Lancaster Auto Club Meeting Bridges which are too narrow for adequate safety to automobiles and teams passing over them were considered at the November meeting of the Lancaster Automobile Club held on Friday evening at Hotel Wheatland, Lancaster.

Chas. M. Reiling, chairman of the good roads committee reported that the most important local work of the past month was the improvement of the Philadelphia pike over the Gap Hills by the State Highway Department which has resurfaced a portion of the road.

The Sociability Run and Pushmobile Races held by the club were reported by the committees having these affairs in charge to have been attended with success.

Four applications for membership were received. It was decided to hold the December meeting at the Franklin House, Lancaster.

SEAMAN'S LIFE A HARD ONE

Excessive Toll In Unsanitary Quarters Responsible for Disease That Shortens Their Days.

Ill-health, we are told, is the cause of one-fourth of the destitution in large cities. "The ratio is probably much higher among the toilers of the sea," said George McPherson Hunter of the American Seamen's Friend Society in The Survey.

"Novelists tell with great gusto of the sailors killed by pirates and buccaners, and sometimes by the 'back mate.' All these amiable gentlemen of fortune never killed or maimed as many men as the forecastles of the ships that sail the seas.

ASKED TO SHOW GRATITUDE

Time for Son-in-Law to Prove Himself Worthy of Favors He Had Been Receiving.

"Son-in-law," he said, as he called him into the library and locked the door, "you have lived with me now for over two years."

"I have even paid some of your bills." "You have, sir." "And in every way helped you to get along."

Broad Hint.

Two gentlemen who were playing cards at a club recently were very much annoyed by other members who stood behind their chairs and interested themselves in the game.

The spectator took the cards, whereupon the first player left the room. Pretty soon the second player followed the example of the first.

CAPTURING BEARS IN INDIA

Plan for Destroying Animals Is Novel and Said to Be Always Successful.

A curious method of capturing wild bears is employed in certain parts of India, the New York Herald remarks.

The men with the lmed poles poke the bear in the ribs and adroitly twist the ends in its long hair, thus holding it fast on each flank.
