Fools rush in and while wise men investigate.

Prof. Taft is next to the most interesting ex-president we have.

This is fine weather for doing one's Christmas shopping early.

There's no such word as failure in connection with the forbidden fruit crop.

Business seems to be getting tired of doing the hesitation and is beginning to trot.

There is always an overproduction of things until the consumer goes to buy them.

This indeed is a touch of cold winter, but wait until the 42 centimeter blizzards arrive.

Imagination is responsible for half of our troubles—and our fool actions for the other half.

It's all up with the career of Bernard Shaw. The English are beginning to take him seriously.

Our ancestors got along without steam heat, of course, but just look at them. They are mostly dead.

Dixmude seems to be a sort of prescription which the opposing armies take three times a day, after meals.

War is an outward expression of hate, which is an emotion that Europe has been cultivating for some time.

The old-fashioned man who used to saddle his own canoe now has a son who owns a motor boat named "Iskhabibble."

As for ostrich as the piece de resistance of the Thanksgiving dinner, it is our opinion that piece de resistance is right.

X-raying an elephant in search of a diamond ring isn't far removed from the task of looking for a needle in a haystack.

When business prosperity begins to shoot the 42 centimeter guns we shall all get within range and show a willingness to get hit.

Like mercy, early Christmas shopping is twice blessed, blessing the shopper and the salesperson, to say nothing of society in general.

Securing peace in Mexico among the warring elements is like driving pigs to market. The feat may be accomplished but it is difficult.

What has become of the old fashioned reactionary who declared that the Parcel Post and the Postal Banks were going to ruin business?

Charles C. Dawes says that unexampled prosperity is on its way father. Why not send out a reception committee to hurry it along?

Illustrating the shortsightedness of the human race is the fact that many of us neglected to be motor truck manufacturers before the war began.

Some men can tell a lie and look as if they were telling the truth. And other men always look as if they are lying when they tell the truth.

That once popular movement in Germany to substitute Roman for German type in many publications may now have received a serious setback.

Roger Sullivan seems bent on proving that he belongs to the Democratic party of Illinois, or else that the Democratic party of Illinois belongs to him.

Russia's war time ban on Vodka has increased happiness and bank deposits. But otherwise the present war is much like its predecessors in its general undesirability.

It's funny what a difference a year makes. The girl used to chew her "wax" in school on took a whirl at her all over the world now has a daughter who her individual drinking she won't get any germs in

HELP THE KIDNEYS

Mt. Joy Readers Are Learning The Way

It's the little kidney pills—The lame, weak or aching back—The unnoticed urinary disorders—That may lead to dropsy and Bright's disease.

Doan's have been used in kidney troubles for 50 years. Endorsed by 30,000 people—endorsed by citizens of this locality. Mrs. J. Frye, E. High St., Elizabethtown, Pa., says: "I suffered from kidney trouble and had severe backaches, with pains across my loins. I couldn't rest well at night and in the morning, was stiff and lame. I had doctored and tried several remedies, but had got no relief. Finally, I read of Doan's Kidney Pills and got a supply. Four boxes relieved me. I consider Doan's Kidney Pills a remedy of merit."

LANCASTER DEALERS IN WRONG

Held a Public Cattle Sale Against the State's Orders

An arrest warrant was issued for William Hallman and David Fulmer of Lancaster, on complaint of an Agent of the State Livestock Sanitary Board. They are charged with violating the State quarantine regulations against foot and mouth disease by driving cattle over the roads without a permit. Hallman and Fulmer held a public sale at the Conestoga Inn on Nov. 6th; they were warned against moving the cattle, but disregarded the warning and delivered some of the cattle during the night. Foot and mouth disease subsequently developed in several herds to which the cattle are suspected of conveying the contagion. The herd owners are indignant because of the disregard of the quarantine precautions and threaten civil action against Hallman and Fulmer to recover their losses.

Don't Buy Maine Potatoes

The department of Agriculture on Saturday issued a warning to the farmers of New Jersey, the Middle Atlantic and Southern States against buying seed potatoes from Maine, unless they bear the department's certificate showing the potatoes to be free from powdery scab.
