Competitor

We don't know what competition will say in answer to his unusual advertisement. It's the nrst time competition has been asked to make such a compraison with so remarkable a car at so remarkable a price. So far as we are concerned, we don't much care what they

We are building cars for our dealers and their people; not for competition. When so unusual a proposition comes out, competition generally warns both dealer and buyers to stay away from it. This warning is not the result of any fine moral standard but it is the natural fear of not knowing how to meet the other man's proposition until after they have seen what approval it will find from most dealers and owners.

When a proposition is as good as the Herff-Brooks proposition competition doesn't mean the loss of many sales to us because the dealer or owner has only to see the Herff-Hooks to realize that against such merit, at such a price, abuse and criticism must fall away unnoticed. Remember that the only competition we will have is cars costing om \$1,750/to \$2,000 and that competition is a compliment. Ask competition the price of his car: then hake him prove that there ex-

ists that difference in price between what he has to offer you a

t \$1.375.
