Suit H. S. & M.
Run No Risk**

Outside of all the fine style qualities, all the splendid workmanship and high-grade tailoring embodied in a Hart Schaffner & Marx Suit—outside of all these points there is one point of DEPENDABILITY in the product of this wonderful clothing that alone would have made it famous: And that is, there's never a Suit or Overcoat turned out bearing their label but what is ALL WOOL.

In these times of high prices and questionable values it's certainly worth while to play safe on the clothing you buy—and you CAN do it by buying H. S. & M. Clothes.

GROFF & WOLF CO. is the sole selling agency in Lancaster city, and at \$20, \$22, \$25, \$28 and \$30 we show you a range of patterns, in light, medium and dark that has never been touched in this section.

**Low 20th Century Manure Spreader
A Durable Machine**

THE Low 20th Century spreader is durable because it is built almost entirely of steel. The main frame is steel, braced with steel. Both front and rear trucks are steel. All driving parts are steel. The controlling levers and even the seat are of steel. The only wood entering into the construction of this machine is used in the sides of the box, the apron slats, the beater bars, and the tongue. In these places the kind of wood used is more durable than steel.

Besides being durable the Low 20th Century spreader is without exception the most efficient spreader on the market. The features that make it durable and efficient will have to be seen to be thoroughly understood. We have a sample machine set up, and can show you what these features are better than we can tell you in fifty advertisements. Come in and see the machine.
