

Buy an Up-to-Date Manure Spreader

OF ALL the manure spreaders you see, you will find none with more modern improvements than in the Low 20th Century.

The box is only waist high, saving between 40 and 50 per cent of the labor of loading. The apron and beater are thrown out of gear automatically when the load is off. The front trucks are narrow, making it possible to top dress corn by straddling only one row. The front truck supports an extension of the main frame, allowing the spreader to be turned in its own length. The rear axle is set well forward under the machine, bearing a large proportion of the load and insuring plenty of tractive power.

The Low 20th Century spreader has been called "the spreader with all of the good points." It will live up to this reputation in its work on your farm. Let us show you why it deserves such a good reputation and why it is the best spreader you can buy. Come in and see the machine.

PENINSULAR TRIPLE-REGISTER Heating & Ventilating System

Tested and proven the only satisfactory operating construction this kind yet produced. Absolute assurance of a cool cellar—perfect circulation of warm air in every room.

Pipeless

Furnace

Why the Peninsular is Best

Operates According to the Laws of Nature by drawing cold air into the furnace independent of the warm air outlet. This feature allows a constant flow of cold air to enter the base of the furnace, thereby acting as a cooling agent on the heated parts similar to a water jacket on an engine. Other makes try to force the cold air into an outside casing that is separated from the warm air by only a thin wall. Your common sense tells you this kind of construction will burn out the furnace in a very short time because the cold air, before it reaches the base, will become very hot.

Cold Air Drawn From Two Parts of the house independently of the warm air outlet not only allows every room to get its full quota of warm air, but gives perfect circulation throughout the house. This exclusive Peninsular feature keeps every room evenly heated, including the most remote corners.

No Pipes are used to conduct heat throughout the house and to the upper rooms, making installation easy—no walls to tear up.

This is the last thing in warm air heating. There is no more need for you to wait longer to enjoy furnace comforts. The price is within reach of everybody. Let us estimate for you.

RED CROSS NEWS Red Cross Workers Asked for 1,500,000 Sets of Knitted Garments

An appeal has come to the American Red Cross from Major Grayson Murphy, Red Cross Commissioner from Europe for 1,500,000 knitted sets, comprising sweaters, muffler, wristlets, and socks.

The cable from Major Murphy reads: "Begin shipping at once one and a half million knitted sets. These are desperately needed before cold weather."

"Last winter broke the record for cold and misery among the people here. They inexpressibly dread lest the coming winter find us without supplies to meet the situation. I urge you on behalf of our soldiers and those of our allies, who will suffer in the frozen trenches."

This does not mean that there can be the least cessation of efforts of work in the production of surgical dressings and hospital garments. The need for these being even more urgent than before.

A letter has been received from the Lancaster Chapter, by the local chairman, Mrs. Clarence Schock, with regard to this matter, stating that supplies and manual instruction will be forthcoming in a very few days; and urging that all persons who can knit, whether they are members of the Red Cross or not be enlisted in this work.

The ladies of the Red Cross organization are supplying the men, who are enlisted from Mount Joy with Comfort Bags. This work is independent of the Red Cross work, and funds, being done entirely by individuals. They request that any men, expecting to leave will send their names and the time they expect to go to Mrs. Clarence Schock so that they can be supplied.

Get Ready to Pay These Taxes

(Continued from page 1)
bonated) soft drinks, ginger-ale, root beer, sarsaparilla, pop if sold by a manufacturer, producer, or importer of carbonic acid gas, 1 cent per gallon.

ROCK POINT

Some tobacco thru this section was again damaged by hail last week. Some of our farmers are raising their potatoes and report a good yield.

Mr. and Mrs. A. S. Holwager and Mr. and Mrs. S. S. Holwager attended Manor camp on Sunday.

Mr. and Mrs. Samuel H. Tressler, Marie Tressler, Mr. and Mrs. Luther Roath and Mrs. S. S. Holwager were pleasantly entertained at the home of Mr. and Mrs. A. S. Holwager on Friday at a chicken and waffle dinner. In the afternoon they went to Hershey by auto. All had a very enjoyable time.

Save Pennies—Waste Dollars

Some users of printing save pennies by getting inferior work and lose dollars through lack of advertising value in the work they get. Printers as a rule charge very reasonable prices, for none of them get rich although nearly all of them work hard.

Moral: Give your printing to a good printer and save money.

Our Printing Is Unexcelled

THE Merchants who advertise in this paper will give you best values for your money.
