Diamond Dust There will be a good game here on Saturday when the New Standard team will be opposed by the strong team representing the Bowman Technical School of Lancaster. His many friends here will be pleased to learn of the success of Mr. Nelson Hauenstein, son of Mr. Daniel Hauenstein, of this place. He is a member of the San Antonio team in the Texas League. Thus far "Nels" has three home runs to his credit, one of which won a 13-inning game and was made after two men were out. A clipping which is appended, tells what the newspapers think of his work. "The club was up against it for catchers on this recent trip. Burch was out of it with a lame thumb for awhile, and Hauenstein was spiked between the fingers of his right hand in Waco, being out of the game also. Both these men worked under a handicap when partially recovered, but both have done good work. Burch is the more experienced, but there has been no young catcher in many years in Texas—not even Killifer—who has had a thing on this Hauenstein as a prospect. His development has been marvelous and he is a sure big leaguer in a short while if he keeps in the game."

Our Competitor

We don't know what competitor will say in answer to this unusual advertisement. It's time competition has been asked to make such a comparison with so remarkable a car at so low a price. So far as we are concerned, we don't much care what they say. We are building cars for our dealers and their people; not for competition. When so much proposition comes out, competition generally warns both dealers and buyers to stay away from it. This warning is not the result of any fine moral standard, but it is the natural fear of not how to meet the other man's proposition until after they have seen what approval it will find from dealers and owners. When a proposition is as good as the Herff-Brooks proposition competition doesn't mean that many sales to us because the dealer or owner has only to see the Herff-Brooks to realize that again. Remember that the only competition we will have is cars costing from \$1,750 to \$2,000 and that competition is a compliment. Ask competition the price of his car; then make him prove that there is that difference in price between what he has to offer you and the Herff-Brooks at \$1,375.

May Has Broken Our Clothing Records

WE HAVE handed out a tremendous number of Summer Suits the past twenty-nine days, so many that we are confident that the best of all our previous records went. Which tells, better than anything else, that other men are aware of the unexcelled selection, and value of this clothing house. The test of the Suit is in the way we wear it gives the talk it takes to sell it. You can put almost into type, but printed words never yet made a good. Neither could they build up an immense business like this if the Superior values necessary here. Our prices run from \$8.50 to \$25.00.
