EDITORIALS

Mr. Roosevelt and the Czarevitch are getting better.

At this rate Turkey will be divided about Thanksgiving day.

Probably a woman tells secrets so that she won't forget them.

For once, Jack Johnson has all the publicity he wants and some to spare.

Andy Carnegie says he always laughs when he is with kings. And they laugh too.

Every man believes if he could get his just dues a banquet would be held in his honor.

Some Mexican patriots should mix a little love of country with their thirst for glory.

This blessed year is nuts for the manufacturer of arms, ammunition and hospital supplies.

Here comes "Uncle Joe" Cannon wearing the blameless silence of hopeless campaigning.

It's hard to convince a candidate that it's possible for any campaign contribution to be too big.

Why don't the base ball players go in for foot ball in the winter? Most of 'em are good kickers.

Peter Bartzan has been an expensive luxury for Cook County, and at that he is an acquired taste.

Senator LaFollette says he did not vote for Roosevelt, Taft or Wilson. This man is hard to please all right.

China wants to borrow more money on the same old security. That nation is certainly being rapidly civilized.

We are informed that somewhere on the outer edges the persistent Mr. Debs is also running for president.

Alf Vanderbilt has just inherited another \$30,000,000. Here's one man who knows where his winter's fuel is coming from.

It's a mighty good thing for Mayor Gaynor in addition to his other troubles, that he did not have a presidential campaign on his hands.

One would judge by the first political speech just delivered by Charles Elliot that he and Woody Wilson belong to the same frat.

Considering what it cost and what it did to him, Thomas Fortune Ryan might have found it cheaper had he preserved his party in alcohol.

Mr. Bryan advocates just one term for presidents. If he cared to be popular with Mr. Taft and the Colonel he would insert the little word more.

Everybody will rejoice at the news that the Colonel is recovering so rapidly that he will soon be strong enough to pledge himself to lead the bulls in 1916.

The letting of a contract for armor piercing shells to an English firm should teach some of our home manufacturers that the Government is not quite the easy mark it used to be.

Erecting a Warehouse
 The New Standard Hardware Works is about to erect a large and spacious frame warehouse, 30x170 feet on the south side of its present building.

Gen. Felix Diaz lately formed a provisional cabinet some of the members of which were in Mexican prisons. Now that the general is himself in prison he should call a meeting of his cabinet.

Germany has already produced synthetic milk and synthetic rubber and the synthetic cow cannot be far away. Then artificial beefsteak shall usher in an era of good feeling and artificial teeth.

5A Bias Girth Horse Blankets
 They are so designed that they can't slip or work off. The girths cross under body of horse, holding the blanket securely in place. You can jerk and pull the corners of the blanket, but you can't budge it—the girths lock it in place. Points of excessive strain or wear are heavily reinforced. All stitching is done with the utmost care.

5A Blankets are made by the largest blanket factory in the world and go direct from that factory to your dealer. This saves you all jobbers' profits and gives you the best blanket money can buy at the lowest prices. Remember, you see and handle them before you buy.

5A Storm King Square Blankets have won great popularity. They are remarkably warm, closely woven, strong, large and heavy—measure 84 x 90 inches and weigh 8 lbs. Sell for only \$2.50—worth twice as much. 5A Blankets outwear three ordinary blankets.

Buy a 5A Square Blanket for street use. Buy a 5A Bias Girth Blanket for stable use. Buy a 5A Flush Robe for carriage or auto.

WM. AYRES & SONS, Philadelphia, Pa.

country Sunday and enroute stopped off to see their son-in-law, H. Koser and family.

The New York Herald says editorially; that in nearly every state the combined Republican and Progressive votes are much larger than the Democrat vote. If there had been only one candidate of Republican proclivities running in this state, the anti Democratic majority would, as usual have been more than 100,000. Now this shows, if it shows anything that had Roosevelt been no more ambitious than Gen. Grant in 1880 and had accepted the judgment of the Republican National Convention, Mr. Taft might have been President of the United States for the second term to which he was entitled. But Roosevelt choose to hold himself better than Grant, better than Washington, better than Jefferson, better than Jackson better than McKinley, who at the beginning of his second term declared that he would not have a third; better, in fact, than any other man who was ever president of the United States. Popular judgment will be against him in the future.

ERISMAN'S CHURCH
