Four Reasons Why You Should Buy Kreckel Harness

- 1st—It is guaranteed.
- 2nd—It is reasonably priced.
- 3rd—It is made of the same grade of leather we used 35 years ago. Made with as much care—as by skilled harness makers.
- 4th—We stand ready and perfectly willing to remedy any defective leather or mounting.

LANCASTER

## Piano Department To The Public

We beg to announce the opening of a new department in our Large Furniture and Carpet Establishment. We have made arrangements with Story & Clark, one of the largest Piano Factories in the world, to handle their line of high-grade Pianos and Player-Pianos. These instruments are world-famous and are "made to endure." The Piano Department is on the first floor. The first carload arrived on Saturday. They represent the latest designs, and every Piano is guaranteed for 25 years. We show them in Mahogany, Oak and Walnut. During this month, to introduce them, we are going to sell them at a great reduction in price, and on terms to suit you; no interest, or extras of any kind. It will be worth your while to examine these fine Pianos before buying. Old Pianos and Organs taken in exchange at full value. Come and see this new line of Famous Story & Clark Pianos. You are always welcome.

**Westenberger Maley & Myers**  
125-131 East King St. LANCASTER, PA.

### HOME HEALTH CLUB

By Dr. David H. Reeder, Chicago, Ill.

Will Radium cure Cancer? (By H. Lindlahr, M. D. Author's rights reserved) Almost daily, newspapers and magazines bring articles, news items and discussions about the interesting element, radium. The propaganda is so persistent and orderly that one cannot help suspect the artistic hand of the press agent. Factious are forming in the medical profession for and against the use of the metal in the treatment of cancer and other disease. Prof. Schweininger, one of the most prominent physicians in Germany, says radium treatment is a gigantic swindle. Others claim to have produced, within forty-eight hours, most marvelous cures of cancer by means of the radium rays. The surgeons declare there may be some good in the radium treatment, but after all they say the safest way lies in the early removal of tumors, by the knife.

The extravagant claims of the radium advocates are bound to arouse new hope in the many thousands of people all over this country, who suffer from the dread cancer malady, and undoubtedly multitudes will try the new remedy, only to be disappointed in the end. It seems cruel to kill the hopes of those who have planned their faith on the miracle-working power of the radium, but it is not right to give positive assurance of cures, when this method of treatment is still in the period of dangerous experimentation, and when it is a well-known fact that malignant tumors tend to recur after local extirpation, within a period of two years. For this reason alone, it will require several years to prove the efficiency of radium treatment. Furthermore it is not right to lead inquiry into doubtful and dangerous paths, when the only rational and effective way has already been discovered and positively demonstrated.

About ten years ago, the same positive and extravagant claims were made for the Roentgen-rays. Institutions for X-ray treatment sprung up all over the country. What has been the result? It is now a well-established fact that the X-rays, instead of curing cancer, create it. Already, evidence is accumulating which indicates that the radium emanations are just as dangerous as the X-rays.

These agents on account of their immense vibratory velocity and power are altogether too strong and too destructive, for the tissues of the human body. Their work is slow and insidious, but nevertheless, certain. The pernicious effects of the X-rays do not manifest until a few years after exposure. I have in my map, over thirty newspaper clippings gathered during the last ten years, which report the development of cancer-like growths after exposure to the X-rays. One of the first victims was an assistant of Thomas A. Edison. After repeated exposure to the rays in the course of scientific experimentation, the flesh on his body decayed, and fell off in pieces, until death ended his terrible suffering. Thousands of others have suffered the same fate but I have failed to hear of a single, well-authenticated case of cancer cure by the Roentgen-rays.

Personally, I know of several cases that have come under my observation where the application of these rays for some insignificant local lesion, was followed by the development of cancer-like decay of the flesh, and final death, in one instance suicide.

The radium rays are just as powerful as the X-rays, and while they may destroy the abnormal cells of the cancerous growth, they have also a weakening and destructive effect, upon the normal cells of the surrounding tissues and nearby organs. But these destructive after effects may not manifest for many months or several years after exposure.

### ELIZABETHTOWN

Members of St. Paul's U. B. Church Play an April Fool Joke

John Baker of Landisville visited his daughter, Mrs. Allen Hertzler on Manheim street Sunday.

Rev. John Kline and wife visited the latter's mother, Mrs. Solomon Becker at Florin on Sunday.

Calvin Upp, a clerk for the P. R. R. at Harrisburg, has moved from Poplar street into Simon Myers' new house on Manheim street.

George A. Fisher and family moved from their residence near the hardware store into Mrs. David Meckley's house on North Market street.

Harry Lohr's sale of household goods on High street and the sale of the late mother Alvine on Park street, both on Saturday afternoon were well attended.

David Blough of Hoernerstown, a brother of Doctor H. K. Blough purchased the home vacated by George Fisher on Manheim street and took possession on April 1st.

Mrs. Daugherty, widow of the late Rev. S. S. Daugherty shipped her household goods this week to Shremanstown, where she will live with her son, Dr. Joseph Daugherty.

The members of St. Paul's United Brethren Church, took part in an agreeable April fool on their Pastor and family last Wednesday night. A table was placed

## WOMEN FROM 45 TO 55 TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Westbrook, Me. — "I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. I will recommend your medicine to my friends and give you permission to publish my testimonial." — Mrs. LAWRENCE MARTIN, 12 King St., Westbrook, Maine.

Manston, Wis. — "At the Change of Life I suffered with pains in my back and loins until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since." — Mrs. M. J. BROWNELL, Manston, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

the church and then loaded to its full capacity with groceries and all the necessities of life. Notwithstanding the very inclement weather, about \$10 dollars worth of goods was smuggled into the church. Harvey Stern, David Singer, F. B. N. Hoffer and Mrs. Fannie Hostetter were called on for addresses who responded appropriately after which the Pastor, Rev. I. N. Seldomridge showed his appreciation by assuring the congregation that his labors in our town and the relationship among his people here has been beyond his expectation and looks forward to many years of labor here.

Rev. Seldomridge announces a special programme of services for this week. On Monday night Rev. Brinser of the United Zion Children preached a very able sermon, followed by Rev. J. B. Funk on Tuesday night. Tonight (Wednesday) the Rev. I. H. Albright pastor of the U. B. Church of Middletown will preach and tomorrow night the pulpit will be filled by the Rev. Clyde A. Lynch of Harrisburg.

On Friday afternoon a special service of an interesting nature will be conducted by the Woman's Missionary Society, and in the evening the pulpit will be filled by Rev. S. G. Kauffman of Lancaster, who was a former Chaplain of the Lancaster prison.

A general invitation is extended to all members and friends of the church to these services and also to a "sunrise" prayer meeting on next Sunday (Easter morn.) On Sunday the regular services will be conducted by the pastor and in the evening the choir will render a Cantata entitled, "A morning in the Orient."

### ONLY ONE THROW LINE

That's the Law as Interpreted by Fish Warden Gehman

Fish Warden Gehman recently stopped at Lancaster and after considerable discussion of the fish-law was asked to give his interpretation of the fish law regarding throw lines or hand lines.

He said a man is permitted to use but one hand line besides his rods. The number of rods is unlimited, it being the contention of the warden that a fisherman will not burden himself down with more than three or four rods. It is permissible to tie as many hand lines as desired, however to each rod. Three hooks are allowed to each hand line.

Upon being asked what the warden considered a rod he replied a rod must be a pole, whether of wood, bamboo or steel, over three feet and must be of sufficient value that a fisherman will carry it to and from the fishing grounds for further use. In other words a fisherman is not allowed to cut down a sapling in the woods, use it for a day and then cast it aside as of no further use.

We cheerfully admit that if we had been living in Mexico many of the things we have said about Huerta would have been left unsaid.

Mexico might get in line with New York, Dayton and other centers of civilization and ask Col. Goethals to come over and run it.

The question of whether a sea green or a violet blue wig constitutes grounds for divorce is sure to come up sooner or later.

Women in politics are going to help the community to get a lot of interesting adjectives such as mere man would never think of using.

More than three hundred cities have established commission form of government. To this writing not one of them has gone back to the old form.

# BUY DONOVAN FURNITURE

THEN Only You Can Have The Satisfaction Of Knowing Than You Have Purchased Better Furniture—Saved More Received Far Better Service
