TWENTY YEARS-

difference in most women. They are troubled with "nerves"— this office we will insert notice like a backache, headache, sleeplessness, a sensation of irritability of the following in the register FREE they state from backacae, headache, steeplessness, a sensation of irritability of twitching, hot flashes, dizzy spells, or many other symptoms of female weakness. The local disorder and inflammation should be treated with Dr. Pierce's Lotion Tablets and the irregularity and weakness of the female system corrected and strengthened with Dr. Pierce's Favorite Prescription. The strain upon the young woman or the woman of middle age—upon the nerve and blood forming structures—may be too great for her strength. This is the time t take this restorative tonic and strength-giving nervine and regulator. For over forty years sold by druggists for woman's peculiar weaknesses and distressing ailments. The one remedy so perfect

in composition and so good in curative effects as to warrant its makers in printing its every ingredient on its outside wrapper. The one remedy which absolutely contains neither alcohol nor injurious or habit-forming drugs.

Following letter selected at random from a large number of similar ones and cited merely to illustrate these remarks: "In the winter of 1908, I became greatly run down and irregular es Mrs. Henry Scott, of Swan Creek, Mich., Route 1, Box 49. writes Mis. Hisney Scott, of Swan Creek, Mich., Route I, Box 49. "I slowly but surely grew worse, and, at lest, recolved to apply to the doctors for help. The doctor said I had inflammation, enlargement and laceration. I was in bed eleven weeks and got no better. The doctor said I would have to have an operation, but to that I would not listen. My hussand purchased two bottles of Dr. Fierce's Favorite Prescription. What started to take this remedy I could not walk across the floor, but after had taken three bottles I could feel myself gaining, so I dropped the loctor and took Dr. Pierce's Favorite Prescription. Only for it I think would have been dead—I really believe it saved my life. I feel better low than in twenty years."
