BASKETBALL

Mount Joy vs. Rothsville

The Rothsville High School team was the attraction here last Friday evening and they were easy picking for the locals. Manager O'Neill put his second team against the visitors the first and final periods while his first string men played the other two periods. The "big" squad scored almost at will. The final score was 28 to 8 in favor of the locals.

Quarryville Friday Night

There will be something doing in the High School gymnasium Friday evening when the strong Quarryville High School team will play the Mt. Joy High School. This will be one of the best games of the season as the visitors are a fast bunch and it is needless to say that we have some team here.

Mt. Joy vs. Maytown

There will sure be some lively doings at Elizabethtown Thursday evening when Mount Joy and Maytown will meet in the third and deciding game of their series of three. Each team has won a "leg" and the third will be played on a neutral floor, which accounts for the game being played at E'town. Both managers have agreed on the following players: Mount Joy—Hahn, Edwards, Gantz, Grissing, Klugh, Brown and Ellis. Maytown—Graybill, Smith, Sturgis, Lutz, Housel and Fletcher. The game will be called at 8:15.

Maytown-Millersville

The strong Maytown five defeated Millersville on the former's floor in one of the best games seen there this season by the close score of 33 to 30. Wolfersberger led the scoring with eight dual pointers while Housel was a close second with six. The lineup:

Maytown	Position	Millersville
Housel	forward	Wolfersberger
Fletcher	forward	R. Warfel
Hershey	centre	C. Warfel
Sturgis	guard	Click
Haines	guard	Hess
Field	Goal	Housel 6, Hershey 2, Sturgis 4, Wolfersberger 8, R. Warfel 3, C. Warfel 1, Glick 1. Fouls—Housel, 9 out of 15. R. Warfel, 4 out of 12. Substitutes—Lutz for Haines and Kready for Glick. Score 33 to 30.

FOULS

Guess Elizabethtown won't take advantage of rooting against us tomorrow night. Well, we can't blame 'em as they haven't forgotten that defeat at Marietta last year as yet. There is also a likelihood of Quinn playing with the locals Thursday evening. He can be played provided Manager Groff can get him.

WINTER QUARTERS

That Animal Have Suitable Shelter, Proper Amount of Exercise and Good Feed.

E. L. THOMPSON, Associate in Animal Husbandry, South Dakota State College.

If the sow is to be properly cared for during the winter months it is necessary that she have suitable shelter, a proper amount of exercise and that she be fed not only liberally but upon feeds that furnish the necessary nutrients required by the pregnant sow. Suitable shelter can be supplied by hoghouses of various types and the style of house used will depend upon the conditions existing upon any certain farm. Whatever kind of house is used it should be well ventilated, dry and well lighted. Portable houses may be used advantageously part of

the year, but at farrowing time a well-planned and well-built permanent structure is needed.

Personally, I prefer a house with the semimontor type of roof and one of sufficient width for two rows of pens with a feed alley between them. The length will depend upon the number of sows that are to be housed in it. The pitch of the roof should be such that the sun's rays will fall upon the north row of pens during the middle of the day. Of course this type of house should always face the south. In a building of this sort it is much easier to care for the sows than it is when small individual houses are used. Especially is this true at the farrowing time as one man can properly look after a much larger number of sows than when they are scattered about in a number of different small houses.
