Thousands of Dollars Wasted
In Lancaster County
During The Year of 1915

We have been fortunate to secure the services of B. F. Metzler of Lancaster, Pa., the experienced stove man who makes the above statement in discussing the wasteful consumption of coal.

The average housewife strives hard to save fuel without knowing how fuel is wasted by poor installation.

Mr. Metzler will give talks at our store on

Friday & Saturday
March 3rd and 4th

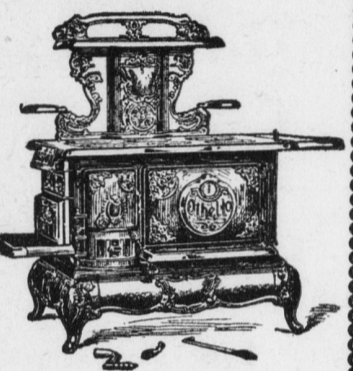

on the following and kindred subjects:
How to obtain the greatest amount of heat with the least possible consumption of fuel.
How to heat your oven so that it will bake properly.
The necessity of obtaining perfect combustion.

How to save money by buying a durable as well as a high priced range rather than a cheap one which is the most expensive at the end.

We invite every housekeeper of Mount Joy and vicinity to call at our store and receive the benefit of these free talks.

You will incur no obligations and you will be as welcome as though you were a regular customer of ours, besides taking home a useful souvenir.

We sell the famous OTHELLO and SUNSHINE RANGES. We will give a practical demonstration of its baking qualities on the above dates. Call and examine for yourself by tasting its products.

Does Reading send you to sleep?

If it does, don't blame the story, don't condemn the type or the printing, don't imagine you've weak eyes, for the fault is probably with your lamp.

And it's a fault that is easily remedied—all that's needed is a Rayo Lamp. By its clear, steady, white light you can read on and on, get the full pleasure out of reading and without a trace of eye strain. But to get the most and best light from a Rayo Lamp, use

ATLANTIC Rayolight OIL

Combined they give the finest light money can buy, an economical light, too, ideal for reading, sewing or playing. Your dealer can show you a Rayo Lamp specially designed for parlor, sitting room or kitchen, from \$1.50 up. And each of these rooms needs one—Rayo Lamps are easily cleaned and last a lifetime.

As for Atlantic Rayolight Oil, it is the one kerosene that burns in lamp, stove or heater without smoke or smell—gives a great volume of clear, white light, and an intense yet cheap heat.

And, do you know, thousands of clever housewives have told us they just can't get along without Atlantic Rayolight Oil for polishing furniture, washing windows, keeping lice off chickens, cleaning painted woodwork, etc., but mind you, for these purposes ordinary kerosene won't do them—they must have Atlantic Rayolight Oil. Ask for it by name—costs no more than the unknown kind. The dealer who displays this sign

can always supply you. It's wise to get it by the barrel.
