## Phthous Fever

### Number of Cases of Foot and Mouth Disease Around Here

Local and State authorities, members of the Lancaster Stock Exchange, are in a struggle to prevent the spread of phthous fever, a mouth disease, many of which exist in a number of our county. Just as animals are affected, or the animals belong, the fighting the disease refuse to be a few of the owners of the animals could be named, but they take the ground that it is not wise to publish a list of the names of the owners of the infected premises. Their shoes would be disinfected and the spreading of the disease. To prevent the disease from spreading the shoes would be disinfected. A considerable force of men is required to do this work. As far as can be learned the number of cases of foot and mouth disease in this vicinity of this place, Millersville, Gap, Oregon, East Petersburg, Landis Valley and Denver. While the owner of infected cattle will be paid for the animals destroyed, many will not be fully reimbursed, for the State will not pay more than \$40 for an unregistered animal nor over \$70 for any registered. At noon today we were informed that the following herds were also condemned: D. M. Eyer and one herd of S. G. Engle, west of Marietta, and nearly fifty head on the E. L. ### Was a Hoax

They say when a rabbit runs across the road ahead of you, it usually means good luck. This is usually right but it wasn't for Mt. Joy on Saturday. Just before the football game a big rabbit ran the entire length of the field and it was a Jonah. Mt. Joy lost and had several men crippled. Some one should shoot that cotton tail.

### A Good Idea

An effort is now being made to form a guitar and mandolin club by the Richland Club. There is ample material as many of its members are musically inclined and a "string band" would furnish lots of amusement during the coming winter evenings.

### Take the Knife, Please

The barlow knife and an Annans Club diploma belongs to the person who wrote our contemporary's ad in the Farm Journal's directory. It says it is the largest paper in the town. Its size is the stereotyped form of six columns, eight pages, half of which is printed at Baltimore. The Bulletin is a 7 column paper of from 8 to 14 pages, all home print. Our barlow, decorated with a yellow ribbon, awaits that scribe.

### Little Miss Moyer Entertains

### IT WAS SOME FIZZLE

Our Contemporary Is the Goat for Three Sharps

That much touted and largely advertised automobile contest is over and many people proved a mark (foremost among which was the editor of the paper) for two pretty slick gentlemen and a smooth-tongued feminine solicitor.

From the manner in which the contest was conducted and the brevity of the allotted time, should have been warning enough that the contest wasn't on the level and last but not least, after a few local people worked hard to help the "old man" to a little extra business, all were fleeced by having an unheard of bob up and win with about eight million votes and depart with the automobile and the balance of the contest promoters, leaving the newspaper man behind to settle the bills and hear the aftermath.

The writup of the winners in this "wonderful" contest was given in a two-inch news item and the only consolation left is the fact that the Federal or Postal authorities are now supposed to try and catch the crooks.

Too bad, Jackie, you've been rode and that's all there is to it.

Every Night This Week  
The King & Sylvester company is holding the boards in Mt. Joy Hall nightly this week. Monday and Tuesday evening the company gave two very creditable shows and they deserve your patronage. Last week they played to crowded houses at Middletown, which is further evidence that the productions are O. K. Popular prices prevail.
