#### PURCHASED CHEMICAL TANKS

##### Friendship Fire Company Bettering Its Fire Fighting Equipment

At a special meeting of the Board of Engineers and Hose Directors of Friendship Fire Company No. 1 on Monday evening, they purchased four 3-gallon hand chemical fire extinguishers. Also one smoke protector, one shut-off nozzle and two Pyrene extinguishers. This entire additional outfit will be mounted on a small light 2-wheel truck that can easily be drawn by one person.

The object in the above expenditure is this: Too often, when only a small fire, more property is damaged by water than fire. At a small fire the extinguishers will be used, thereby preventing the use of water entirely if the chemical tanks will do the work. The Pyrene extinguishers are to be used in case of fire about electric wires, in gasoline, kerosene or the like, which it is guaranteed to extinguish instantly, where water would often only spread the flames.

At the last regular meeting of the Fire Company the Board of Engineers were authorized to make these purchases. A thorough public test will be made immediately upon the arrival of the extinguishers.

#### Tuesday Instead of Friday

#### A TRIP TO WASHINGTON

##### Local Representative Attends Convention at Washington, D. C.

Rev. N. A. Barr left yesterday for Washington, D. C. He has been appointed by the powers that be, in the Anti-Saloon League of America, as one of the representatives of this state. At the recent great temperance convention at Columbus, Ohio, provision was made for a committee of one thousand.

This committee is made up of representative men out of every walk in professional, public and private life, and from every state in the union. Governors, U. S. Senators, representatives in Congress, judges, mayors of cities, manufacturers and business men of the highest standing in the country will be identified with it, and the allied temperance forces of America in the Catholic and Protestant religious and non-religious world are back of it.

The Committee met this (Wednesday) morning at 10 o'clock at Washington, and from its headquarters at the Raleigh Hotel, it proceeded in a body to the national Capital. There in both houses of Congress they presented in a courteous and respectful manner, the desires, ambitions and demand of America's best citizenship, the submission to the vote of the several state legislatures of late nation, the amendment to the Constitution of the U. S. If enacted, this will forever prohibit the beverage liquor traffic in this country.

After the noon luncheon the Committee proceeded to the White House where it made its most polite bow and presented its best smile to President Wilson. Ex-Governor Malcolm R. Patterson of Tennessee, and Ernest H. Cherrington, of Westerville, Ohio, spoke for the Committee in Congress and before the President.

This evening a mass meeting is being held in the interest of national-wide prohibition, in the large Continental Memorial Hall, in Washington. U. S. Senator Morris Sheppard of Texas, and Congressman M. Clyde Kelly of Pennsylvania, and others will address this meeting.

Those of the Committee who will remain until tomorrow will breakfast at Ranschert's restaurant, at which the leaders in this movement will hold some sort of a "council-of-war". Some of the most prominent makers and administrators of law in this country will attend.

It is generally believed by people who are well informed in reference to the present status of temperance reform in this country, that this Committee of one thousand, in its move today, will stand out in the future history of moral reform, as the first days' Gettysburg battle for a saloonless nation.

#### Closing Out Sale

Messrs. Mumma & Pantz will hold their closing out sale of stock for 1913 at the Gantz's stock yards, in this place, on Friday, Dec. 12 when they will offer a lot of mules, colts, cows and sheeps. They expect to offer a fine lot of stock at this sale.

Also at the same time and place will be sold that well known stand, Billy Gantz's Farmers' Inn Hotel, together with stock yards, stables, shedding, etc. This is a good hotel stand and prospective purchasers should not overlook this sale.

#### WILL GLADDEN MANY HEARTS

##### First National Bank Mails \$15,000 in Xmas Checks Today

Two years ago the First National Bank here started a Christmas Savings Fund, whereby depositors could open an account in any amount of a cent up by making weekly payments. To show how it was appreciated, about this time last year they mailed checks to the many depositors which totaled almost \$11,000. To show how the Savings Fund grew, this year there is \$15,000 in the account.

The employees at the bank were working overtime getting things in readiness for this big annual event and this afternoon checks are being mailed to seven hundred depositors which will mean an expenditure to the bank of \$15,000. The checks range from \$12.90 up to \$65.25.

The Christmas Savings Fund for 1914 starts the last week in this month and in addition to the various accounts of almost any desired amount, the bank will have a number of new accounts in denominations of from 25 cents up. The payments are the same every week. Furthermore the coupon proposition will be abandoned and a neat leaflet the shape of a bank book will be used instead. This will be far more satisfactory to the depositor and will mean less work for the bank.

This is an important factor to many families in our town and we sincerely hope the recipients of these checks will bear the local merchants in mind when buying their Christmas presents.

The Union National Mt. Joy Bank is about ending its second year with its savings Department with unexpected results. The amount deposited during the year just ending brings the total amount on permanent deposit, double that was on deposit one year ago.

You can join the savings Department any time during the year. You can stop paying or withdraw any time during the year. As an illustration see the big ad on another page.
