

WAY FOR THE YOUNG MEN

Condition That Must Be Recognized is Pointed Out by Writer in Magazine.

Dear the way for the young men... they are entering "the strong, flourishing and beautiful age of man's life." They decree the changes. The map of the world may be rolled up...

NAMES THAT DICKENS USED

Carved on English Tombstones, They Recall the Works of Great Author.

The happy discovery in Chalk churchyard of "the immortal names" of Twist, Flight "Sophronia" and Guppy reminds me that some years ago in Bunhill Fields cemetery I noticed on some tombstones not far apart from one another the following names: Sarah Brass, Garland and Sophronia, all of which appear in "The Old Curiosity Shop;" Oram, the name of the undertaker in "David Copperfield;" and Flight and George Sampson, names occurring in "Our Mutual Friend."

WHEN THE ROMANCE FADED

John's Prosaic Recollection Decidedly Not What the Young Wife Had Expected.

"John," she asked, cuddling up to him, for it was the third anniversary of their marriage, "what was the happiest moment of your life?" "Ah, dear," he replied, "I remember it well. I shall never forget it. If I live to be a hundred years old, that moment will always stand out as plain as the sun in the sky."

SOMETHING MORE THAN HINT

Henry McQuibber Could Hardly Have Been Pleased by the Remarks of the Scabbie.

A native of a small village in Scotland, having "made good" in "Turin pants," returned home, and, to show his more unfortunate brethren at home how little he valued £ s. d., he presented a brand-new umbrella stand to the local custom house...

BIRTHDAYS

There are two systems of birth days, one Polish and the other Jewish in origin. The Polish system is the one now more generally accepted, but of course this is simply a matter of custom, not to be settled arbitrarily.

THE JEWISH SYSTEM IS:

January, garnet; February, amethyst; March, bloodstone; April, Diamond; May, emerald; June, chalcodony or agate; July, ruby; August, sardonyx; September, sapphire; October, opal; November, topaz; December, turquoise.

THE POLISH SYSTEM IS:

January, garnet; February, amethyst; March, garnet; April, diamond; May, emerald; June, chalcodony or agate; July, ruby; August, sardonyx; September, sapphire; October, opal; November, topaz; December, turquoise.

HI FAILED TO COME UP.

Hi Larly treated his pig leg to a handsome coat of white paint one day this week, after which he painted his hands and half inches on it and has since been using it as a measuring stick when digging postholes and doing other work.

HE REMEMBERED.

One day I told my son, aged three, to pick up his blocks quickly, for dinner was ready to begin at once, but would no more than get them piled until he would accidentally knock them over again. Finally I reproved him rather sharply, and looking up at me with a hurt feeling, he said: "Ma, am I a bad boy?"

IF I WORE A BIG BADGE.

"If I wore a big badge," he said, "for every wrong thing I don't do you wouldn't see my clothes at all."

"NOBODY EATS POSSUM NOW."

The South has long been cursed with stories of things said to exist here as to be peculiarly Southern that are the mere fictions of the exuberant imaginations of professional Southerners who have never been far from the South of Washington.

Brand-New Excuse.

Casey announced to his wife, Ellen, that he was going to the ball game all day he was gone. Night came, but no Casey to take his place at the head of the table. Midnight and no Casey—one o'clock—two o'clock—three o'clock—no Casey.

Fans Unhealthy.

Though the electric fan brings refreshing coolness to hot places, it does not ventilate a closed room, and Langlais and Satory, French experimenters, have found that the ordinary fan tends to lessen the air's purity instead of increasing it, the stirring up of dust being probably responsible for a large addition to the bacteria.

Great Classical Works Lost.

There are more ways of destroying a book than burning it. The old monks were adepts at another form of destruction with what they considered laudable motives. Yellum was scooped and they were indefatigable in erasing the best works of the Greek and Latin to make room for a life of some saint or other on the same sheet.

Painful to Panes Recently Mr. Andrew Weidman dug a sink for Councilman D. F. Gable at his North Barbara street residence. When a rock was discovered it was found that water would not pass off as quickly as it should and some one suggested exploding dynamite at the bottom of the sink. Four sticks of the explosive were placed on the rock and set off after which Mr. Gable and a mason Kaylor, Harry Engle, Eugene Chanic replaced the broken panes that were broken.
