**BUY an International Harvester engine, take care of it as any machine should be cared for and a dozen years or more from now it will still be working for you.**

It will save you and your family endless hours of hard labor in pumping, sawing, grinding, spraying, running separator, etc.

Buy an I.H.C. engine. They last longer, burn less fuel, are simpler, and give you most power. Here are a few of the reasons: Offset cylinder heads, large valves, accurately ground piston and rings, heavy drop forged crank shafts and connecting rods, etc. Best material and construction mean the best engine. I.H.C. engines are built in all styles, and in all sizes from 1 to 50-H.P. They operate on low and high grade fuels.

Not every local dealer handles I.H.C. engines. The one who does is a good man to know. If you do not know who he is, we will tell you when you write us for catalogues.

### AT KRECKEL'S!

We have never held any so-called "sales." We are an "old-line" house, our prices were always as low as we could afford to do business on, so we never got into any "sale" stunts.

We now have too many Trunks, over-bought ourselves, with more coming, so, Kreckel's are going to have a "sale."

We never made a misstatement, and we are not going to now. This is a real sale. Prices are in plain figures, just as they have always been at this store. Here's a sample:

\$26.50 TRUNKS CUT TO	\$19.72
\$15.00 TRUNKS CUT TO	\$12.47
\$14.00 TRUNKS CUT TO	\$11.25
\$13.50 TRUNKS CUT TO	\$10.48
\$12.00 TRUNKS CUT TO	\$9.65
\$ 9.50 TRUNKS CUT TO	\$7.45
\$ 8.50 TRUNKS CUT TO	\$7.00
\$ 7.00 TRUNKS CUT TO	\$5.35

We keep all Trunks in repair for you one year. During this sale, which will last during the month of May, we will give double S. & H. Green Stamps.

We have the largest assortment of Trunks in Lancaster.

### FRUIT MEN READ THIS

An Open Letter to Our Local Fruit Growers

Our proposition to publish a "white list of Pennsylvania fruit growers" has met with the most cordial approval of the prominent fruit growers and public men, and especially the press of Pennsylvania. I now wish to communicate with each person in Pennsylvania who grows fruits for sale. What I have to say below is decidedly for your welfare, and also for that of consumers, and for all citizens in the great state of Pennsylvania.

1. Learn the needs of your trees and treat them accordingly. See how your nearest successful growers are meeting such troubles as you have. Visit one another and become acquainted; exchange ideas and profit by experience.

2. Form a local or county fruit growers' association, and keep it alive by developing and making use of home talent. Prepare to make an exhibit this fall that will make your county famous for its fine fruits, as it can be and should be. Remember that no person takes prizes who does not begin early, and prizes are not won by haphazard or careless methods.

3. Solve the problem of what to do with culls by not producing them. Practice those methods that will eliminate the culls and give you high grade fruits. Learn what pests are liable to come to each kind, and spray to prevent them when preventive sprays will be effective. Write to the office of the Economic Zoologist, Harrisburg, for information as to what to use and when and how.

4. Do not depend upon statements made by advertisers or agents or other persons who can not prove themselves able to speak from extensive practical experience or scientific authority. If you receive circulars of materials or apparatus do not put dependence on them until you communicate with some reliable sources, and obtain further information about them. Write to the State Department of Agriculture at Harrisburg, or the State College or State Experiment Station at State College P. O. or to the Federal Department of Agriculture at Washington, D. C., or, better, to all of them.

Obtain and read the Bulletins issued from each of the three distinct sources mentioned above, and subscribe for at least one or two horticultural journals that will keep you abreast of the times. If you have worked out some good "stunt," or have proven some variety to be especially valuable, give it to your county fruit growers' association, and see to it that it is published in your local papers.

6. Develop your home markets rather than working for a shipping market. Advertise locally. This will be one of the greatest fruit years ever known in many parts of Pennsylvania. The shipping markets doubtless will be glutted. Develop the home market, and thus save the expense of shipment, the damage to fruits and commission charges.

7. Grade your fruits to uniformity of size and quality in the same package. Mark the quality or grade, the name of the variety, your name and address and the weight or quantity of fruit on each package. The law requires only the correct net weight or quantity stated, but it will pay you to do more. Above all else prepare an intelligent and honest package. Develop your home trade and keep your customers.

Remember that the present law is that any package to contain a bushel of apples or pears must hold at least 50 pounds of fruit net; quinces and peaches 48 pounds; plums 64 pounds; cherries with stems 56 pounds and cherries without stems 64 pounds. Any half bushel package must contain at least one-half of the respective amount of each. A quart must contain one-third second of the amount prescribed for a bushel. If your package does not hold a unit, such as a quart, quarter peck, half peck, peck, half bushel or bushel, mark on it the number of pounds it contains and sell it for such amount. This law prevents the selling of a "short measure." Like fourteen quart basket, for a half bushel.

8. If you have sprayed or intend this spring to spray your trees for the pests that will damage your fruits and if you will have more fruits of any one or more kinds than you can handle in your local market, please write to me at once stating your name and address, shipping station, kind of fruit and estimated amount of each kind that you will have for sale and I shall place your name on the "White List," and try to connect you with reliable buyers, who will be anxious to meet you, especially if you produce first class fruit. This "White List" for each county will be published extensively.

9. If you have pests or desire to ask questions along the line of pest suppression, horticultural management and related subjects, write directly to the office of the Economic Zoologist, Department of Agriculture, Harrisburg, always sending samples of pests with inquiries. Respectfully,  
H. A. SURFACE,  
Economic Zoologist.

# Herff-Brooks \$1375

## Our Competitor

We don't know what competition will say in answer to this unusual advertisement. It's the first time competition has been asked to make such a comparison with so remarkable a car at so remarkable a price. So far as we are concerned, we don't much care what they say.

We are building cars for our dealers and their people; not for competition. When so unusual a proposition comes out, competition generally warns both dealers and buyers to stay away from it.

This warning is not the result of any fine moral standard, but it is the natural fear of not knowing how to meet the other man's proposition until after they have seen what approval it will find from most dealers and owners.

When a proposition is as good as the Herff-Brooks proposition competition doesn't mean the loss of many sales to us because the dealer or owner has only to see the Herff-Brooks to realize that against such merit, at such a price, abuse and criticism must fall away unnoticed.

Remember that the only competition we will have is cars costing from \$1,750 to \$2,000 and that competition is a compliment. Ask competition the price of his car; then make him prove that there exists that difference in price between what he has to offer you and the Herff-Brooks at \$1,375.

### SALE REGISTER

A FREE notice of your sale is inserted here for any length of time, provided we print your sale bills. This is excellent advertising because it is read by so many people and a notice such as the following will surely bring the buyers:

Friday, May 22—At their stock yards in Mount Joy, 51 head of cows, heifers, bulls, shoats etc., by J. B. Keller & Bro. Aldinger, auct.

Saturday, May 23—At his stables on Marietta street, Mt. Joy, 25 head of acclimated horses consisting of all kinds of good workers, drivers, etc. Also some fine colts by Mr. Ed Ream, Zeller, auct.

Tuesday, May 26—At the residence of the late Mary A. Stoner, corner Donegal and New Haven streets, Mt. Joy, a large lot of household goods by Messrs. Harry N. Nisley and David H. Engle, executors. Zeller, auct.

Friday, May 29—At the Washington House stables, Mt. Joy, a carload of fresh cows and springers and 75 head of shoats by C. S. Frank, Minnich, auct.

### WHY MOUNT JOY MERCHANTS SHOULD ADVERTISE IN THE BULLETIN

Abraham Lincoln said: "I do not know much about the tariff, but I do know this much; when we buy goods abroad we get the goods and the foreigner gets the money; when we buy goods made at home, we get both the goods and the money." Those who get the "lion's share" of Mount Joy business are advertisers in the Bulletin.

### Chickens Chickens

Nothing pays so well as attention to your chickens. Because of exposure to climatic changes fowls, old and young, are susceptible to such diseases as gapes, roup, cholera, colds and germs. To prevent these troubles keep constantly in their drinking water.

## Special Pickup of Suits Worth \$18 To Go at \$15

GOING RIGHT on to the floor of a New York manufacturer, we made a virtual clean-up of his Spring stock at a figure that permits us to sell what would otherwise be regular \$18 Suits at the attractive price of \$15. They were made up to sell at \$18 at least, and a few at \$20. By taking the entire line, we bought them all at a price that "lets us out" at \$15.

Of course, we cannot promise a complete range of sizes in every pattern. Some run six suits to a pattern, some ten, others as high as twelve or fifteen.

FROM OUR LONG experience in Clothing, we know the figure at which we bought these Suits represents no more than the mere cost of materials and making. To this we have added a small, legitimate profit—SO THAT THE SAVING which we effected by enterprising business methods and getting in on the ground floor for a real bargain COMES STRAIGHT BACK TO YOU—and just when you want it most.
