VERY VALUABLE INFORMATION FOR THE FARMERS

F. S. Bucher, Farm Bureau Agent of This County, Tells What Tribute the Farmer is Paying for Commercial Lime—Does it Pay, Tell Us?

Probably one of the most important questions which confronts farmers is what form of lime to use and where it can be secured at the lowest cost. Until within a comparatively few years no form of lime other than burnt lime was considered for agricultural use. On account of its caustic properties it is disagreeable to handle. This, together with increasing coal prices has caused this form of lime to fall into disrepute and our former "farm kilns" into decay.

Commercial lime burners have taken advantage by hydrating their burnt lime and supplying the farmer with a product which is far more acceptable so far as the handling is concerned, but which falls short of the par value of burnt lime so far as soil and plant value are concerned. The average purchase price asked for lime at the kiln is \$2.50 per ton. Hydrated lime during the last year has been selling at from \$5.75 to \$7.50 per ton. When it is considered that hydrated lime contains about 33 per cent. of incorporated moisture, the actual cost of lime to the farmer when purchased in the hydrated form would amount to \$8.00 and \$11.25 per ton calculated from the above market prices. On account of impurities in the freshly burned lime we may reasonably add 50c per ton, making the lime value \$3.00 per ton rather than \$2.50. The consumer then pays \$3.00 in one case and from \$3.60 to \$11.25 in another for the same value. The ton difference of \$5.00 to \$8.25 is paid for in agreeableness of application. Is it worth the price? You must be the judge.

When it is considered that the limestone resources of Lancaster County are unexcelled by any in the state it is surprising to know what small amount of lime is produced and consumed within the county. It is equally amazing to know the amount of lime which is being shipped in, sold at the above prices, and paid for in Lancaster County cash. When we consider that we pay the freight and consume an extra amount of time in making long hauls to the station, when we could escape these costs by home production, it does not appear like much of a hard headed business proposition.

Recent experimental data by a few of our experiment stations including our own, have shown finely pulverized lime stone to be equally efficient for agricultural use as burnt lime. As the facts became known, lime and cement companies have placed finely ground lime stone on the market which is giving very satisfactory results. Prices asked for vary from \$3.50 to \$6.00 per ton when freight is included. Comparing these prices with that of burnt lime and considering that the application of the ground limestone should be almost twice as heavy as burnt lime, we consider them too high.

Inasmuch as limestone is available on a large number of farms in the county the Farm Bureau feels that steps should be taken to utilize this lime at home, thereby saving a considerable amount of money which now passes out of the county. Analyses have already been made of a number of lime stones on a limited number of farms which show that they contain a high percentage of calcium carbonate in many cases. Efforts will be made to induce one or several men who own traction engines to purchase a portable pulverizer who would make it their business to go around among the farmers to pulverize their rock much in the same manner as the threshermen. In this case the farmer would quarry his own rock. This system has been worked in Washington Co., during the last month with great success. The cost of the finished product was about \$1.50 per ton and in some cases lower. This includes both crushing and quarrying.

An Ohio Company is now manufacturing a Pulverizer which crushes lime stone rock to sufficient fineness at the rate of two to two and a half tons per hour. The harder the stone the more rapid the crushing. The crusher weighs 4500 pounds and is simple in construction so that repair costs will be small. It can be operated by a 10 H. P. engine but a 14 to 16 horsepower engine with a 42 to 44 in. fly wheel will be better for continued work. One man will be required for the engine and another for the crusher. It is figured that this business would be as profitable as wheat threshing and also has the added advantage of fewer sets. On the other hand it would be a double benefit to the farmer in that he can secure lime in a form agreeable to handle and at a lower money and labor cost.

The Farm Bureau is concerned in the production of cheaper lime production and would appreciate very much taking up this matter with interested parties.

The Belgians have assumed a very retiring disposition.

PENNSYLVANIA DUTCH.

What Shilkey Bumblebeek Has To Say This Week

Was Gehappened Is

Unner unserm volk werre viel sache verzahlt, die gehappent sin. Viel davon sin zu gut, dass mer sie vergesse geh losst. Mer welle do en dehl in unser buch drucke, so dass sie uf bewahrt bliewe.

In viel land Kerche hen sie bis vor en dehl johre orgelspieler katt, die en wenig hinner der zeit war. Sie ware net arg grosse muskante un mer hot es ah net expekte konne vun ihne. Sie hen net viel joh kriegt. In der regel hen sie if'm Kercheland gewohnt un in der woch gebauert un Sundaaws die orgel gespielt un vorgesunge. Ihr spiele is oft en wenig holperig gange. Naturlich ware die orgel ah net vun de beste. Die mehnsie orgelspieler hen just en klehne list vun lieder katt, die sin hen spiele konne. In ere gewisse Kerch in Ost Pennsilvania hot der Parre en Lied ausgeve, awer der orgelspieler hot es net spiele konne, do ruft er vun der Gallery nummer: "Parre, sell konne mer net geh." Die antwort war: "All recht, mer nemme eppes anners."

Die orgelspieler ware ah in der regel vorsinger, un sie hen ah en de leichte vorsunge musse. Bei ere gewisse leicht hot es en gespässiger mistak gewe. Die leut hen des grab zu kieh gemacht katt un die lad is get nel gange. Do sagt der Parre: "Ss is zu klein, er geht nicht mein." Der vorsinger hot gemeint sell war die erst lein vun lied un fangt ah sell zu singe. Der Parre rutt: "Nein, so hab ich's net gemeint. Die sacht hat sich nur so geremt." Do fangt der vorsinger wieder ah un singt sell.

En gewisser Parre hot noch Manheim in Lancaster County geh wolle. Unnerwegs hot er en buh abgetroffe un den hot er der weg noch sellen stadtel gefrogt. Der buh hot ihm geah: "Du gehst nummer bis an's Schwenke Muhl, noh dreht rechts un gehst grad fort, dernoh kummt noch Manheim." Der Parre hot geah: "Ich denk du weest net wer ich bin. Ich bin en Parre. Du sottat net du zu mir sage." Dem buh sei antwort war: "Es macht mit nix aus ob du en Parre oder der deiwel bist; wann du noch Manheim witt, musst du an's Schwenke Muhl vorbei geh." Der Parre is seller weg gange.

Es happent oft, dass wann epper gestorwe is, die leut wunnere wel reich er war. En gewisser Mann, der net extra geschickt war, is zum Parre esgeschickt worre for ihn zu bestelle for die leicht zu halte for en gewisser mann. Der Parre is ah en mensch, un er war en wenig wunderitzig zu wisse wel reich der gestorwene mann war. Do hot folgendes Gesprach stattgefunde:

Parre—"Der Mister—war gut ab."
John—"Er war net arm un net reich."

Parre—"Er hot awer doch viel hinnerlosse, hot er net?"
John—"O, ja, er hot alles hinnerlosse was er katt hot."

Allewell werre die junge studente for doktor scharf examinirt. Wann sie aus der doktor college kumme, werre sie vun der Stat Board examinirt un dott geht es scharf her. Dehl falle dorch un musse noch mehner lerne oder konne net doktor werre. Es war net alsfort so. En alter Doktor gebt mer die Geschichte: In seiner studentzeit sin die junge kerls gar net hart examinirt worre. An ehn student is die frogt gestellt worre: "Wann en Pulvermuhl uflosse daht un en Mann daht in die lutt geblose werre, was dahtst du duh?" Dem student sei antwort war: "Ich daht warte bis der Mann wieder runner kumme daht." Der Professor hot gesacht: "Sell passt. Du kannst geh."
Es gebt dehl leut, die sin arg engherzig. Sie hen en noschen, niemand war recht, wann er net glaabt un denkt wie sie. Es gebt dehl sekte wu mehne es konnt niemand selig werre exept die leut wu zu ihre sekt gehore. En gewisser mann vun so ere sekt hot emol en Gesprach katt mit eme reformirte Parre. Der Parre hot endlich gesacht: "Mei Ereund, denkst du net Gott hot en grosser mistak gemacht?" "El for was donn, frogt der sekte mann. Die antwort war: "Well er so en grosser Himmel gemacht hot for euer klehne sekt."

Viel leut glawe net, dass es in dehl sekte viel Parre gebt, die en schwache Lerning hen un ihr gepredigt is ah dernoch. So en Parre hot en preddigt gehalte un am end hot er noch eppas sage wolle, awer er hot es vergesse katt, do hot er gesacht: "Ich hab noch eppas sage wolle, awer es is mir weg gertscht."

Dehl leut behaapte die Erd war rund un daht sich alle 24 stund ganz rum drehe. Ich wees net wie sell is, awer so sage die leut wu

grosse buchlerning hen. Die mammy glaabt sell awer net. Sie sagt, wann sell so war un die erd daht sich rum drehe, dann dahte doch unser milchhaffe umfalle. Ich muss gesteh, der mammy ihr argument is ziemlich stark.
Hess emol gepredigt, Ehns vun de In Bucks county hot der Parre zuhorer war halwer egeschlafte. Wie der Parre en gewisse bemerkung gemacht hot, sagt der schlafte laut: "Sell is so!" Die leut hen all gelacht.

Kerzlich hot en Parre arg scharf losgedunnert uwer en gegestand. Ehns vun de glieder hot sich hart getroffe gefuhrt. Er steht uf in der gemee un rutt laut: "Parre, mehnt du mich?"

Farmers Column

Seeding Helps Make the Crops Secure

After the seed bed is in a condition satisfactory for the proper development of the seed, the next important step is to be sure that the seed is sown just right. It is only within recent years that definite, decisive tests have been made between sowing with a drill and sowing broadcast, but so one-sided have been the various tests in regard to these two methods that broadcasting is fast being numbered among the many old methods which farmers are now discarding. Broad-casting requires more seed and yet it produces a smaller crop of lower grade grain. The reason for this is that the seed thus sown is not distributed evenly over the ground. It does not all start from an even depth, nor does it germinate uniformly. By the use of an ordinary drill even without the more modern attachments, the seed is deposited in fine, slightly compact, moist soil, all of it at a uniform depth. It is thus carefully covered by the cover chains or press wheels, it all has an even chance of germinating, and all the grain will tend to ripen at the same time. It requires, furthermore, much less seed to get a good stand with a drill than by broadcasting.

Proper disk and proper rowing are the best ways to help nature give a good crop. There is very little more expense in doing it right than in doing it wrong, and the returns are much greater.

The handwriting on the wall is plainly visible and we should prepare ourselves to meet the crisis before the crisis meets us. It means much, and yet, all that we can do is to do all that we can with the exercise of care and thrift. Our work begins this Fall in our plowing and seeding, and our opportunity to help will come next year at our harvesting and selling. We have more at stake than our profits, although our profits will be a goodly stake. We have at stake our commercial supremacy, our agricultural leadership and above this, towering over everything and stifling our selling, is of gain, or our commercial instincts, is our ability and our willingness to fill the pitiful hands which we know will be stretched out to us from the devastated, wasted fields across the seas.

First Dose Ends Indigestion Heart-

burn, or Gas on Stomach
The question as to how long you are going to continue a sufferer from indigestion, dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking Tonline Tablets.

People with weak stomachs should take Tonline Tablets occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, sour risings, gas on stomach, or belching of undigested food, headaches, dizziness or sick stomach; and besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved five minutes after taking Tonline Tablets.

Go to your druggist and get a \$1. box of Tonline Tablets and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh and you will know there are not going to be any more bad nights and miserable days for you. Tonline tabs freshen you and make you feel like life is worth living.
Tonline Tablets cost \$1.00 for a 50 days' treatment. At druggists or mailed by American Proprietary Co., Boston, Mass.

Do You Know This?

There is an erroneous impression that water bubbling violently is hotter than water at the boiling point. As a matter of fact, the ebullition is caused by the escaping steam, which means lost heat. All water (except in a high elevation) reaches the boiling point at 212 degrees, and however fast or slow the water may be boiling it remains at that temperature. To increase the heat, add sugar or salt or confine the steam by covering the pot.

Shamrock IV has won the first leg in crossing the Atlantic. There is no interest now over when its next race will be satisfied than there is in the result.

Some actors get divorces for the advertising and others just because grape juice diplomacy continues to look as good as ever.

RESULTS

1 1/2 oz + 40 LB GROWING FEED = 10 LB SIX MONTHS

YOUR CHICKENS DON'T GET HALF ENOUGH TO EAT if you do not feed

The PARK & POLLARD GROWING FEED

No Magician in the Arabian Nights could produce results any faster than this feed.

From 1 1/2 oz. when hatched to 10 lb. weight at six months is nothing unusual on this ration.

TRY IT at our expense;
Your money back if it does not do better than they claim.

RAISE CALVES WITHOUT MILK

BOOKLET FREE

Every Farmer, Dairyman, Cattleman, in fact everyone who owns cows will profit greatly by reading it.

"Milkless Calves" in title—tells how anyone can raise or rear three or four healthy calves at the cost of one brought up on cow's milk. It shows how you can raise your own best milk and increase the milk production of your herd. It tells how to raise calves to wean calves quickly and economically.

Ryde's Cream Calf Meal

—the most successful milk substitute on the market—the standard of perfection. Thousands of farmers have used it and nothing else for years. It is not a stock food—it is a complete food that has been definitely proved the best for rearing calves. Guaranteed to give results. A trial is convincing.

WHY MOUNT JOY MERCHANTS SHOULD ADVERTISE IN THE BULLETIN

A Guarantee in Every Ad. There is a guarantee in every advertisement. The man who advertises any article unworthy of the public is but hastening his own success by a very powerful method known. In this respect, advertising is a merciful doom. The man who advertises an article worthy of confidence is hastening to magnifying glass. If your business possesses the essential without which there can be no success, why not magnify it. When you advertise, make up your mind to magnify your business—make up your mind at the same time to use the best magnifying instrument obtainable—the Bulletin. Are you getting your share?
