

One Price to All BUICK

Sold Strictly On It's Merits

Never mind what any dealer promises you, you owe it to yourself to find out what the Factory Guarantee is on the automobile you propose buying, and you should insist on this guarantee being made a part of the contract you sign when purchasing an automobile.

Some automobile manufacturers give no guarantee at all. That is one of the reasons why some dealers must offer you special inducements and discounts to sell their cars.

Authenticity of Paintings Now Can Be Fixed by New Methods of Photography.

Important indeed is the news that one Dr. Laurie, a London professor of chemistry, has discovered a method of photographing pictures that will enable him—and other people—to decide with the certainty hitherto lacking whether they are or are not the works of the men to whom they have been ascribed, the New York Times states.

Every true art lover knows the grinding apprehension he is constantly in lest by some sad chance he imagine merit in a picture that only pretends to have been painted by a great artist. Hardly one critic of any eminence or authority has failed to make this cruelly humiliating mistake at least once, and one of them is quite enough to smother a lifetime. Given a single unquestionable authentic masterpiece, Dr. Laurie declares that he can decide infallibly that another is or is not by the same hand.

This will raise an criticism to a new and high level—that of the receiving teller in a bank in judging money—and enable us all to know, not guess, what pictures to admire and what to scorn.

WOULD BOYCOTT ALL EGGS

New York Housewives Are Indignant Over the Way Prices Have Been Advanced.

New York grocers expect to be getting \$1 a dozen for selected white eggs before the end of the month. The ordinary "fresh" variety again defied Mrs. Julian Heath and the Housewives' league recently by going up another cent a dozen in the wholesale market. Storage eggs advanced half a cent. Retailers in the "best residential neighborhoods" are charging 80 cents for "fresh" eggs.

There is no indication of cheaper fresh eggs at present, but holders of refrigerated eggs in Chicago have been pressing sales.

Washington market has felt the pressure. Eggs labeled "fresh" advanced from 45 to 48 cents a dozen. They really are about a week old. A Washington market dealer said he didn't believe any 24-hour eggs were being received.

The Housewives' league has been asked to advise all its members to stop buying eggs until prices tumble. A special committee recommended such a boycott.—New York Sun.

Largest Ice Cave.

The largest ice cave in the world is in the Dachstein mountains of Austria. It is one of a group of grottoes discovered not very long ago and not yet thoroughly explored. The ice cave, because of its unique character, has, however, been given more attention than the others. This letter is 6,500 feet long and there are some enormous and otherwise remarkable ice formations. It is a rare occasion, indeed, when ice is not making in this cave and a cessation takes place only when a prolonged spell of warm rain penetrates into these depths, when the ice shows a slight tendency to melt. The cave consists of one great hall with icy walls and ice dome covered with grotesque forms. One of these halls, for instance, known as Parsival Dome, is 386 feet in length, 231 feet in width and 116 feet in height, which is notable for the remarkable formations, but the largest hall is known as King Arthur's Den, which is 650 feet long, 330 feet wide and 100 feet high. There is an underground river of ice passing through the cave and at its foot is a lake. Some rocks found in the river bear indications of having been brought down to these depths from the Central Alps.

Raising Sheep Without Water.
Grazing sheep on a range entirely destitute of water is a recent innovation, due to the increasing demand for forage and the efforts of the forest officers to find a place on the forest ranges for all the stock that can safely be admitted. The area on the Nebo national forest, in Utah, which has now proved usable by sheep is high and rocky, a portion of it being above timber line, and it has neither springs nor streams of sufficient size or accessibility to be used for stock watering purposes. The grazing season lasts from June 15 to October 31, and during this period of four and a half months the animals do not get a drink.—The Argonaut.

Home-Made Silver Polish.
Some of the bought silver polishes are very destructive. A harmless and effective home-made preparation consists of half a pound of whitening sifted into a bowl, to which are added two ounces of spirits of turpentine, one ounce of spirits of wine, half an ounce of spirits of camphor, with one tablespoonful of household ammonia. Mix the ingredients thoroughly and bottle. In polishing apply liberally to the silver with a soft cloth or brush and then allow it to dry, after which rub off with a soft cloth and polish with chamolis.

Coals to Newcastle.
Even though crude oil and gasoline are being largely substituted for coal as a source of power in Seward Peninsula, Alaska, 14,405 tons of coal were imported in 1912. In spite of Alaska's great coal resources, not over 200 tons were mined in the entire territory in 1912. Alaska is sadly in need of a statute allowing her to mine her own coal, under adequate terms.—From the United States Geological Bulletin.

A New Cattle Remedy
Nearly every one who is directly or indirectly interested in cattle is discussing the mouth and foot disease and how to fight it. Attention is called to a new infectant "You shouldn't let such little things that lay just on the surface. It is you should trust in the Lord." "I bid you to trust in the Lord."

She Trusted Until—
A good sister who was somewhat tardy in her attendance at church on Sunday morning explained it by saying that her horse had run away. "You shouldn't let such little things that lay just on the surface. It is you should trust in the Lord." "I bid you to trust in the Lord."

Then and Now
The old fashioned girl who used to be afraid that she would show through, now has a daughter who wouldn't think of going out until she is certain that you can read a newspaper through her skirt.

DON'T BE MISLED
Mount Joy...
Kidney trouble is dangerous...
Don't experiment with something new and untried.
Use a tested kidney remedy.
Begin with Doan's Kidney Pills.
Used in kidney troubles 50 years.
Recommended here and everywhere.

The following statement forms convincing proof.
Mrs. William Morning, E. High St., Elizabethtown, Pa., says: "For several years I was troubled by weak kidneys. The kidney secretions were very annoying and I had a severe pain across my back that kept me in misery. I learned of Doan's Kidney Pills and got a supply. They gave me positive relief. I use them now occasionally, when my back gets tired and my kidneys aren't acting as they should and they never failed to relieve me."
Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Morning had. Foster-Milburn Co., Prop., Buffalo, N. Y.

WHY MOUNT JOY MERCHANTS SHOULD ADVERTISE IN THE BULLETIN

The amount you pay the publisher for advertising includes a great deal more than space.

It covers careful composition, good printing, free delivery and reaches the reader in a form which assures attention.
It reaches these people at the most opportune moment—when the cares of the day have been laid aside, when the reader sits down, leans comfortably back and spreads out the paper to learn what is going on.
Reading of what is going on is done with the mind in a receptive state—the ideal time and the ideal condition in which to create desire.
The Bulletin is the ideal medium to use in effecting that result.

NOT RAISED TO EAT

Chickens That Cost \$2.73 Per Pound

Mr. Jos. D. Hollinger of Elizabethtown, recently sold a Light Brahma cock bird, that reckoned by weight, cost \$2.73 per pound. He states, also, that he sold three birds since the Lancaster Fair for \$63.00, and that he has in his yards some six months' old chicks of the same breed that weigh the cockerels 10 pounds, the pullets 7 3-4 pounds. If results are taken into account, Mr. Hollinger must be using a superior feed.

Maritlan Arrested in York
Edward M. Jones, of Marietta, has been committed to the York county jail for a hearing in that city on a charge of surety of the peace, which was preferred by his wife, who lives with a daughter in York.

Then and Now
The old fashioned girl who used to be afraid that she would show through, now has a daughter who wouldn't think of going out until she is certain that you can read a newspaper through her skirt.

RESULTS

SAVE YOUR CALVES
Raise Them Without Milk
Why throw away money by knocking them in the head or selling them for a dollar or two at birth when they can be raised or vealed WITHOUT MILK at a fraction of the cost of feeding milk. You profit both ways selling the milk and still have the calves.
The Best Milk Substitute to Use is
Ryde's Cream Calf Meal
the most successful milk substitute on the market—the standard of perfection. Thousands of farmers are using it and cannot say enough for it. It is NOT a stock food—it is a complete food that long experience has proved to be right for rearing calves. It contains all the nutrition of milk prepared in the most digestible form and is sold on a money back guarantee to give results.
100 lbs. equal to 100 gallons milk—Try it on your calves.

SAVE YOUR CALVES
