The May Sale of White Begins Friday-- May 1st

The beautiful month of May finds all Nature putting on new apparel and the trees are filled with blossoms white. It is quite appropriate that we, too, transform our store into A GRADEN OF WHITE

Where the newest in Dresses, Embroideries, Undermuslins, Waists, etc., reign supreme. We have therefore planned—as we have for many years a BIG AND USEFUL SALE OF SUMMER GARMENTS AND FABRICS at prices out of the ordinary.

Baby Week in Babyland Begins Saturday--May 2nd

And continues throughout next week—with a wonderful Display and Special Sale of Babywear and Tiny Things for the little tots. The Department will be overflowing with beautiful Garments—dainty fixings and unusual values. Don't miss this event. There will be pretty souvenirs for the baby and little tots up to 6 years.

On account of this copy having to go to Press so early—there are no prices mentioned—in either the May White Sale or Baby Week Sale—but, we want you to come and investigate

Homer A. Barr will conduct the prayer and song service at 7 P. M.
Mother's Day will be observed on Sunday, May 10.

Elizabethtown College Notes
The Temperance League of Elizabethtown College rendered the following public programme in the chapel on Thursday evening: Music, Chorus, Class; Invocation, Rev. I. N. Seldomridge; President's Address, Prof. H. K. Ober; music, Boys' Glee Club; recitation, "Loved and Lost," Miss Sara Repligle; oration, Rev. Geo. Capetanos. Miss Amanda Landis of Millersville, then gave the main address, which was full of thought and burned with enthusiasm for this great cause, for which she is working so earnestly. A temperance offering was also taken to work more efficiently. The officers of the League are: President, H. K. Ober, and Secretary, Miss Mary G. Hershey. Friday morning Miss Landes gave a recitation before the students and faculty of the College.

The first public event of the Class of 1914, of the College, was the Arbor Day programme rendered Friday afternoon at the College. The President, Mr. J. D. Reber, in a few well-chosen words welcomed the audience and spoke about the history of Arbor Day. Miss Lillian Becker then delivered a recitation, which was followed by an essay entitled, "The Significance of Trees," by Miss Linda Huber. An instrumental solo, by Miss Mary Elizabeth Miller, was artistically given, which was followed by an oration by Mr. John Kuhns. Prof. H. K. Ober, Dean of the Agricultural Department, delivered the regular address, which stirred the hearts of everybody with a deeper feeling for trees and nature. The class then planted a tree as a memorial to the school and a tribute to coming generations.

WHY MOUNT JOY MERCHANTS SHOULD ADVERTISE IN THE BULLETIN

A \$2,000,000.00 Example

Without a dollar's worth of business in sight, the Ward Baking Co. erected and equipped two magnificent bakeries in New York City, at a cost of \$2,000,000.

They knew the possibilities of advertising and depended upon advertising to make their New York business a success.

The result was that in eight months they obtained distribution for 350,000 loaves of bread per day.

Without advertising those two million dollar bakeries would be accumulating dust and cobwebs, and the two hundred autos used for delivery purposes would be idle. Use the Bulletin and watch your business grow.

Bicycle Stolen

Oliver Shields of Marietta, while hunting arbutus on the Chickies rock had his bicycle stolen. He left it stand for a few minutes against a tree and when he returned it was gone. Mr. Shields only recently purchased it.

The plant of happiness cannot thrive without an air of cheerfulness.

HOME HEALTH CLUB

By Dr. David H. Reeder, Chicago, Ill.

Great Discoveries.—The kind of discoveries that are really great are those that effect human welfare and human happiness and comfort. The telephone, telegraph and wireless discoveries have probably saved more lives from accidental death than any other great discoveries.

In the field of medicine are so many who rush blindly into print with load claims of great discoveries before thorough proof has demonstrated the correctness of their claims, that in modern times we are thoroughly skeptical when we hear such claims and at once acknowledge that "we are from Missouri and be shown." Whenever a new thing is thought to have been discovered by those whom we call scientists some one at once proclaims that it must be the long sought cure for cancer or tuberculosis. Possibly they reason that they don't know of any other thing it is good for and it must be good for something else it would not exist, Radium and the X-ray may for the time being at least, be safely placed in that class of cures. Personally I believe that the discoveries of Metchnikoff, Powell and Lane are of the greatest vital importance to the human race and all of them confirm from a different angle and without in the least knowing the lines of work of the other, what I have claimed for many years, namely that poor elimination of waste matter from the system is the cause of nearly all of our ailments.

Powell claimed over 30 years ago that the "suitable soil" necessary for disease germs to live upon and grow was supplied by particles of undigested food that was retained in the system too long. He found and made and is now making wonderful cures, but he is a modest man. Metchnikoff found so many millions of bacteria and disease germs in the facial impacted colon that he wondered at the power of a person in living to any advanced age. He found that lactic acid supplied germs that aided in destroying the disease germs which induce old age and sought through soured milk and other agents to overcome the trouble. In a way he has been successful.

Lane accidentally discovered a more heroic method in surgery. He cut out the transverse colon and a part of the ascending and descending colon and made a short cut across. This would not and could not retain the fecal matter long and the result was astonishing good health and cheerfulness in what had been a serious and almost hopeless case of melancholia with open running sores. He secured like results in many cases, but realized that all human beings could not be operated and sought through various ways to cleanse the colon through the alimentary canal and with flushings. The later is a poor and disagreeable as well as unnatural makeshift, but it answers a splendid purpose in many cases, while laxatives, vegetable oils and cathartics commonly used are either digested and absorbed before reaching the colon or they are too severe and the reaction leaves the poor patient in a condition worse than before.

When those who are acclaimed as the world's great scientists can find time to get back to Nature's first principles as taught by the Home Health Club and proven many times over, it will be found that the evacuation and cleansing of the colon can be made practical, prompt and pleasant in the simplest manner possible and those of us who have been testing out the plan are growing younger instead of older, stronger with advancing years instead of weaker and I predict that out of each 100 persons who carry out the program from the age of 50 years, at least ten per cent will pass the century mark with the vigor and abilities of the average man at 80 years.

It has been some time since I have asked for special volunteers or recruits, but I am going to ask now for another 100 volunteers from the ranks of those who suffer with habitual constipation, who will agree to carry out the detailed Home Health Club method of living from now on so long as it keeps them in good health. There are, of course, no fees required, but I want you to assure me that you will continue to subscribe for this paper so that I can keep in touch with you and keep you posted from time to time while you can help others by occasional reports of your good health.

WHY MOUNT JOY MERCHANTS SHOULD ADVERTISE IN THE BULLETIN

"Abe" Lincoln Said

Abraham Lincoln said: "I do not know much about the tariff, but I do know this much; when we buy goods abroad we get the goods and the foreigner gets the money; when we buy goods made at home, we get both the goods and the money. Those who get the 'lion's share' of Mount Joy business are advertisers in the Bulletin.

There is no work so humble that faithfulness in it will not be noticed and rewarded.

Advertise in the Mt. Joy Bulletin.

A Grand Success

Best Vocal Program Ever Rendered In Mount Joy

Too much cannot be said of the Choral Society has again rendered in a most excellent manner in which every member on the program in the cantata, David, the Shepherd Boy, rendered his or her part of a very good musical program. INTERLUDE—ORCHESTRA

2. FINALE:

"Hosanna! Blessed is He that Cometh!"

(with obligato for Soprano and Tenor)

THE END

WHY MOUNT JOY MERCHANTS SHOULD ADVERTISE IN THE BULLETIN

Why Do You Name The Brand When You Mean The Commodity? There are, in the United States, 3672 flour mills with a daily capacity of more than 50 barrels.

There are 232 catsup manufacturers, more than 475 cereal manufacturers, far more than 30,000 brands of soap made by 1038 manufacturers, shoe manufacturers to the number of 2150 and 41 manufacturers of talking machines.

Try to name a brand of floating soap, a brand of catsup, a brand of shoe or a talking machine, and the probability is that in every instance you will name the brand which is most extensively advertised.

WHY MOUNT JOY MERCHANTS SHOULD ADVERTISE IN THE BULLETIN

The amount you pay the publisher for advertising includes a great deal more than space.

It covers careful composition, good printing, free delivery and reaches the reader in a form which assures attention. It reaches these people at the most opportune moment—when the reader sits down, leans comfortably back and spreads out the paper to learn what is going on. It reaches the mind in a receptive state—the ideal time and the ideal condition in which to create desire. The Bulletin is the ideal medium to use in effecting that result.

WHY MOUNT JOY MERCHANTS SHOULD ADVERTISE IN THE BULLETIN

Let's See, What Was His Name? In 1908 we experienced a very lively contest for the Presidency and Vice Presidency.

No great discovery or catastrophe received more space in the public print than did the utterances, the goings and the comings of the four candidates representing the two great parties.

It would seem impossible for any one to forget the names of these men.

Can you name the candidate for the Vice Presidency on the ticket with Mr. Bryan?

Oblivion is the price of silence. Mr. Bryan's name has been kept before the public. His running mate is forgotten.

Don't let the public forget you. Use the Bulletin.

PUBLIC SALE OF AN EXPRESS LOAD OF INDIANA HORSES

On Monday, May 4, 1914 I will sell at public sale, at the Franklin House Stables, Lancaster, Pa., the following live stock, to wit:

One express load of INDIANA horses, consisting of trotters, pacers and general purpose horses, and some good farm chunks.

These horses were bought by my son, John and he wires me he has some extra good drivers and family-broken horses. Gentlemen, you know he buys the best that money will buy.

Will sell horses on commission for anybody.

Don't forget the day and date, MONDAY, MAY 4, 1914, at one o'clock p. m., sharp, at the Franklin House, Lancaster, Pa., when conditions will be made known by

C. C. HALLMAN, A. L. Hess, Auctioneer, H. R. Bassler, Clerk.
