TUESDAY

How the old range does love to heat things up, especially when it's sizzling hot outside! Then, there's always the coal or wood to carry, always that constant raking and poking, pulling this and pushing that, to keep the fire going.

But the ironing must be done. There's no other way to do it, is there? No, not unless you have a New Perfection Oil Cook Stove in your kitchen.

NEW PERFECTION OIL COOK-STOVES

have made thousands of women happy—freed them from the ironing day and the everyday drudgery and overwork you have now.

A Perfection will heat the irons on Tuesdays. And it's always ready to bake, fry, boil or roast at the strike of a match. You'll be particularly interested in the separate oven and the fireless cooker. Your dealer will explain about them. Ask him.

THE ATLANTIC REFINING COMPANY
Philadelphia and Pittsburgh

One of the many good points about a Perfection is that it burns the most economical fuel—kerosene. And the best kerosene is Rayolight. It's so highly refined that it burns without smoking, sputtering, smelling or charring the wicks. Look for this sign:
