PRICES GOING UP

But Gasoline Drops a Cent a Gallon in This Place

All indications point to a higher cost of living in this country on account of the war. Swetzer cheese has gone up about ten cents a pound in the past week and in the future the plates of baked beans served at restaurants will be smaller or there

will be a raise in the cost. One restaurant man at Lancaster who does a tremendous business in baked beans, told a man to-day that beans have gone up suddenly, as well as rapidly. Last week they could be had for \$2.50 a bushel and to-day the wholesale dealers are asking \$4 and don't seem anxious to sell at that.

One man said he purchased a large quantity of beans last week at the low price and was notified to-day that he could not have them unless he paid the higher price. Black pepper, and dry mustard have gone up two or three cents a pound. Granulated sugar has jumped from five to seven cents per pound.

Brown sugar, that sold for four and a-half cents, is now six and all kinds of sweets are advancing. Many house-keepers are buying sugar in large quantities because they do not know where the prices will stop. Lemons are also becoming scarce and high. The disadvantages of war are many, as the purchasing people are beginning to realize.

But one thing is certain. With the prices of almost everything soaring skyward, the price of gasoline dropped one cent a gallon. At least that's what the big card reads at L. P. Heilig's today.

That Was Some Blast

One day last week Mr. John Gainor made one of the most successful blasts ever attempted at the big stone quarries along the pike near Bacon's Mill.
