Do You Wear The Right Corse

FNOT You are laying the foundation serious trouble in after Me Our Graduate Lady Corset Specialist Will Tell You Corset Advice; Fittings by Experts; Alterations

Free of Charge

T is a fact now universally recognized that unsuitable and unscientific corsets are a fruitful source of most female ailments and are frequently responsible for expensive and perilous surgical operations. The causes of such ailments are often long undetected because of the seeming non-relation between the locality of pain and discomfort and the offending corset.

DURING the past few years a great number of thoughtful physicians who have heretofore condemned corset wearing in general, have now recognized the possibility of producing healthful corsets-corsets which instead of being a canger are a real help to the female figure.

The Correct Selection of a Corset

Is one of the most important problems for each individual woman today, for not only must her corset be rightly constructed and perfect fitting, but of course it must be fashionable and give the proper, stylish, up-to-date figure as well.

It is therefore absolutely necessary that the woman who desires these satisfactory results must be just as particular in the choice of her corset store as she is in her corset, It will not do for her to patronize an establishment where corsets are sold the same as notions or candy and probably by the same salespeople who are moved around from one of these departments to another according to the exigencies of business-such salespeople and such stores cannot offer a satisfactory solution of the corset problem.

Corsets are treated from a hygienic, scientific basis.

We would as soon permit untrained help to wait on a corset customer as a reliable drug store would permit inexperienced hands to make up important medical prescriptions.

WE MAINTAIN A CORSET ORGANIZATION EQUAL IN EFFICIENCY TO THE BEST CORSETIERES IN NEW YORK OR FHILADELPHIA.

An experienced lady, a graduate of a Metropolitan School of corsetry, is always in attendance in our secluded corset department on the balcony, remote from any departments patronzed by the male sex.

The American Lady The Corset That Harmonizes Health And Style

America's most popular corset, worn today by millions of satisfied customers. A full line carried by The Donovan Co. t all times.

Our Corset Salespeopole

Are all thoroughly trained and our customers have the advantage of private fitting rooms where expert lady fitters will mould the corset exactly to your figures, all without any extra charge.
