ONE PRICE TO ALL, and that the lowest possible for reliable merchandise; everything exchangeable within a reasonable time; money cheerfully refunded if desired; mail and Telephone orders delivered free of delivery charges; phone your orders and have charges reversed to us. Donovan's--really is a big, liberal, ideal store for all.

It Seems Almost Impossible Women's \$18.00 Spring Suits at \$12.50

These handsome suits, a few more than a hundred of them came to us through our big Metropolitan office. One of our best manufacturers offered us several broken lots he has accumulated. We took them, at a price that just about covered the cost of materials and making. Any Philadelphia or New York customer would have snapped at them, but the manufacturer has several customers in these cities and consequently dared not favor one at the expense of incurring the displeasure of the other.

Every suit in the lot represents the highest quality of workmanship and the best of the favored fabrics, all perfectly made, handsomely finished and gracefully designed. It's a great opportunity. All are worth \$18.00; some are worth as much as \$20 while they last.

The Battle Over Gerber in Legislature Hasferred to the Floor—May Not Pass the Present For

As the bill was reported, it surprised everyone. It was altered considerably in committee, an entirely new guarantee clause being put into it, and permission being granted to use sulphur dioxide in preserving dried fruits providing the amount of this dioxide does not exceed 500 parts to a million. This is half the amount allowed by the present act of 1909. The prohibition of benzoate of soda entirely as in the bill as introduced, is retained. It is this latter prohibition which caused the surprise, for members of the Health and Sanitation Committee clause permitting the use of one-tenth of one per cent of benzoate of soda, as under the act of 1909.

Senators and assemblymen who had thought the work was finished in committee now face the same old controversy over the same old question on the floor of both houses. Should the bill get through the Senate in its present form it is claimed that it cannot get through the House.

Particular significance attaches to the attitude of Assemblyman Geo. W. Richards who is a successful druggist at Duquesne, Allegheny County and who is a chairman of the House Committee on Public Health and Sanitation. Richards was in the Legislative Correspondents' Association room at the Capitol last Tuesday night when newspaper men walked in with word of what the Senate Committee had decided to report. He refused to believe what they said at first and it was only when half a dozen of them agreed as to what had been done that Richards was convinced.

"That is ridiculous," he declared "if reason exists for eliminating either benzoate or sulphur dioxide it is the latter which should be eliminated. The Senate committee has the cart before the horse."

If the Gerberich bill, officially known as Senate bill No. 5, is not delayed in the Senate it will be passed finally there during the present week and go to the House. It is not believed that the Senate will dispose of it, however, in such a short space of time and the general belief is that during the week the bill will be placed on the postponed calendar so that difference of opinion may be adjusted.

Governor Tenor has approved the bill prohibiting the publication in news papers, periodicals, circulars, letters or other publications of false or misleading statements or assertions regarding merchandise, securities or services under penalty of fine of not over \$1,000 or imprisonment for sixty days, or both. Can't pull them over on the old man any longer.

The joint resolution ratifying the proposed amendment to the Federal constitution providing for the direct election of United States senators was favorably reported to the Senate Thursday from the election committee by Senator Sons of Locomotive county. The resolution, which passed the House last week is expected to pass the Senate early next week. It does not require the signature of the governor.

MARIETTA

Paul Sultzbach, son of Mr. and Mrs. Peter Sultzbach, graduated in the bricklaying course from Williamson Trade School on Saturday. The family attended the exercises.

Among the huge trees taken out along Front street by the Edison Electric Company, was one in front of the Hegener homestead that was planted in 1852. It was eight feet across the butt.

By the prompt arrival of a number of men from Front street, who saw a small blaze on the roof of the residence of Harry Snyder, his house was saved from destruction. It is supposed a spark from the chimney caused the blaze. The damage was slight.

Had To Remove It

On Monday employees of the Edison Electric Company removed the street light on Main street at the intersection of Delta, from the middle of the street, placing it on an arm on the pole in front of Mr. H. C. Schock's residence. Burgess Hoffman soon got "wind" of the action and ordered the light put back. His action was obeyed that same afternoon. The company's ordinance covers this matter as it embodies that all lights must be placed in the middle of streets.
