Just What This Price Means

Price does not always judge a car.

When you speak of the price of a car, you must think of what that price stands for

When we say the Herff-Brooks Six for \$1375, we make a most unusual announcement, because other six has ever been made at that price or anywhere near it.

When we tell you that this is a great big car-124 inch wheel base; 48 H. P. motor; electrical ly started and lighted; and sells for \$1375; then we have not exaggerated-not overstated

We have told you facts that you can verify yourself-because the see it-with-your-own-eyes proof is right in the car itself.
