If You Want a Car That's Tried and True

I have taken the agency for the Maxwell Automobiles, which is one of the best equipped and easiest riding cheap cars on the market. It is by no means a new car, but one that has been tried for years and has proven satisfactory. Any one in the market for such a car will readily be convinced of its merits after a demonstration which will be cheerfully given. I not only sell cars, but I am prepared to take care of the people to whom I sell, which should not be overlooked by persons buying cars. I am at your service Sundays or night time as well as during the day. None but competent mechanics employed. If your car needs attention, give this garage a trial. I also handle the

1—Quays of the Russian port of Riga, captured by the Germans. 2—Colonel Roosevelt, Charles E. Hughes, Adjt. Gen. W. L. Sherrill, Admiral Gleaves and Gen. Eli D. Hoyle cheering the parade of New York's draft army; 3—French hand grenade throwers in a first line trench setting the fuses in their grenades.

**NEWS REVIEW OF  
THE PAST WEEK**

**Government Finally Closes Down on Industrial Workers of the World.**

**MANY RAIDS AND ARRESTS**

Italians Continue Victorious Progress Toward Trieste—Germans Take Riga and Great Naval Battle in the Gulf of Finland Is Expected.

By EDWARD W. PICKARD.

Its war industries hampered, its dignity outraged and its patience exhausted, the government of the United States arose in its might last week and began the process of squashing the disreputable and disloyal Industrial Workers of the World. In more than a score of cities, mostly in the middle and far West, their headquarters and printing offices were raided and great quantities of material seized. The department of justice prepared for this action secretly and carried it out swiftly and skillfully, and is now ready to have the leaders of the organization indicted if the documents taken warrant this. In some cities many arrests were made. Prosecutions may be started under the new espionage law, or any one of several other laws.

Two of the things that caused Uncle Sam to get after the I. W. W. were the preaching of sabotage—the willful destruction of property—and the use of "stickerettes" designed to obstruct justice, which were plastered all over the country. They are also accused of misusing the mails to send out matter advocating treason, insurrection and forcible resistance to the laws concerning the carrying on of the war.

The documents seized show that the I. W. W. was planning a nationwide strike which, it hoped, would tie up munition plants, railroads and lumber mills, and the sabotage advocated was to be practiced in connection with this strike.

There is a well grounded belief that the leaders of the I. W. W. are constantly supplied with funds from German sources, but the great mass of its members no doubt are merely ignorant and misled creatures.

The national headquarters of the Socialist party in Chicago also were raided and books and papers seized.

"Big Bill" in Eclipse

Another "prominent" opponent of the government—William Hale Thompson, the mayor of Chicago—came a cropper last week. In defiance of the orders of Governor Lowden, he compelled the police of Chicago to give protection to a meeting of the pacifists who had been barred from Wisconsin, Minnesota and other states. Thereupon the governor sent troops to the city to prevent repetition of the offense, the city council of Chicago formally rebuked the mayor, the agents of the department of justice began inquiries into his conduct with a view to his indictment, the press and people of the country denounced him, and his infant boom for the Illinois senatorship collapsed utterly. He did not go to the Kankakee fair, where that boom was slated to be started. It is difficult to write of Thompson, Mason and other still more prominent foes of their country in printable language. Those who combat the government's war efforts "give aid and comfort to the enemy" and expatriated loyalty wonders why they are not subjected to the penalties prescribed by the law against treason.

minio by Cadorna's forces. In fact, a general retreat of the Austrians on that front was predicted. In the battles on the Bainsizza plateau the Italians captured immense quantities of arms and munitions, for the enemy fled in haste and disorder. Nearer the coast, the fortress on Monte Hermada still held out against furious attacks, keeping the Italians from advancing on Trieste by that route.

**Riga Taken by Germans.**  
Riga has fallen, the kaiser rejoices and the war-to-victory party in Germany has a new argument. But this, like the Gallician affair, is rather a cheap victory over a disorganized army, and was expected. The Russians have retired beyond the River Ana, fighting fairly well as they went, and the fierce bravery of the Battalion of Death enabled them to prepare a new line of resistance.

The taking of Riga gives Germany complete command of the Baltic and the way lies open for an advance on Petrograd by land, but it is not at all certain the kaiser will go on to the Russian capital. The route is long and through difficult country, and the advantages of possessing Petrograd might be offset by such an extension of his lines just as winter is at hand. At the time of writing, it appears likely that the German Baltic fleet will meet the Russian sea forces in battle in the Gulf of Finland. It is believed the fortified island of Osel at the head of the Gulf of Riga and the port of Reval, which guards the entrance to the Gulf of Finland, cannot hold out long, and the Russian fleet thus is likely to be cooped up under the guns of Kronstadt, the great fortress that protects the port of Petrograd.

Part of the German fleet already has been sighted at the entrance to the Gulf of Finland.

Germany's offensive against Russia appears to have been timed to coincide with an expected counter-revolution planned to restore autocracy in Russia. The plot, however, was uncovered and many arrests of grand dukes and others have been made.

General Alexieff, former commander in chief, and General Vassilkovskii, commander of the Petrograd garrison, agreed Thursday that the fall of Riga did not threaten Petrograd and was of moral but not strategic importance.

**On the Western Front.**  
In France and Flanders the week brought little change in the positions of opposing armies, though the fighting was interrupted. The British deluged the German lines in Belgium with shell fire that indicated another drive, and there were reports that Crown Prince Ruprecht was preparing to execute another "strategic retreat" to the Courtrai-Thourout line and thus give up a strip of territory east of Ypres from ten to twenty miles deep. This would help the allies on their way toward the German submarine bases at Zeebrugge and other ports on the Belgian coast.

The Germans made several air raids on England, killing a number of persons, especially at Chatham, and one of their U-boats shelled Scarborough. The British press exhibits some uneasiness lest the Germans have "got the jump" on the allies in the matter of increased air forces. The United States, however, is coming fast in this respect, building machines as rapidly as possible and training a big army of aviators, here and abroad.

Again on Thursday night the German aviators devoted their attention to the French hospitals behind the Verdun lines, bombarding them for six and a half hours and killing 19 soldiers who already were severely wounded.

If a cablegram from Shanghai is to be believed, China is about to enter into active participation in the war. The Twenty-fourth army corps, composed of 15,000 picked troops from the northern provinces, is said to be mobilized for immediate departure for Europe, probably through Siberia to the eastern front to assist the Russians and Rumanians. The corps includes several companies of engineers offered by Chinese graduates of American colleges, and an aviation corps trained by American and French aviators. These troops would be the first Mongolians to fight in Europe since the time of Genghis Khan, 800 years ago.

Argentina two weeks ago was rejoicing over a supposed diplomatic victory over Germany in the matter of U-boats. Now the South American republic is in the throes of a great railway strike which is certainly fomented and financed by Germans. Thousands of workmen have quit and there has been serious destruction of property and considerable rioting.

**Organized Labor Loyal.**  
Organized labor in the United States, determined to assert its loyalty, met last week in Minneapolis, together with many radicals and Socialists, and formed the American Alliance for Labor and Democracy. Under the leadership of Samuel Gompers, Frank P. Walsh, John Spargo and others, the delegates declared the new organization firmly back of the armed forces of the government in their fight for "a victory which will mean the coming of the greatest world democracy ever dreamed of." Definite reports have been circulated that laborers are planning to cripple various industries by strikes, especially the fuel industry. These reports, Mr. Gompers declares, do not relate to the American Federation of Labor. They are, however, too well substantiated to be ignored.

The British trades union congress by a vote of 284,000 to 91,000 declared itself opposed to participation in the Stockholm congress, and this, taken together with the refusal of many countries to grant passports to delegates, probably will result in the entire abandonment of the gathering in the Swedish city.

**Pope Preparing Second Note.**  
Not wholly discouraged by the failure of his peace note, Pope Benedict is preparing a second proposal for the ending of the war. Premier Ribot, speaking on the Marne battlefield, declared that a requisite in any peace treaty acceptable to France was the restoration of Alsace-Lorraine.

The German press continues to heap abuse and ridicule on President Wilson for his reply to the pope's note, declaiming loudly against his demands that the government of Germany be democratized before peace can be made with it. But the reichstag majority is insistently demanding just about the reforms the president considers essential.

Dispatches from Switzerland say the central powers have determined on the partition of Poland. According to the plan, Germany is to take about one-tenth of Russian Poland to rectify her frontier, and Austria will annex the remainder, unite it to Galicia and proclaim the territory the united kingdom of Poland, with Emperor Charles as its king. It is to have its own parliament, but its foreign policy, finances and army are to be controlled by Austria. This plan does not please Hungary, because that country thinks its influence will be lessened if the empire becomes a triple kingdom.

**All Stove Troubles Fade Away Before This Pipeless Furnace**

Stoves and base-burners are trouble makers, work makers, expense makers. There's the trouble of setting them up in the Fall and taking them down in the Spring, with unsightly pipes disfiguring the home six months out of twelve. There's the work of bringing in coal and taking away ashes, with the extra work caused by the dirt and dust that fills the rooms. There's the expense of buying several stoves (because one is not sufficient to heat a home), the expense of maintaining three heating units, and the expense of replacing furnishings which are damaged by dirt and dust. You can buy a

**Home Ventilator Furnace**  
The Original PATENTED Pipeless Model  
Manufactured only by the Homer Furnace Co., Homer, Mich.

for little (if any) more than you pay for a good base burner, yet it will give you furnace perfection. The heat will be distributed evenly throughout the house—made plenty of it. No small registers scattered about, no wall flues to invite fire danger, no cold air drafts, no pipes in the rooms, no space wasted, no trouble to install, no boiler at any time, no heat in the cellar. A "Home Ventilator" in the cellar, one combination hot- and cold-air register right above it, and the heating system is complete.

Write or telephone us for more particulars.  
**G. MOYER, Mount Joy, Penna.**  
Read the Booklet "From Pig to Pen"

**Facts Concerning The Home Ventilator Furnace**

An announcement made by competition would indicate that a DECLARATION OF WAR had been made on all types of furnaces by the one they are handling, and if this article were allowed to go unheeded, the result would be that possibly many people would be misled into purchasing some furnace other than the HOME VENTILATOR, being under the impression that they were getting the original.

We take pleasure in informing the people of Mount Joy and vicinity that G. Moyer of Mount Joy is prepared to furnish you with the HOME VENTILATOR FURNACE, which has been on the market for the past seven years and is absolutely the ORIGINAL PATENTED PIPELESS FURNACE using the combination hot and cold air register.

**TAKE SPECIAL NOTICE**—Mr. G. Moyer has copies of patent papers, both of ours and competition, which will clearly show that HOME VENTILATOR FURNACE was in use and PATENTED LONG BEFORE ANY OTHER FURNACE of this type was HEARD OF.

**A LITTLE HISTORY**—Back in 1910 when the only furnace was the old pipe job, Mr. S. D. Strong, President of the Homer Furnace Company, Homer, Michigan, conceived the idea that if a furnace could be made which would satisfactorily heat residences, stores, churches, school-houses, etc., and at the same time save the heat which was being wasted in cellars by pipe furnaces, a ready sale would be found. Against the advice of older and more experienced furnace men, he perfected and manufactured a few HOME VENTILATOR FURNACES. The result was a REVOLUTION IN THE HEATING WORLD. Farmers, who heretofore could not have furnaces because their vegetable storage would be spoiled, bought "HOMERS," installed them in the vegetable cellars, heated their houses so much cheaper than with stoves, and so much more satisfactorily, that since that time THOUSANDS OF HOME VENTILATORS HAVE BEEN SOLD, from Maine to California, and from Florida to Canada.

Now—when other manufacturers saw the enormous strides made by THE HOME VENTILATOR, their eyes began to open, and from the sickly grin they tried to maintain they were brought up against the solid fact that TO SAVE THEIR BACON, they MUST manufacture something as near the HOME VENTILATOR as possible without infringing on the rights of S. D. Strong. SMALL MANUFACTURERS sprang up trying to get a foot-hold in the pipeless world, but the HOME VENTILATOR has been too long established and had too big a start to be affected, and the sales of the Homer Furnace Company still lead by many lengths. IN THE LAST FIVE MONTHS 4000 HOME VENTILATOR FURNACES HAVE BEEN SOLD TO RESPONSIBLE DEALERS.

**DON'T BE DECEIVED** into buying an imitation of the HOME VENTILATOR FURNACE. Don't let other manufacturers experiment at your expense. When you buy, buy the ORIGINAL. Five minutes comparison will convince you. Weigh the 24 inch fire pot of the HOME VENTILATOR (when we say 24-in. we mean inside measurement) then weigh that of any other furnace of the same size. Result? About 40 percent in favor of the HOME VENTILATOR. The HOME VENTILATOR is equipped with heavy galvanized casings throughout; no flimsy black inner casings to rust out, and which are good only as talking points, and the buyer pays for these talking points by getting a lighter furnace.

The HOME VENTILATOR FURNACE is sold under a guaranty to do the business or no sale, and every casting is guaranteed for five years, except the grate, and our reason for not guaranteeing this is that sometimes a careless user will allow ashes to accumulate underneath, and same is liable to melt out. However this happens only rarely.

After manufacturing HOME VENTILATOR FURNACES for seven years, our repair business will not amount to \$1.00 a day, which we judge is a fair evidence of the durability of our castings.

Our modern plant at Homer, Michigan is equipped to manufacture 9000 furnaces per year, and enables us to turn out a furnace which is a joy to the installer, and castings second to none.

Remember—

G. Moyer of Mount Joy is prepared to furnish you with the ORIGINAL PATENTED PIPELESS FURNACE, and the one from which all others of this type are copied either directly or indirectly. BUY THE "HOMER" and be safe from infringement proceedings. 15,000 in use. For further information call on
