Agricultural colleges experiment to ascertain the best feeding methods for pigs. By scientific study they determine what will practically assure success and profits.

What has this to do with kerosene? Just this: scientific research by experts has produced a kerosene for you to feed your lamps and oil stoves—a kerosene so highly refined, so pure in form, that it is called

to distinguish it from ordinary kinds. It will not smell, smoke or char the wicks. You can have a brilliant yet soothing light and a steady, room-filling heat without fussing with burners, trimming wicks and turning the flame up and down. When used in lanterns it gives a clear, far-reaching light. And it costs not a penny more than ordinary kinds. Always ask for it by name.

Watch for the sign—Atlantic Rayolight Oil For Sale Here. You're likely to find it a reliable place to do most of your buying. When the wind howls, and the snow packs along the windows, it's a heap 'o' comfort to have a barrel of Atlantic Rayolight Oil on hand. Don't take it home unless the brand name is on the barrel.

### Perfection Smokeless Oil Heater

No chopping kindling, no shoveling coal, no tinkering with draughts. Just strike a match and your Perfection Oil Heater will keep you warm and comfortable, no matter how hard the wind blows. menation of human energy than do blue or the colors of shorter wave lengths.

We mentioned above that the right hand of a normal female and the left hand of a normal male would produce the visceral reflex under certain conditions. Now we find that the polarity of the male and the female is reversed for an hour or more if either drink a yellow liquid such as tea, saffron water, orange juice and the like. If one ingest a red or blue substance, such as red beets or a blue coloring matter, immediately after ingesting the yellow substance, no change in polarity is observed.

Since having discovered the effects of the magnetic meridian upon the reflexes, we have tested a limited number of persons suffering from tuberculosis and syphilis, and find that if they stand facing due north or south no visceral reflex is obtained. In these cases we find that, if the disease be tuberculosis, a yellow or a 'safety' colored light shed on the bare abdomen will produce the reflex and a blue light will not. If the case be one of syphilis a blue light shed in the same way produces the reflex, while the yellow light will not. This discovery is too recent to be made the subject of a complete report now, but we mention it in order to aid others in working out diagnostic data.

In his book, 'Spondylotherapy,' fifth edition, Dr. Albert Abrams mentions that the sex of an unborn child can be determined by the polarity of the mother. This we have found to be true, but we have also discovered that, if the mother ingest any yellow substance, the polarity is changed for an hour or so. In testing polarity of persons, make sure that they have not eaten or drunk anything for at least five hours prior to the examination.

Reasoning from the old writings of some observers of colors, we concluded that the colored-sunlight-water should change the reflex. We put some distilled water in an amber bottle and let it stand in the sunlight for a whole day. We then let some men and women drink a little of this ambereau. Within three minutes the polarity of each person was changed, and it remained changed from one-half hour to two hours. This shows what an incalculably sensitive method we have at our command for diagnosing disease and observing changes in the human energy.

The 'visceral reflex of Abrams' is an epoch-making discovery in medicine, and we urge all those who can to perfect themselves in this work and thus simplify diagnosis. Eventually we hope to find new methods along these lines for curing diseases.

WEEKLY ARTICLES WRITTEN EXPRESSLY FOR THE MT. JOY BULLETIN BY DR. DAVID H. REEDER OF CHICAGO, ILL.

Progress in Diagnosis: It is quite probable that the greatest step forward in finding out disease conditions has been made through the careful and painstaking work of Dr. George Starr White of Los Angeles, Cal. Although Dr. White has given full credit for the first discovery of the Electronic method of Dr. Albert Abrams of San Francisco.

To be able, in the very beginning of such cases, to correctly diagnose such diseases as Tuberculosis, Cancer, Syphilis, pus formation and others of that nature without being forced to rely upon the symptoms as explained by the patient or by the observations of the physician through physical examination and laboratory tests is certainly a long step in the right direction and is almost beyond our comprehension or belief.

During the quarter of a century that I have been teaching people how to get well and how to live right I have had many letters from persons that complain of insomnia when in certain bedrooms and quiet restful sleep in others. Investigation has nearly always shown that the bed in which they could not get restful sleep was so placed that the head was toward the east while those in which they slept well was toward the north or south. The Electronic discoveries of Dr. Abrams fully explains the why and the wherefore, while Dr. White's work goes on to demonstrate why I had such great success in the treatment, many years ago, of various conditions with different colored lights. I quote the last part of an article by Dr. White published in Clinical Medicine for April.

"That colors play a very important role in the physical world, no one disputes, but it was only of late that we had a way to prove easily that colors play an important part in the human economy. We will not go into this subject of color, except so far as it pertains to our subject, Electronic Diagnosis.

We think Dr. Albert Abrams was the first one to utilize colored screens in diagnosing disease. From the impetus given by his teaching we have tried to go farther, and the following are some of our most recent observations. We hope others will go on with this great work and reveal to the profession all of the facts possible relating to diagnosis and the repetition along the lines laid down in the 'Yellow, as well as photographers' seem to be a very good A

Theodore Scott, a retired naval officer and family, of Lancaster, who has purchased the Guy M. Graybill property on South Main street, has occupied same the past week.

Walter Zerphy, I. W. Lupold, M. G. Diffenderfer, and Harry Herr spent a day gunning for rabbits in Adams county, and returned with 26 cottontails, two woodcock and one quail.

From a report taken by our special game warden up to the past Saturday, the Petersburg gunners have slaughtered 203 rabbits. The greater part of this amount were killed in Adams and York counties.

Members of our Reformed church were well represented at the cornerstone laying at Eden on Sunday afternoon. D. H. Gochnauer had his auto truck filled up to its full capacity besides a number of other family cars.

**Paid Her Fool Bet**  
Two Columbia women made a wager on the result of the Presidential election and the one that took the Hughes end fulfilled her obligation on Sunday afternoon. The loser was to wheel the winner in a wheelbarrow from Columbia to Wrightsville over the river bridge. Sunday afternoon the two women and some friends appeared at the bridge with the barrow. The winner seated herself comfortably, after which the loser wheeled her to the Wrightsville end and back. The winner weighed 158 1/2 pounds and the one who did the pushing tips the scale at 112 1/2. A large crowd witnessed the payment of the wager.

**LANDISVILLE**  
Mrs. J. M. Swarr of this place, has gone to Lake Aerial, Wayne County, to spend a week or ten days.

**"I DON'T SUFFER ANY MORE"**  
New Castle, Ind.—"From the time I was eleven years old until I was seventeen I suffered each month so I had to be in bed. I had headache, backache and such pains I would cramp double every month. I did not know what it was to be easy a minute. My health was all run down and the doctors did not do me any good. A neighbor told my mother about Lydia E. Pinkham's Vegetable Compound and I took it, and now I feel like a new person. I don't suffer any more and I am regular every month."—Mrs. HAZEL HAMILTON, 822 South 15th St.

**"Feel Like a New Person," says Mrs. Hamilton.**

When a remedy has lived for forty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their health to it, is it not reasonable to believe that it is an article of great merit?

If you want special advice write to Lydia E. Pinkham's Vegetable Compound, 250 Central Building, Lowell, Mass.

Presbyterian Supper  
The Needlework Guild of the Presbyterian church will hold a supper and bazaar in the Mount Joy Hall on Friday and Saturday evenings, November 17th and 18th. Friday evening chicken and waffles will be served and on Saturday evening oysters in every style. Oct. 24-4t.

### MARIETTA

William F. Sebastian of this place, and Susan Gocen of Washington, D. C., were granted a license to wed on Friday.

Mr. and Mrs. Henry S. Rich, of this borough, were married fourteen years Saturday and all their wedded lives have been lived in Marietta. Mr. Rich is the cashier of the First National bank of Marietta, and secretary of the Donegal and Conoy Mutual Fire Insurance Company.

A spelling bee was held in the Marietta high school room Saturday evening for the benefit of the picture fund of the sixth grade, Miss Allegra Baker, teacher. There were two classes in spelling and one in general information. Valuable prizes were awarded in the three events.

Maxwell Hipple, of this place, past seventy years of age, fell while going home on Thursday evening and was found by a number of young men in the rear of the Zion Reformed church, Marietta. He was taken to his home in an automobile and his condition is slightly improved, but it is feared he has a rib broken.

Among the aged men in this place, who voted on election day was Franklin Hipple, who is past 90 years of age. Mr. Hipple, Tuesday wore the hat which belonged to his father, and has worn it election days for years. It is of the high silk style and brown in color and in an excellent state of preservation. It is almost 100 years old.

Mrs. Adam Miller, of East Marietta, a few days ago saw what she thought was a canvasser walking into the yard and reluctantly granted him an interview. After conversing a few minutes the man informed her that he was her brother, Wilhelm Myers of Newark, New Jersey, whom she had not seen for more than twenty-one years. Both Mrs. Miller and her brother are natives of Germany.

Miriam Shaub, of this place had the misfortune to fall yesterday and break her left arm near the elbow. The little girl was playing on the steps on the Marietta Reformed Church, and in some manner fell. Her cries attracted the attention of several people who went to her assistance, and she was taken to her home. Dr. E. Y. Rich was summoned and reduced the fracture. The break is a bad one.

**COURT PROCLAMATION**  
Whereas, the Hon. Charles I. Landis, President and Hon. A. B. Hansler, Associate, Judges of the Court of Common Pleas of the County of Lancaster, and Assistant Justices of the Courts of Oyer and Terminer, and General Jail Delivery and Quarter Sessions of the Peace in and for the County of Lancaster, have issued their precept, to me directed requiring me, among other things, to make public proclamation through my bailiff, that a Court of Oyer and Terminer and a General Quarter Sessions of the Peace and Jail Delivery, will commence in the Court House in the City of Lancaster, in the Commonwealth of Pennsylvania, ON THE THIRD MONDAY IN NOVEMBER (The 20th), 1916

In pursuance of which precept Public Notice is hereby given to the Mayor and Alderman of the City of Lancaster, in the said county, and all the Justices of the Peace, the Coroner and Constables of said City and County of Lancaster, that they be then and there in their own proper persons with their rolls, records and examinations, and inquisitions, and their other remembrances, to do those things which to their offices appertain in their behalf to be done, and also those who will prosecute against the prisoners who are or then shall be, in the jail of the said county of Lancaster, are to be then and there to prosecute against them as shall be just.

Dated at Lancaster, Pa., the 20th day of October, A. D. 1916.  
C. G. GARDER, Sheriff.

Those progressives who live by the sweat of their own brow, are largely in favor of re-electing Wilson; those who live by the sweat of other peoples' brows are in favor of Hughes.
