TRUE VALUES

Values, from our point of view means not only full worth for your money, but an article of merit that is worth your buying. We were never more anxious than we are right now to give you true values, when so many goods of questionable merit are being sold by the public under the guise of Bargains. We are sure our goods and prices will prove to you they are true values, as we give you Quality. We want you patronage. We are appealing for your preference—but we want it on merit. Just a few of our special values:
One case of 12c Outings, best style, both light and dark at 10c.
One case of 10c Outings, 8c.
One case of 12c Cheviots, 10c.
The price on these goods are low because we could buy this quantity at merit price.
Men's \$2.50 Shoes at \$2.25. Moulders' Farm, Work and Dress Shoes in this line. Same styles at \$2.00, but we advise the buying of the better grade, as they are cheapest. Quality stands the test.
One lot 25c Colored Poplins, 20c. The finest quality in all the new shades at 25c. Ask for sample and shade card.
Do not fail to see our new line of Woolen Materials for Dress and Coats.
Extra value—Three 5c White Cross bar Handkerchiefs for 10c. Good for school use. Only 6 sold to one person.
Six Silveroid Tea Spoons, 10c.
Three Silveroid Desert Spoons, 10c.
Three Silveroid Table Spoons, 10c.
Six pieces any 5c Soaps, 25c.
Six 10c Thin Initial Tumblers, 45c.
Ladies' Home Journal Patterns Winter Style Book, Fancy Work Embroidery Book.
Stamps given with all purchases. Come and secure one of the fine Homestead rockers free.

DOULTRY

MISSOURI CURE FOR GAPES

Disease Most Prevalent in Damp Weather, Caused by Worm in Chick's Windpipe.

(By MRS. JOHN J. MOORE, Missouri.)
A most common disease among chickens and one which causes great loss in the summer is gapes. This disease, which is most prevalent in cool, damp weather, is caused by worms, which get in the young chick's windpipe, causing it to gasp for breath and if not dislodged, shutting off its supply of air.

Sometimes the worm can be twisted out with a horsehair, but this is a severe remedy and other worms may take its place.

The following is a preventative and will check the trouble at once:

Obtain the leaves of the common woodworm, sometimes called Jerusalem oak, a plant which grows wild in most places, having an erect shrubby stem and small, yellowish flowers. Its leaves when crushed have an unpleasant odor and are used in the manufacture of vermifuge and to protect clothing and furniture from moths and other insects.

Mash the leaves and mix in a small quantity with the chicken's feed or put in the drinking fountain.

Or, after the seeds have ripened, they may be used instead of the leaves and a quantity gathered for future use.

SIMPLE FEEDER FOR POULTRY

Automatic Device, Shown in Illustration, as Practical as More Expensive Contrivances.

An automatic feeder for poultry, simple in design, yet apparently as practical as similar devices of more complicated and expensive design, is shown in the illustration. The feeder, which is hung from any convenient support, comprises a grain container provided with a discharge opening at

the bottom; a scoop pivoted underneath the opening, and a pendulum-like arrangement with a ball at its end. The chickens peck at this ball, thus causing the pendulum to swing, which tilts the scoop and allows a certain amount of grain to fall to the ground.

Scratching Beds.

If it is possible, do not keep laying hens or raise young chicks without this very necessary article, even on the farm. Place your coops for the little ones near some shady place and there scatter coarse straw manure about three inches deep, then keep it moist at the bottom, if there is no rain, and watch the little fellows go down after the angleworms that flourish at the bottom, and you will see your chicks flourish also. The currant brush is a good place.

The day of stuffing animals' skins with tow is over. The model of the body is now made of plaster and the skin is fitted on to the prepared block of the proportions of the living dog.

Already there is noticeable a considerable change of type, an evolution that can hardly be carried in the mind's eye among the dogs of quite recent times.

DOGS OF OLD ARE PRESERVED

South Kensington Museum in England Contains Many Specimens of Canine.

London.—The rush to Europe season is at hand, and visiting Americans and others fond of all the animals and birds on earth are advised to visit the South Kensington museum, which is the natural history branch of the British museum, London. The Kensington building is an enormous place and only a two penny fare from Charing Cross—virtually the center of the metropolis. The collection of everything with legs and wings is nothing short of wonderful. In an ordinary zoological collection many of the most interesting creatures are asleep or otherwise behind the scenes. At South Kensington, however, every dead beast and bird is very much "alive," and one can
