1909 TOBACCO IS SOARING RAPIDLY

THIS YEAR'S CROP IS BRINGING TOPNOTCH PRICES AND PRICES ARE REPORTED TO BE GOING HIGHER—5 PER CENT OF CROP UNSOLD

The cased goods of the 1909 tobacco crop, which, a year ago, were selling for 6 and 8 cents a pound, are today bringing 18 and 20 cents and rumors current among the Lancaster county farmers are to the effect that they will jump to 30 cents before another crop is harvested. The buyers are eagerly picking up odd lots of 1914 and 1915 cased goods at from 18 to 25 cents a pound.

The 1916 crop is curing splendidly and resulting in a good color. While a few crops have a small amount of pole burn, where a few laths were cut off from proper ventilation, the crop as a whole is well cured.

One grower reported fifty five laths of his first cutting stripped and the weight was eighty five pounds, slightly more than one and one half pounds per lath. Stripping, however, will not become general until about the middle of December.

It is the consensus of opinion of the leading growers and handlers that it is still too early to begin stripping. At present about five per cent of the 1916 crop remains unsold. The early sellers are now sorry that they sold before they had time to see the quality of the crop and the increased demand for cased goods.

The growers who as yet have not sold their crop report that every week two or three buyers are urging them to name a price. One grower asked 18, 8 and 4 for his crop but finally sold for 16, 6 and 3.

Afterward he learned that the same buyer would have paid 17, 7 and 4 for the crop if he had held out an hour longer. At the latter price the crop would have brought just \$100 more. Most of the growers who have not sold believe they will get from 18 to 20 cents for wrappers, 8 to 10 cents for fillers, 4 to 5 cents for scrap, 10 and 12 cents for hail cut and frost bitten tobacco in another month.

Too much moisture and uncured stems in the bulked tobacco is certain to cause more or less damaged goods. Buyers say that if the growers will maintain the quality and handle the crop properly, they need not fear low prices.

TROLLEY CAR STRIKES A MAN

Henry Eigel, Aged About Sixty Years, Severely Injured

Struck by an east-bound Elizabethtown trolley car near Sener's crossing at 6:26 o'clock on Sunday evening, Henry Eigel, aged about sixty years, of Rohrerstown, was severely injured. He was lying across the tracks in front of Joseph Musser's residence partly intoxicated, it is said, when the car, which was about five minutes late, came rapidly along. The brakes were applied by the motorman, John E. Kinner, but too late to avoid hitting the man. He was tossed to the side of the tracks. The crew placed him on the car and took him to Rohrerstown, where Dr. Martin Ringwalt and Dr. N. E. Bitzer, who was visiting Dr. Ringwalt, administered temporary treatment. He was then brought to Lancaster on the same car and taken to St. Joseph's Hospital.

His injuries consist of a badly lacerated face and body. No internal injuries resulted from the accident. In his pocket were found a flask of whiskey, half emptied, and a bank book in the name of Henri Eigel, showing deposits in the Millersville Bank. It was thought at first that he had sustained a fractured skull, but such is not the case, report the hospital authorities.

St. Joe Played to a Standstill

(Continued from page 1)
Lancaster man immediately pounced upon him. On the next play Mt. Joy fumbled, St. Joe getting the ball on their own 18 yard line. On two plunges Lancaster was forced back 3 yards and the first period ended with the ball in St. Joe's possession on their own 15 yard line.

Second Period
St. Joe's first play was a forward pass but instead of their ends receiving the ball, "Battleship" Kramer grabbed the pigskin and carried it back 20 yards. The ball swayed to and fro until Mt. Joy was forced to kick on its own 12 yard line. The visitors then began a march down the field and carried the ball 35 yards before they were forced to kick, Mt. Joy getting the ball on its 15 yard line. The locals carried the ball back to the center of the field and the referee's whistle ended the first half.

Third Period
Mt. Joy kicked off and St. Joe returned it to its 15 yard line. St. Joe was held for downs and was forced to kick. Ellis caught the ball and made a beautiful zigzag run of 35 yards, passing every player on the Lancaster team but one. Mt. Joy was held for downs and the locals immediately held on St. Joe's 10 yard line. Lancaster intercepted a forward pass, getting possession of the ball. St. Joe was penalized 5 yards for off side play and the third period ended.

Practical Economy

Baking powders made from alum or phosphate may be bought for a trifle less than Royal Baking Powder, which is made from cream of tartar, derived from grapes.

Alum powders are not only cheap, but they differ greatly in leavening power.

If a cheap baking powder is used for a fine cake and the cake turns out a failure there is a waste of costly materials worth more than a whole can of the cheap baking powder.

Royal Baking Powder produces the finest food, and its use therefore, results in an actual saving.
