LESS TOBACCO BUT BETTER QUALITY

That is What Seed Leaf Growers' Company Directors Report

The directors of the Seed Leaf Tobacco Growers' company at the regular meeting on Saturday reported that the tobacco acreage will be greatly reduced this year, but that the quality will be greatly improved.

The press committee gave out the following:

During the first conference of the tobacco growers on Saturday morning at 10 o'clock in the main office of the Seed Leaf Tobacco Growers' company, one grower made the following report: In his community the past week 27 acres of tobacco were sold, 10 acres at 5 1/2 and 2, 13 acres at 6 1/2 and 2, 2 acres at 6 1/2 and 1 1/2 and 2 at 7 1/2 and 2.

DANGER AFTER GRIPPE

Lies in Poor Blood, Cough and Worn-Out Condition.

Grippe, pleurisy, pneumonia are greatly to be feared at this season. To prevent grippe from being followed by either pleurisy or pneumonia, it is important to drive the last traces of it out of the system.

Our advice is to take Vinol, our delicious cod liver and iron preparation without oil, and get your strength and vitality back quickly. W. W. Lake of Aberdeen, Miss., says: Grippe left me weak, run-down and with a severe cough from which I suffered for a long time.

Try Vinol with the certainty that if it does not benefit you we will give back your money.

P. S. For Eczema of Scalp try our Sazo Salve. We guarantee it!

From time to time the cry goes up the "rents are too high." Now let me explain the cause at least partially. A new tenant comes in and the next day the landlord gets notice that the front door lock is broken and a number of window lights are broken. The pump is out of joint and cellar step is dislocated. The bill for repair equals one fourth the rent yearly and there is the explanation with the tobacco all sold, our wheat and grass crop, the best for years and the Mexicans on the run, our cup is just about full.
