 Two Million Rabbits Killed
 Secretary Joseph Kalbus says that he would estimate that two million rabbits were shot in this state in 1913.

GRAIN LETTER
 The big speculators in corn who were long many millions of bushels of that cereal and who suffered several losses dumped remainder of their line yesterday. These persons were known in Board of Trade circles as the cotton crowd and were the same speculators who made a killing in the market, when the real bull movement was inaugurated during the early part of last summer. With this crowd of high rollers forced out of the last of their corn the men who have assumed control of the situation will not have to carry a lot of long corn to a higher level with them and give the hangers-on a chance to secure profits. It may be stated authentically that the strongest coterie of men ever known to coarse grain speculation are now on the bull side of corn at Chicago, and that they absorbed all of that cereal thrown overboard by the cotton crowd. This corn was well bought and they will add to their holdings from day to day or whenever soft spots are to be seen in the market. These longs are anything but novices in the corn market, and they have made up their minds that the condition of corn during the spring months will not be as good as it was in December, when it was pretty bad.
 The guns of these new corn hulls have been levelled at the cotton crowd for some weeks past and they have experienced little trouble in forcing them to sell out. Whether prices will be driven to a still lower level in order to secure some cheap corn on the declines is a problem that cannot be solved now. Receipts at Western points were smaller at 837, 140,000 bushels a year ago. Northwest were 1,153,000 bushels.
 Wheat was well sustained in price but the volume of trade was somewhat smaller. It is generally believed that with the bull coterie holding the whip hand in corn, which will insure an active market and sharp price changes at times when will be neglected to the advantage of corn and not only will the speculators outside world take the yellow on the buying side, but that the professionals will become the buyers. The Argentine shipment were smaller, because

that country, the total amounting to 288,000 bushels, comparing with 1,900 bushels a year ago. Northwest corn cars were small at 306 and Wisconsin at 158 compared with 516 and 333 cars respectively one year ago. There were only 658,000 bushels of wheat at primary markets against 1,052,000 bushels for the corresponding day in 1913. Cash wheat was dull at Chicago with sales of 16,000 bushels. Oats were higher along with the other grains. The cash demand was better and sales here were 195,000 bushels.
 Will Have Janitor's Care
 Landisville has the distinction of having a unique and absolutely fireproof trolley station. The building is constructed entirely of glass and steel with concrete floor. This "glass" trolley station, so-called because the floor walls consist of glass window panes, was given a renovation last week. The glass was cleaned and the broken panes were replaced with whole ones. A coal heater was installed and to insure personal attention as to the fire being kept, Robert Mercer was appointed janitor for the remainder of the winter. The low side walls, that were full of writing, were washed and the light system was put into service. The work was under the direction of Simon Minnich.
 WHY MOUNT JOY MERCHANTS SHOULD ADVERTISE IN THE BULLETIN
 What Have You to be Thankful For?
 The business man who advertises has much to be thankful for, not least among which is what he has given the intelligence to take advantage of the marvelous business aid—advertising.
 He may be thankful that he is, through advertising, obtaining new customers, increasing his volume of business among old customers and making the "good will" of his business more valuable than building, combined.
 He may be thankful that the Bulletin is one of the most powerful mediums for advertising in the county.

DOUBLY PROVEN
 Mt. Joy Readers Can No Longer Doubt the Evidence
 This Mt. Joy citizen testified long ago.
 Told of quick relief—of undoubted benefit.
 The facts are now confirmed.
 Such testimony is complete—the evidence conclusive.
 It forms convincing proof of merit.
 Mrs. F. Conrad, David St., Mt. Joy, Pa., says: "I suffered intensely from kidney trouble and it would be hard to describe the misery endured. There was a constant, dull pain across my back that made my housework a burden and I was annoyed by chills and dizzy spells. The least work tired me and I always felt languid. When I saw Doan's Kidney Pills advertised, I decided to give them a trial and procured a box at Garber's Drug Store. The first few doses helped me and I grew better rapidly as I continued their use. I am today in better health than I have been for a long time. I am glad of an opportunity to re-endorse Doan's Kidney Pills."
 For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
