

Laundry Queen!

It is the most rapid and economical machine on the market. It will do the heaviest washing and wringing with less wear and tear on the clothes at an expense of only a few cents each wash day.

One of the most important features is the fact that none of the machinery is attached to or supported by the tub. The tub is entirely independent from the rest of the machine, so that should anything happen to the tub, simply get a new one and all that is necessary to do is to remove the old tub and place the new one on the frame and go ahead with the washing.

SYSTEMATIC SAVING

Few people save much unless they have a definite plan. Spasmodic saving seldom results in large accumulations.

Some people save all their coins of a certain date; others save by cutting off certain luxuries; others by a system of fines for breaking certain rules; but there is still a better plan. Set aside a definite sum as a debt to your future and deposit it each week in the

New Holiday Savings Fund

just started at this Bank, and build upon it persistently, so that your Holiday Season next year may be a merry one. You may join now.
