because they stand for the popular requirements of the American public. They are the great national clothes you read about.

We are proud to sell them, and it is fitting that we give them big display in advance of this great American festival.

Our windows easily prove the fine appearance of the clothes —the STYLEPLUS impression.

The makers had 64 years of experience in making medium priced clothes when they introduced the new plan of massing every force on one suit at the price the great majority like to pay.

That price is \$17, and values peculiar to STYLEPLUS go with it—all-wool fabrics styled by real fashion artists, hand tailoring in the vital parts, good linings and an inner foundation that make a suit stand up and wear. These are high-grade features at the modest price, due to scientific economy in the making.
