Editorial
Well, if there's anything in that Ground Hog theory one had better look up her muslin gown and her old straw hat. One thing is certain, he didn't see his shadow yesterday.

Our readers are promised some interesting reading along the religious line. One of our correspondents and a local pastor are now engaged in a battle of words, all on account of Billy Sunday.

"It is a shame that so many of the rich fields of Lancaster county are given over to tobacco, when they should be growing foodstuffs for the starving multitude." was one of the verbal shafts at Dr. Harvey W. Wiley the noted pure food exponent hurled Monday evening at the banquet of the Pure Food Show at the Stevens House. Wonder whether Dr. Wiley would talk that way if he was a farmer and out for the money? One thing is certain, i. e. as long as there is a demand, surely our farmers will raise it.

Mrs. I. Lizzie Miller of town has a limited stock of home-grown, genuine self-dryer beans, very carefully hand-graded, for seed purposes, for sale. This is a highly prized bean and good seed is hard to get, some seasons. It is undoubtedly an excellent sort and she makes this announcement for the benefit of those who know its worth, who may wish to grow them the coming season.

Several of our folks were at Rheems on Sunday to hear a discourse by Albert Guyer of York. Mr. Guyer is a clear, logical speaker, and convinced his hearers that he knows what he believes and is abundantly able to give a biblical reason for the faith that is in him.

On the whole, January has been a mild month, but not more so than others we recall. One year we dug a garden bed in January and found the ground exceedingly mellow. The spring following we dug it again and the ground was so hard one could scarcely use a digging fork to do the work. We are expecting some decidedly rough weather during February, to "make up."

a second term all the same.

dates for Real Estate Assessor in

Keener of the Upper district.

There is probably no subject in which
the progressive farmer is more deep-
ly interested than that of having
roads connecting him with his mar-
kets over which he may be able to
convey the greatest possible load.

Good roads, like all other good things
are too expensive to build and of
too much value to be neglected.

Like the Indian and the bison, the
Bull Moose are vanishing before the
advance of civilization. Soon only a
few specimens will survive, protract-
ed in political zoological gardens.

There will be societies for their pre-
servation, appeals to a generous
public to contribute funds for their
conservation, heavy penalties for
heartless men who pursue them in a
spirit of false sport. There are
optimists who still indulge in vain
speculation as to whether the Bull
Moose will survive. The answer to
this question has been recently re-
futed by four of the latter strongest
adherents is, that it does not. In a
year hence Bill Filin will desert the
standard of Armageddon and return
to "the party of his fathers."

The past week the remorseless
reaper—death—inaded this region
and gathered to the home of the
Eternal Father some of the most
prominent and highly esteemed
citizens. Amongst them are Dr. A.
M. Kalbach of Lancaster, who was

man of congenial nature and charit-
able disposition. J. Harvey Raymond,
of Florin, was a widely known citizen
and perhaps one of the most familiar
figures in political circles in the
county. Mrs. E. E. Shaffner of Mid-
dletown, was an estimable lady and
acquired popularity and respect while
she was a resident in this place. The
venerable Samuel McLanahan,
of Elizabethtown was highly esteem-
ed in this locality, having in previous
years commanded a lucrative patron-
age in the community. He died full
of years and good fruit. Supervisor,
John Hostetter, of Mastersoville,
whose funeral took place on Sunday
and legions of friends mourn his
sudden demise. Mrs. David Forney,
of Mastersoville, who was buried at
Green Tree, Saturday was an amiable
and greatly esteemed young Christian
woman and her death caused a heavy
gloom in the community in which
she lived.

Harvey K. Snyder and wife of
Mount Pleasant, are the recipients of
many congratulations on the birth of
a male heir. Fortunately the little
baby has paternal and maternal
grandparents, and they are so elated
over the arrival of a grand child that
they all are enjoying a season of un-
restrained enthusiasm.

The making of good roads is one
of the most important duties of the
people and their prompt repair and
careful maintenance is essential.

A bad tangle of mules was what
started us last Thursday when in
answer to loud calls, we rushed to
the door. Mr. Samuel Greider was
passing thru Salunga with his six-
mule team when the animals be-
came frightened and turned sudden-
ly round, breaking the pole of the
wagon and dragging the mules a
distance. The minor injuries to the
mules and wagon summed up the
damages.
