman, Executrix. Zeller, auct.

### School Report

The Florin Primary School ended its second month on Monday, Oct. 28.

Numbers of pupils enrolled—males 20, females, 22, total 42. Percentage of attendance males, 98, females 95.

Honor roll: Barbara Sauder, Anna Mae Longenecker, Mary Keener, Elma Wiley, Grace Wittel, Erle Bear, Ada Shearer, Viola Hamilton, Elsie Lefevre, Mary Hamilton, Ruth Keener, Ruth Kline, Ruth Kraybill, Mildred Booth, Josephine Arndt, Arvita Butzer, Aaron Wolgemuth, Darvin Loraw, Charles Vogel, Allen Shearer, Albert Booth, Wesley Wittle, Ray Forney, Henry Wolgemuth, Ephraim Arndt, Benjamin Sheetz, Earl Fike, John Keener, Walter Becker and Walton Wiley.

Visitors: Harold Wagner, Irene Kuhlman, Christian Shearer, John Vogel, Miss Charlotte Stoner and Miss Beulah Loraw.

Patrons and friends of education are cordially invited to visit the school.

Sue H. Brandt, Teacher.

### Big Time at Baltimore

We are indebted to Mr. Edgar H. Bentzel of Hampton Institute, Va., for programs and data relative to the world in Baltimore. In part he says:

Hampton Institute sent up a large exhibit of work done by students, will have a lecturer there all the time and a quartet of students to sing plantation melodies.

For the next month, a very interesting trip to all foreign lands can be had by buying a ticket for Baltimore.

### Moving to Columbia

The Columbia correspondent in the Lancaster Examiner of Monday evening says: Rev. Oscar Kraybill, the new pastor of the Church of God, and his mother, Mrs. Leah Kraybill, of Mt. Joy, were the guests of Mr. and Mrs. H. O. Kauffman, Locust street yesterday. Rev. Kraybill, with his mother and sister, will move from Mount Joy to Columbia, and occupy the parsonage adjoining the church on North Seventh street in the near future.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address P. J. CHENEY & CO., Toledo, Ohio.

Sold by all Druggists, etc.

Take Hall's Family Pills for constipation.

### Gets a Promotion

The many friends of Howard L. Fryinger, will be pleased to learn that he was again promoted, having just been appointed secretary to the Comptroller of the Phila. and Reading Railway Co. at Philadelphia. He started with this company as a stenographer. Mr. Fryinger is a former resident of East Donegal.

## Farmers Column

### USEFUL INFORMATION FOR THE FARMER

The Value of Skim Milk—The Keeping and Storing of Eggs—Kerosene Sure Death to Lice When Applied Properly—Dairy Notes

Cows that are on pasture should have free access to salt.

Don't hesitate to increase the grain ration to keep up the milk flow.

The heifer whose first milk period is long, frequently develops the habit of long periods.

With soiling crops and grain the dairy herd should maintain a profitable production.

Green feed fed to milk cows will insure larger profits and as a good aid to this result is a silo.

When a dairy man learns to use the Babcock test he is started on the way to economic salvation.

One paper says: Clean up frequently. It would be better for the dairy farmer to keep things clean all the time.

Among the men who have been phenomenally successful on the farm those who have followed dairying stands out permanently.

If the calves that are in the pasture are expected to do well they should have plenty of shade and plenty of good clear water.

Vitality is a very important characteristic in the dairy cow or any other farm animal. If weak along this line the best returns can not be expected.

It is imperative that we provide some means of tiding the dairy herd over the season of failing pastures, instead of vainly regretting that it has occurred. The dairy man who depends upon the pasture during the summer and hay during the winter to feed his cows is treading on treacherous ground.

Kerosene is sure death to lice if applied as a spray. Spray the walls, roosts, corners and nestings and the oil will kill all vermin. Sprinkle the bottom of the nests with it and cover with a heavy coating of straw. Kerosene is also very valuable in preventing and curing scale disease in fowls. If it is used freely on the roosts once a week you will have no scaly legs. It promptly destroys the red louse that preys on the fowls at night, sapping their very life blood and retires to the roost poles during the day time.

There are many plans suggested for keeping and storing eggs, but a very simple one appears in a recent exchange: To every three gallons of water add one pound of fresh slaked lime and one half pint of salt. Have it well dissolved. Drop in your eggs one at a time, but mind do not crack them. If you wish to keep them one or two years you can do so. But you must use them as soon as taken out or they will spoil. When you put in all you wish, take a thin piece of board and put on top, and on that put a little salt and lime that the top may be as strong as the bottom. If these are kept at sea and in different climates, why not keep on land in a cool cellar? Should you wish to keep to transport, dissolve sufficient gum shellac to make a thin varnish in alcohol, let them dry, then after giving each egg a coat pack them in bran or saw dust. When wanted wash off the varnish and they are ready to be cooked.

It depends on how it is used, of course, but if the average dairy man were offered thirty cents a hundred for it he would regard the offer as one likely to be a losing one for the buyer. And yet the buyer might make money on it as feed for pigs. If he had pigs and no other feed but corn, it would undoubtedly pay him to buy skim milk at thirty cents a hundred to feed with the corn. The South Dakota Experiment Station has proven that when a ration of 153 pounds of skim milk or butter milk is fed with a bushel of corn it adds nearly six pounds to the gain of the hogs. This, at present prices, will just about pay out at thirty cents a hundred for the milk. But the hogs will grow faster, sell younger and have less chance to die of disease. In other words, the time factor and the health factor will both be favorably affected by the use of the milk. The moral is: Feed skim milk and butter milk to the hogs unless you have some use for them which will make them worth more than thirty cents a hundred. Moral No. 2 is: Feed a balanced ration. All the milk does is to balance the ration furnished by the corn. This it does by supplying protein which corn lacks. The proof of this is found in the fact that milk alone is not as good as a feed as the corn alone. The rule is: Not over three pounds of skim milk or butter milk or say three pints should be fed with a pound of shelled corn or corn meal. If you feed more milk you waste a part of it. A lead pencil is as much an essential part of a feeder's equipment as a scoop shovel.

A valuable horse owned by Mr. R. G. Hellig, died on Monday night from colic. This is the second horse Mr. Hellig lost the past year.

### \$1.25 Two-Toned Corduroys At 89c.

Nothing is more popular this season than these two-toned corduroys. They are 28 inches wide—have a soft, rich finish and high lustre—will give excellent wear—two color combinations to pick from, are red and black or blue and lavender.

### \$35.00 Sample Suits; \$22.75

About thirty sample suits on the same number of our own regular stock comprises this splendid collection of suits. These are as fine garments as any custom tailor could possibly produce—you will find every conceivable style, color and fabric—cut in newest fashion—many are copies of Paris models.

### \$3.75 Waists At \$2.29

In this collection are some beautiful creations, made of soft messaline, with the new Robespierre collar—in black, navy blue, gray, Copenhagen and white. Thence there are batiste waists and marquisette waists, and fashion authorities give these dainty white waists a prominent place in the

### \$3.00 Blankets; \$2.49

up-to-date woman's wardrobe. Her is a splendid selection, and all are excellent values. Woolnap Blankets, look like wool and feel like wool. Will launder perfectly. The nap is soft, fleecy and permanent; come in white gray and tan; have handsome colored borders. The size is 72x-48—the regular price is \$3.00. Anniversary Sale Price—\$2.49.

### \$6.00 Blankets; \$5.00

Pure Wool Blankets, and w mean pure wool, not one thread of cotton goes into their composition—just feel their fluffy thickness and soft texture—come in pink, blue, tan and gray plaids—would be excellent value at \$6.00 pr. Anniversary Sale Price—\$5.00.

## SYMPTOMS OF CONSUMPTION

### Yield to Vinol.

The medical profession do not believe that consumption is inherited, but a person may inherit a weakness or tendency to that disease.

A prominent citizen of Evansville, Ind., writes: "I was ill for five months with pulmonary trouble, and had the best of doctors; I had hemorrhages and was in a very bad way. Through the advice of a friend I tried Vinol, and I feel that it saved my life. It is all you recommend it to be. I believe it is the greatest medicine on earth. I have advised others to try Vinol, and they have had the same results." (Name furnished on request.)

Vinol soothes and heals the inflamed surfaces and allays the cough. Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off incipient pulmonary diseases.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.
