Fire at Billmyer

Shortly after four o'clock Wednesday fire was discovered on the roof of the frame building known as the roasting house, at the lime kilns of the J. E. Baker Co., at Billmyer, a short distance east of Bainbridge. Word was sent to Columbia and railroad officials there ordered shifting engine No. 15 with their crew to proceed to the scene of the fire. The engine which has a fire fighting apparatus attached made a record run to Billmyer and had little trouble in extinguishing the flames. The latter communicated with the roof of the engine house and the damage to the two buildings will be about \$1,000.

KIMBROUGH SAYS HE IS NEGOTIATING WITH A WELL KNOWN PACKER

205 Farmers Are Interested—They Will be Told by Letter How to Get the Other Growers into the Association Which is Now Being Formed

Negotiations to secure a packing and storage house in Lancaster to carry on the business of The Seedleaf Tobacco Grower's Company, which is being organized among the farmers of Lancaster county by R. L. Kimbrough were started yesterday and, according to Mr. Kimbrough's statement last evening, a splendid building is available.

Mr. Kimbrough opened his new offices in the Woolworth building yesterday and last evening said that tobacco growers who have 1,453 acres of the 1913 crop have agreed to co-operate with him in the movement of the Seedleaf Growers. Mr. Kimbrough has divided the county into communities and a leader has been chosen in each to look after the interests of his organization. Mr. Kimbrough stated that he has over 3,000,000 pounds of tobacco pledged under the co-operative movement and that the packer he is negotiating for is one of the most experienced in this city and has a clientele of manufacturers who stand ready to take all of the tobacco the house can pack.

According to his statement there are already 205 farmers who have expressed their willingness to co-operate in the movement headed by Mr. Kimbrough. Mr. Kimbrough last evening said that he would send from his office 533 Woolworth building today and Monday the first letter of instructions to those already interested in the movement showing how by team work the other 5,000 or more tobacco growers may be enlisted in the movement. An advisory board will be organized within a short time to look after the future movements of the organization with Mr. Kimbrough.

The growers who are now interested in the company according to Mr. Kimbrough's community figures are divided as follows: One grower in each of the following: Elizabethtown, Pleasant Grove, Stevens, Peter's Creek, Soudersburg, Windom, Brownstown, Narvon, Leaman Place, Murrell, Pequea Creek, Conowingo, Gordonville, Leacock, Clay, Mascot Sporting Hill and Marietta; two growers in Mountville, Silver Springs, Farmersville, Gap, Neffsville, Safe Harbor, Christiana, Co-

FEED GROWING FEED

A chicken grows in proportion to the feed it consumes. Successful poultrymen study in every way to increase their chickens' appetites.

The Park & Pollard Growing Feed increases their appetite. The more they eat of it the more they want.

Whenever your chickens are hatched from January to December feed them this ration until they are six months of age.

Our customers that have used it say it is even better than they claim. *Your money back if you don't like it.*
