EDITORIAL

That Mt. Joy is not only a little country hamlet with a handful of people, a railroad station, a store or two and a post office, is evidenced almost daily. The sooner the outside world, as well as the greater portion of the town's population learn of the existing conditions, just then and not much before will our town begin to grow.

Bear in mind our town has been growing, not very rapid, however but a steady continual growth. Not a spurt or building boom occasionally and then lay dormant for years, but every year a few new houses, and of the kind too that any community could feel proud of. Then too, occasionally an industry. New stores are numerous as can be seen by the number added within the past ten years.

An assured thing is the fact that Mount Joy has good industries, all of the kind that "hard times" effect very little, their products being in demand continually. They are always busy, and frequently are obliged to work overtime. These conditions are very encouraging.

Now what we want is more industries. This will necessitate the erection of more houses and you know the rest. Of course we do not particularly cater to industries that employ laborers. We would prefer industries that employ skilled labor for many reasons:

First—A mechanic can command better wages and naturally will live accordingly. He will be the sort of citizen that towns like ours desire.

Second—A man of this kind will invariably make his mark in life, doing whatever he can to advance the welfare of his community. He will be a credit to church and state.

Little Tobacco Raised There
 George Endelow of East Donegal raised last summer on his farm in Perry County, the land of his birth, a big crop of tobacco. Because there are no tobacco buyers in that region he had the crop brought by rail to his new home, where it will be prepared for market.

The term "revenue cutter" seems absurdly inadequate for the vessels of what benevolent navy whose highly useful functions are discharged with such faithfulness and effect.

 "The same price the world over"

Are you the one in ten

If you are like 9 men out of 10 you buy your clothes on appearance. But if you are the tenth man—the ONE in ten—4 important points decide the real character and value of your clothes. They are Style, Fit, Fabric and Workmanship. Lots of clothes when they are new seem to have style, seem to fit, seem to be well made, but the clothes that "always look well and always wear well" have the 4 essentials in extra big measure.

STYLEPLUS CLOTHES represent this class. They have built-in values as well as outside appearance.

We admit that for \$20 to \$25 you can find clothes in other stores that equal STYLEPLUS CLOTHES in style, fit, fabric and workmanship. But you can't match them for anything else. The clothes are a revelation. The makers have the largest clothing equipment in the country and for 64 years have specialized on men's clothes at medium price.

They are the largest buyers of woolsens in America. They operate their plant by scientific management. Economies in force throughout their organization run into big figures. These economies mean that STYLEPLUS CLOTHES \$17 are made out of all-wool special patterns. They mean that every coat is hand-tailored; buttonholes hand-made; canvas and tape thoroughly water-shrunk, and linings that actually resist wear. Finally

they mean that you save \$3 to \$8. Try on a suit to-day and see how well it makes you look.

Spring Suits. Plain and fancy serges, chevots, cassimeres and worsteds, domestic and imported effects. Extreme, modified and conservative styles. Soft roll or permanent roll lapels.

Blue Serge Special of Bradford English Twill. Made of the highest quality Australian wool.

The weave is very fine and the color is absolutely guaranteed against fading.

Norfolk Coats and Pants. Made of English and Scotch cheviot effects and blue serges. Modish and serviceable.

No other store in town can sell you Styleplus. Come in to-day while the spring assortment is largest.
