FURNITURE DON'T'S

DON'T Go outside your own home county to buy furniture. You can buy the same goods for the same money, and probably for less money, and get better attention, right here in Lancaster.

DON'T Patronize mail order houses. If anything goes wrong, it is easier to get it rectified in Lancaster than it would be if it came from Chicago besides, when you spend your money in Lancaster you are helping to make Lancaster grow.

DON'T Buy from installment houses, if you intend to pay cash. You know that every installment house has many bad debts that have to be made good somehow—and you are the "somehow", when you pay cash in an installment house.

DON'T Be misled by imagining you are a favored customer at some certain installment house. Don't get the idea that because you get so much per cent off, you are getting an inside price. Probably your neighbor gets a greater discount than you do. These reductions were all provided for when the original price was fixed. You are safe only when you buy from the store that has one price for everybody, and that the **LOWEST POSSIBLE PRICE** for furniture of the **RELIABLE KIND**.

DON'T Imagine the big stores in the big cities can sell cheaper than we do. We buy from the same manufacturers, at exactly the same prices as the biggest retailers in America, and our expenses in proportion are a whole lot less than those big metropolitan stores with the high sounding names.

The February Sale of FURNITURE

OFFERS you the advantages of selecting from the largest and most complete stock of Furniture between Philadelphia and Pittsburg. This stock has been carefully selected from the "Cream" of the Furniture industry in America. It was purchased under favorable buying conditions not likely to occur again in this century.

Therefore This Is The Opportune Time To Make Your Selection
