VERY INTERESTING NEWS AS PENNED BY MRS. CLARENCE STOLL

Were Obligated to Leave for London Very Hurriedly -- A Cablegram From Mr. Stoll to His Father, Mr. J. H. Stoll, Tells of His Safety in Woolwich, England

Following is a letter received by Mrs. M. S. Bowman of this place, her daughter, Mrs. Clarence Stoll, which is quite interesting. I have no idea of the day or but you will be glad to hear have landed in London.

We were having tea Monday afternoon when Mr. Booth came rushing to the house in a taxi to tell us to pack as we were to leave at six o'clock for London.

I can imagine the confusion, what they packed in London with me, I don't need.

HARVEY KEATH KILLED

Both Legs Severed--Had Taken Logs to Mill and Lost His Foot While Unloading

Morris Hollinger's saw mill, at White Oak, was the scene of a horrible accident about 4:20 o'clock Tuesday afternoon, resulting in the death of Harvey Keith, 47 years of age, a farmer near Penryn. Keith died in the Lancaster General Hospital at 7:30 o'clock the same evening, shortly after he left the operating table, where his left leg, which was hanging by a shred of flesh, was amputated. The right leg had been severed below the knee by the large wood saw in the mill. The unfortunate man had left his home shortly after noon with a load of logs which he intended to have cut at the saw mill. When he arrived at his destination he helped Hollinger carry the logs into the mill. The big saw was started in operation and several of the logs were cut. Both men lifted a big log ready to place on the saw. In doing this Keith stepped upon the carriage on which the logs are held while being sawed, and losing his footing fell directly under the big circular saw which was revolving very rapidly. The right leg was whipped off below the knee in a flash, and the left leg, also below the knee, was only left hanging by a shred of flesh.

Hollinger, a horrified spectator of the accident, was helpless to interfere. Before he could shut off the power Keith was lying in a pool of blood on the floor of the mill. The right leg was lying on one side of the saw and the body of the man on the other. The left leg was dangling in a pool of blood.

DOCKED FOR DAYS ABSENT

This Rule Only Applies to Congressmen, However, and Not Us

Washington, Aug. 25--The House today adopted a drastic resolution, introduced by Majority Leader Underwood, ordering absent members back to their duties, and "docking" them for every day they are away except for sickness. The vote on the resolution was 213 for, 8 absent and 27 against.

The fact that the war is spreading, and the danger that the United States may be drawn into it is daily becoming more serious, is understood to be back of the insistence of the leaders that full attendance be maintained.

The daily compensation of a member of Congress is \$20.54 1/4. According to the roll call on the resolution 185 of the 433 members of the House are absent from Washington. If these members remain away the government will save about \$3,600 a day in salaries.

WE GET ANOTHER LEMON

That's What a Lancaster Daily Says About It at Least

The Morning Journal says--"Once again have the fishermen of the Upper Susquehanna River been handed a lemon by the State Department of Fisheries, which promised faithfully to have the fishway in the dam at Holtwood repaired to give the migratory fish a chance to get up the river. Now with the season almost spent, nothing has been done to the present incomplete fishway on the York county side of the river, and the presumption is that nothing will be done, as nearly all the men except those regularly employed to operate the plant have been laid off.

Officials with whom the matter has been taken up hold out hope, but it will be but a few weeks at the outside until the fall rains cause the river to rise so much that nothing can be done, and then another year will have to pass and again the shadow of a lemon will be held over the fish fry be doomed.
