

Pyrox

And Get Quality

"Pyrox" in fruits and vegetables, after cultivation has been completed, is a matter greatly dependent upon proper spraying.

Pyrox will give you the kind of fruit and vegetable for your customers—the kind that will tempt them to eat.

Pyrox practically all leaf-eating insects, destroys fungous diseases, rot, etc.

Pyrox covers the crop as far as it is possible to insure it by spraying. It gives more perfect apples on the tree will pay for all the cost of a large apple-tree.

It is true of apples is true also of potatoes; a better potato, and the use of Pyrox, is easier to sell, as a rule brings a higher price, and by tempting the user to consume more, really a larger market.

Pyrox protects the potato crop from both bugs and blight; it increases the yield of the crop and the value of it. It is economical because it is effective in its double purpose and because it sticks well to the vines as to make respraying on account of rain unnecessary.

Pyrox For Stone Fruits

For destroying all leaf-eating insects, as well as for preventing and checking brown rot, peach leaf-curl, plum curculio, cherry leaf-blight and plum leaf-blight, Pyrox has given the greatest satisfaction to our customers.

Pyrox For Small Fruits, Grapes, Etc.

Pyrox kills all the leaf-eating insects that affect the grape, and prevents black rot, brown rot and other fungous diseases. This one preparation serves the purposes for which double applications have been used, and has done so for fifteen years. Pyrox is no experiment; remember, it was introduced in 1898.

Come in and let us tell you more about PYROX.

WHY MOUNT JOY MERCHANTS SHOULD ADVERTISE IN THE BULLETIN

Preaching vs. Practice

If one of your competitors were to "spring" an innovation in the way of a sale, a new matter of displaying merchandise—anything at all—

You would do the same thing just as soon as you could, if you considered it of value to your business.

Why copy them in the small things and not in the big things?

The greatest business men are the warmest advocates of advertising.

The fact that they practice what they preach is the factor which made them the greatest business men.

Money spent in the Bulletin will be of far more benefit to you than a thousand times the same amount in the bank.

DAM TO BE RAISED

It is Rumored That Fifteen Feet Will Be Added at McCall's

A report has been sent out from McCall's Ferry of a revival there of rumors that the Pennsylvania Water and Power Company engineers are preparing plans for the raising of the company's dam at Holtwood from 12 to 15 feet, and that work will be begun early in the spring of 1915. The rumor has been current for some days.

It is said that certain officials of the company have been dickering

with the few property owners whose properties will be affected by the back water for flottage rights, and that some have been secured at a good round price within a fortnight.

None of the high officials could be reached but from semi-official sources it was learned and even admitted that the rumor of raising the dam had been current among employees of the company for the last several days and that "there is possibly something in it."

Fifteen feet on the present dam, would back the water many miles further up the river than it now does, down out Safe Harbor and would in ordinary stages of the river or a bit above ordinary stage, provide motor boating from McCall's Ferry to Washington Borough.

It is conceded that if the dam is raised, the hopes of the up-river fishermen to get fish up the fishway and over the dam, will go glimmering, for while it is hoped to get fish up the new fishway when it is finally completed, fifteen feet higher would forever end that hope.

The fifteen feet on the dam, it is claimed, is necessary to get enough "head" to run a full complement of turbines at enough pressure to furnish all the power demanded of the company.

Austrian capitalists will, it is rumored, furnish the money for the addition and extension.

News at Florin

(Continued from page 1)

and Mrs. Ishler had all the children together at one time, for the reason that all the sons had been in Military service.

Milton Ishler served five years in the Marine Corps. Harvey A. Ishler done a five year enlistment in the Marine Corps and nine years in the army. Walter R. Ishler served four years in the Navy and Claud A. Ishler, last son, is now serving a four-year enlistment in the Marine Corps as a trumpeter, stationed at League Island Navy Yard, Philadelphia, Pa.

Mr. Ishler's son-in-law, W. W. Leibfried, served in the Regular Army in the Philippines. Mr. Harry G. Neblich, a close friend of the family, served eight years in the Navy, four of them being with Walter Roy Ishler.

The Ishler family has been well represented in the Army and Navy and Marine Corps.

Back as far as the Revolutionary War, the Ishler boys' great-grandfather and great-grandfather served in the Revolutionary War and their grand-father served in the Mexican War, and Mr. Ishler, the father, served in the Civil War at Gettysburg, and other battles.

Milton L. was discharged a corporal.

Harvey A. was discharged a Quarter Master sergeant, and Walter R. was discharged a seaman, all having excellent discharges.

WHY MOUNT JOY MERCHANTS SHOULD ADVERTISE IN THE BULLETIN

Abraham Lincoln said: "I do not know much about the tariff, but I do know this much; when we buy goods abroad we get the goods and the foreigner gets the money; when we buy goods made at home, we get both the goods and the money."

Those who get the "big share" of Mount Joy business should advertise in the Bulletin.

MR. MAN

You certainly have my sympathy when you have tire trouble. I know exactly what that means, as I had my share of it. But now it's

No More Tire Trouble

For mine. My practical experience—nearly 6,000 miles over the roads of Lancaster, Lebanon, Dauphin, Franklin, and Juniata Counties with a heavy touring car and never stopped a second for tire trouble. Doesn't that listen good?

I Use Better=Air

This is a filler placed in a tire instead of inner tubes. It rides easier, makes blowouts and punctures impossible and makes your tires wear longer. If interested, write, phone or call on
