FIRES IN MARIETTA

Young Men Save a House From Destruction—Another Damaged

The prompt action of three young men of Marietta prevented a serious fire in that borough on Friday. Joseph Blottenberger, George Simmons and Bud Shellenberger noticed dense volumes of smoke issuing from the windows of the home of Mrs. Elizabeth Matthews, corner of Pine street and Sugar alley. The house is one of a fine row of bricks, and, supposing a fire was in progress, the young men hastened to the place. Entering the house, they found a kerosene stove ablaze in the kitchen. They carried the blazing stove outdoors, and in doing this had their hands slightly burned. They returned to the house, but found no flames, as the latter did not have time to communicate with the furniture in the room. The walls were blackened by the smoke.

The home of Maxwell Hipple, on Chestnut street, Marietta, was endangered by fire on Friday about noon. Mrs. Hipple built a wood fire in the rear farm kitchen. She then went to another part of the house. Returning to the kitchen, she was alarmed to find the roof ablaze. An alarm was sounded and several men responded. A bucket brigade was formed and the fire was extinguished.

BIG SHOW AT COLUMBIA

Will Exhibit There Thursday, August 21, 1913

The most unexampled exhibition in the tented amusement field will appear in Columbia Thursday, August 21st.

The addition last season of COL. CUMMINS' FAR EAST, to the YOUNG BUFFALO WILD WEST was one of the most successful combinations ever formed, and with the still further addition this year of VERNON C. SEEVER'S HIPPODROME, the field of arctic entertainment has been so comprehensively covered as to admit of unstinted eulogy.

It is seldom that an exhibition so far overshadows its "fellows" as this triple alliance, which marks a distinct epoch in the history of outdoor amusements.

Among the features new to America this year is a grotesque novelty "THE DANCE IN THE JUNGLE."

ETTA MEYERS, trained animal trio, embracing TINY MUGGINS, the midget elephant, Yorkie, the midget pony, and the canine, Patsy, presenting one of the most interesting demonstrations of complex animal sagacity ever witnessed.

Another imported feature HARDIN'S SPANISH CADETS will be seen for the first time in America. The cadets number 20 trained Spanish maids-at-arms, exemplifying military forms of training and manoeuvres of various nations.

An unusually edifying trained animal number is Eldredge's troupe of mammoth performing elephants in new and original feats never before accomplished by the species, the zest with which these huge powerful brutes go through the many ludicrous and difficult tricks indicate an understanding that is incredible.

This year's edition of the Wild West, it is asserted approaches a degree of perfection in production, never before attained in this branch of amusement, great adherence to realism being attained in the depiction of its many thrilling episodes; included in the personnel of the Wild West, is ANNIE OAKLEY, the famous wing and rifle shot of the world.

An appropriate companion presentation to the Wild West is the Far East, with its strange peoples from Oriental countries, portraying their costumes, pastimes, and festivals, the huge ensembles overflowing with life, color, and animation, and abounding with pomp and pageantry.

The Hippodrome section comprises varied accomplishments, embracing marvelous exploits and feats displaying the highest forms of individual practice and training in sensational deeds and dexterities.

For the benefit of out of town visitors, the street parade will not leave the showgrounds until 10:30 a. m.

The big cacalade with its Cosmopolitan people, trained animals and concomitants of the Wild West, with its mounted Cowboys, Cowgirls, Indians, Mexican ruzals and Vaqueros, Pack Trains the Famous 20-Ox Team and other accompaniments characteristic of the exhibition, the whole enlivened by many bands of music, forms one of the most novel sights in the history of professional displays.
