 Contrary to the notices sent out, ...

"Yes — madam, there's a telephone in every house on the block"

Not every block is thus well provided, but you'll find that in every home where comfort, convenience and happiness are first considerations, there is a Bell Telephone.

It's a wise woman who discovers that in her home-keeping the telephone will serve and save, if made to run the errands and do the shopping and marketing. She finds in it not only a servant, but a friend always ready in need and always happy to bring her friends to her.

Now, really, your home shouldn't be telephone-less, should it? Telephone or post-a-card to the Bell Business Office.

When You Telephone, Smile!

The pipes were frozen and the heat caused them to break. The kitchen was flooded with water and the stove was badly damaged. Mrs. Graybill is under the care of Dr. William Garrison.
