BASKET BALL

Mount Joy Defeated the Corinthians of Lancaster on Saturday

Saturday night's crowd was rather slim on account of the many other attractions around town.

Littitz, always old rivals of this town, will play manager Ben Groff's strong quintette here on Saturday evening. Seats will be reserved for ladies.

Coach O'Neil and his High School aggregation will invade the former haunts of the Getz Brothers—Ephrata on Friday evening. If they "cop" that game they will sure have to travel some.

Manager Groff has considerably strengthened his team by the addition of "Rube" Bennett of Harrisburg. He played his first game Saturday evening and had nine two pointers to his credit.

That High School—Quarryville game on Friday evening was a dandy. The teams were very evenly matched and the game was lacking of the "rough stuff," to the great delight of the audience.

In one of the best games of the season the High school basket ball team defeated the Quarryville High team here last Friday evening before a good crowd. The score was 27 to 18. When the locals were down to Quarryville, several weeks ago they were defeated, but this makes the series a tie. A third game should be arranged between these two fives.

The strong Mount Joy team added another win to their credit on Saturday night when they defeated the Corinthians, of Lancaster, by a score of 36 to 27. A feature of the game was the goal shooting of Rube Bennett. The lineup:

Corinthians Position Mt. Joy
Shilow.....forward.....C. Bennett
McElligott.....forward.....Sload
Houck.....center.....R. Bennett
Costello.....guard.....Brown
Kress.....guard.....Sturgis
Substitutes for Mount Joy, Lutz and L. Ellis; Goals—Shilow 2, McElligott 4, Houck 2, C. Bennett 2, R. Bennett 9, Sturgis 3, Lutz 1. Fouls—11 out of 15. Brown, 6 out of 16. Referee, W. Ellis. Score, 36 to 27.

HOME HEALTH CLUB

By Dr. David H. Reeder, Chicago, Ill.

Types:—There are extremes in the types of visitors to the doctor's office and one of these types is a veritable pest. Not a doctor lives and has been in practice a few years that has not had sad experience with both kinds. One of these extremes suffers in silence, will not go to the doctor until, in some cases, it is too late. The other is the pest.

In the latter case there may be, to start with some real ailment that requires a careful course of treatment and it is given in a thorough and careful manner that results satisfactorily, but in the meantime the pest thinks that as long as the doctor must be paid, why not make him earn his money and a pain is found here and there. No sooner is one trouble disposed of than two more appear, until finally after the first and real trouble has entirely disappeared, there are so many of the manufactured ailments that the condition is sometimes worse than it was at the start.

If the doctor is frank and honestly tells the patron there is nothing really the matter, he is looked upon as an ignoramus. Another doctor is visited, a trip to a sanitarium or as frequently happens, Christian Science is adopted and another stupendous triumph over the medical fraternity is recorded. I applaud vigorously and so does every man that has had to deal with such cases. In fact I deliberately recommend and use suggestion, mental science, new thought or Christian Science in a vast number of such cases. When the real sufferer comes, the one that puts off the visit to the doctor, fearing to know the truth, another and more difficult problem is presented.

Knowledge of the true condition is not going to change it or kill you and even if the doctor does mention surgery, you do not have to undergo an operation unless you are willing.

Give the doctor half a chance and the cure may be an easy matter, but if you conceal part of the facts and many of the symptoms you only hinder his work. Some trifling symptom that to you may be unimportant, might mean much to him. After you have once told him all about your case, let him do the rest, don't watch for symptoms and pains, watch for and confidently expect a complete recovery.

It's not necessary to run to the doctor every time you sneeze or have a pain in your "left hind" foot, but if the sneezing persists and you chill or perspire freely without apparent cause or some of your joints persistently refuse to work properly and severe pain is felt frequently in a certain place, then by all means ask the doctor, he knows and he may save you much suffering and expense.

Should Mr. Wilson speak in Nebraska, Mr. Bryan might retaliate by a brief summer lecture tour in New Jersey.

Sewing can be either — Work or Play

It all depends on the light. Sewing by the glimmer of the ordinary flickering, smoking, smelly lamp is work, difficult work. Hard on the eyes, oftentimes the real cause of throbbing, nervous headaches.

But it's a real pleasure to pick out the finest stitches by the radiant, soft, white light of a Rayo Lamp burning

ATLANTIC Rayolight OIL

A Rayo Lamp makes a heap of difference—the difference between work and play. And it's beautiful—actually improves the appearance of a room. Your dealer can show you special designs, specially made for your very parlor, sitting room or kitchen, and inexpensive, too—from \$1.50 up. Cleans easily and lasts for all time.

Gives the best light when filled with Atlantic Rayolight Oil—the kerosene that burns without smoke or smell, that does not char wicks, but that does yield a marvelous white, soft light and unusually intense and economical heat.

And thousands and thousands of knowing housewives say money can't buy anything as good as Atlantic Rayolight Oil for whitening clothes (one-half cup to the boiler), and for cleaning stoves, hair brushes and combs, for dusting, brightening faded carpets, polishing furniture, etc.

Buy it by name—Atlantic Rayolight Oil—from any dealer who displays this sign:

Costs no more than the unknown, unreliable kind.
