TREATING HOGS WITH WORMS

Happenings

TREATING HOGS WITH WORMS

Hogs and from page 1)

In well from page 1)

In writing for the Pennhylvania farmer, Mr. H. M. Anderson says that the seed-bed, the condition of the seed wheat and fertilization are the seed-bed, the condition of the seed wheat will decide next year's wheat crop.

"To expel worms from hogs the following prescription is right for a pig weighing about 100 pounds: Santonin, two grains; sodium bicarbonate, and two grains; accounts and the harrow as soon and the same day seed to weath the wheat, says Mr. Anderson, wheat, says Mr. Anderson, wheat, says Mr. Anderson, as the ground is fit to work in after and the work of a bout 120 hours and give the dose in a slop of middlings. The evening is in Mount Joy, real estate and personal property by Mrs. Louisa Krady, Mrs. Martha Hoffer and Andrew M. Martha Hoffer and Andrew M. Saturday, Sept. 19—On the premise ture content of the soil. It is possible to accumulate a great deal of moisture in this way even during very dry seasons, and wheat seeded under the seed wheat will underson, whould plow early, harrow and roll of the wheat in the seed bed, the condition of the seed wheat is the seed-bed, the condition of the seed wheat is the seed-bed for wheat, says Mr. Anderson, which will decide next year's wheat trop.

"To get an ideal seed-bed for wheat, says Mr. Anderson, whe should plow early, harrow and roll of the wheat, says Mr. Anderson, whe strong wheat is the seed wheat will an the seed due next year's what to work in a firm for the pennhylvania from the factors whi Following is the news of every is spending a few days here with his church in this community as supplied by the various pastors. If the doing of your church and Mrs. F. R. Stretch and lines of your church and Mrs. Helen and Freda, spending a few days here with his of the same day give a mash of wheat seeded under these conditions almost invariably bran. This will flush the bowels.

Mr. Harry Grosh of Clearfield, O., is spending a few days here with his a slop of middlings. The evening of the same day give a mash of wheat seeded under these conditions almost invariably bran. This will flush the bowels. Gather all worms and burn them.

Salt and sulphur and charcoal should farm.

Salt and sulphur and charcoal should be kept in every pigpen and pig yard so the pigs can help themselves.

This is a corrective and a preventive of worms.

COLTS RESPOND TO FEEDING

Tarm.

"Perhaps the next most important factor is fertilization. I find that I cannot grow even fairly good crops of wheat without the use of commercial fertilizers. Not that I have ever tried to do so, but I sometimes see where one end of the fertilizer box got empty near the end of the return trip, and it surely looks as turn trip, and it surely looks as though money spent for fertilizer was money well invested.

Up Big Frame.

"Fertilizing ingredients are now up about 50 percent above the Spring prices, but I am sure that it would be abundant feeding than the colt. The first winter after weaning, the ultimate size of the colt is largely determined. We understand that the French Percheron breeders feed as much as ten pounds daily of bran and oats to a new high record. Even the crop ten pounds daily of bran and oats to a new high record. Even the crop their weanling colts. The object of feeding the weanling at least double the normal price. Fertilizers have not doubled in price big frame, with heavy muscling. Our forms of fertility as are still obtain-
