### EDITORIAL

When it goes to me bank buildings, we feel certain there isn't a town anywhere that can equal the magnineent structures of the First National and the Union National our Saxo Salve. We guarantee it. Banks nere. Here are two buildings, completed within the last year, that are patterned after the most modern toing a banking business anywhere. The former was just completed and West Main Street Mount Joy, Pa opened for business yesterday.

Kind-reader, do you know of a town anywhere that is more inviting than mount Joy? We have good streets, good pavements, good drainage, me water, low taxes, good fire protection and all the advantages one could desire. Now, why not these lacis be known far and near? We also have ample employment for those desiring work, rents are not out of reason and living expenses are only moderate. Let's all get together, boost our burg and make an enort to boom the town.

The question is now being asked on most every side, will there be a base ball team here next Summer. As yet we are unable to answer that question but here's hoping we are again represented. There was prenty of sport here last summer and we feel certain the greatest obstacle of all has at last been overcome i. e., a field. The diamond used last year was convenient as was evidenced by the attendance and the inneid is beyond a doubt one of the finest in the county. We feel confident that the held can again be procured for a very nominal sum so there you are. What is to keep our town from the front ranks in amateur base ball next summer?

How many of you have ever realized what a beauty spot could be made out of our park with a small expenditure? This, in our opinion, should be one of the finest and most inviting spots in the town so here's a suggestion: Cut out all'the trees: put a 6 inch concrete coping around the entire plot, then fill it in and sow grass seed; next put a neat fountain in the centre in which fountain in the centre in could be placed a lot of gold fish; plant a few maple shade trees; hours make concrete walks and place p. m. Wouldn't that be an ideal place to sit on a warm sum mer's evening, or wouldn't it be a pleasure to sit about the park and How much more pleasant would it be to sit there and listen to the band concerts Sunday evenings? again these improvement doubt whether Council and our Burgess could make an improvement gess could make an improvement anywhere in the town that would be more appreciated or remain as a memory for efficient services for years to come, than something simi-
